166 Hold a public hearing to discuss and consider a request by Mike and Mary Frasier for the approval of a *Specific Use Permit (SUP)* for a *Guest*  
167 *Quarters/Secondary Living Unit/Accessory Dwelling Unit* on a 0.74-acre parcel of land identified as Lot 13, Block E, Wade Addition, City of Rockwall,  
168 Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, addressed as 704 Jackson Street, and take any action necessary.  
169

170 Planning and Zoning Director Ryan Miller provided a brief summary in regards to the request. The applicant is requesting an SUP for the purpose  
171 of constructing guest quarters or secondary living unit. The proposed structure will be a 2-story, 20' x 25' structure and will stand 24 feet 8  
172 inches at the peak. It will meet all of the setback requirements and will be situated behind the primary structure. The applicant has stated that  
173 the intent of this structure is to be used as a shop but it will incorporate a bathroom and could be used as a guest quarters or secondary living  
174 unit. The proposed structure does meet all of the applicable requirements. Staff should note that there are no comparable structures in homes  
175 in the same block but this property is situated in the older part of town and there are other similar structures to what the applicant is proposing  
176 in the surrounding area. Staff sent out 110 notices to property owners and occupants within 500-feet of the subject property. Staff also notified  
177 all HOA's within 1,500-feet of the subject property. Mr. Miller then advised the Commission that the applicant and staff were present and available  
178 to answer questions.  
179

180 Commissioner Womble asked what the primary structure was built out of.

197 Hold a public hearing to discuss and consider a request by Perry Bowen of Perry Bowen Homes, LLC for the approval of a *Specific Use Permit (SUP)* for  
198 *Residential Infill Adjacent to an Established Subdivision* on a 0.49-acre parcel of land identified as Lot 2, Block A, Haley & Kyle Addition, City of Rockwall,  
199 Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, addressed as 503 S. Clark Street, and take any action necessary.  
200

201 Planning and Zoning Director Ryan Miller provided a brief summary in regards to the request. The applicant is requesting an SUP for residential  
202 infill adjacent to an established subdivision for the purpose of constructing a single-family home. When reviewing a request for residential  
203 infill, the City Council and Planning and Zoning Commission are asked to look at the size, the area, and the architecture of the proposed home

204 compared to other houses in the area and see if it's compatible. The proposed house does meet all of the zoning requirements for the Single-  
205 Family 7 (SF-7) District. Staff sent out 69 notices to property owners and occupants within 500-feet of the subject property. Staff also notified  
206 all HOA's within 1,500-feet of the subject property. Mr. Miller then advised the Commission that the applicant and staff were present and available

222 V. ACTION ITEMS  
223

224 *These items are not advertised public hearings and deal with discretionary approvals for the Planning and Zoning Commission related to variances and*  
225 *special exceptions to the technical requirements of the Unified Development Code (UDC) or Chapter 38, Subdivisions, of the Municipal Code of Ordinances.*  
226

227 11. MIS2022-001 (HENRY LEE)  
228

229 Discuss and consider a request by Clark Staggs of Foxtrot 46 Development on behalf of Neil Gandy of ADD Real Estates for the approval of a *Miscellaneous*  
230 *Case* for a *Tree Mitigation Plan* and an *Alternative Tree Mitigation Settlement Agreement* for a 6.60-acre tract of land being a portion of Tract 21 of the D.  
231 Harr Survey, Abstract No. 102, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, generally located on the north side of Airport  
232 Road east of the intersection of Airport Road and John King Boulevard, and take any action necessary.  
233

234 Planner Henry Lee provided a brief summary in regards to the request. The applicant is requesting the approval of a *Treescape Plan* and an  
235 *Alternative Tree Mitigation Settlement Agreement*. Based on the *treescape plan* the applicant provided, the total mitigation balance was 1,067.5  
236 caliper inches. However, after Staff reviewed the Arborist's report and the *treescape plan*, staff found that the actual tree mitigation would be  
237 628.75 inches. Per Unified Development Code (UDC) requirements, this would equate to a fee of \$125,750.00. Based in this fee, the applicant is  
238 requesting an alternative tree mitigation settlement agreement that outlines an alternative fee schedule for the trees being removed. The  
239 applicant is requesting to pay a mitigation fee of \$17,820.00 which would represent 14.2% of the total mitigation calculated. Staff should note  
240 that typically the alternative tree mitigation settlement agreements have been used to allow the applicant to pay the full fee amount rather than  
241 follow the 80/20 rule. Mr. Lee then advised that this was a discretionary decision for the City Council pending a recommendation from the  
242 Planning and Zoning Commission.  
243

244 Chairman Chodun asked if the City used an arborist when the fees were calculated.  
245 Vice-Chairman Welch asked is we typically go by what the City refers for mitigation.  
246 Commissioner Deckard asked what the lot is going to become.  
247

250 Rockwall, TX 75087  
251

252 Mr. Staggs came forward and provided additional details in regards to the request.  
253

254 Commissioners Thomas and Moeller expressed his opposition to the request.  
255

256 After some discussion, Commissioner Womble made a motion to deny the alternative tree mitigation settlement for case MIS2022-001.  
257 Commissioner Thomas seconded the motion to deny which passed by a vote of 7-0.  
258

259 Commissioner Thomas made a motion to approve the tree mitigation plan (*treescape plan*) for case MIS2022-001. Vice-Chairman Welch  
260 seconded the motion which passed by a vote of 7-0.  
261

262 12. MIS2022-002 (HENRY LEE)  
263

264 Discuss and consider a request by Patricia Edwards for the approval of a *Miscellaneous Case* for a *Special Exception* to the *Fence Standards* for an  
265 existing single-family home situated on a 0.907-acre tract of land identified as a portion of Block 121 of the B. F. Boydston Addition, City of Rockwall,  
266 Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, situated within the Old Town Rockwall (OTR) Historic District, addressed as 602 Williams  
267 Street, and take any action necessary.  
268

269 Planner Henry Lee provided a brief summary and background in regards to the request. The applicant is requesting to allow the unpermitted  
270 improvements to remain in place and allow a future expansion of the stone wall to continue south along the western property line. The original  
271 wall is estimated to be about 5-foot tall and, after the unpermitted improvements, it is 10-foot tall. The applicant has stated that the additional  
272 height is required to block headlights from the adjacent property to the west. Staff should note that the Neighborhood Improvement Services  
did receive a complaint about these floodlights but they indicated that there was no violation in place. Mr. Lee advised that this was a  
discretionary decision for the Planning and Zoning Commission. Based on the Historic Preservation Board's approving a Certificate of

Appropriateness for this case, they are sending a recommendation of approval to the Planning and Zoning Commission. To assist the Planning and Zoning Commission in their decision, Staff has provided information submitted by the applicant as part of that HPAB case. Staff should note that if this case is denied, the applicant will have to bring the fence and wall into conformance with the requirements of the UDC.

Commissioner Thomas asked if there was no adverse impact that was against the property. He also asked what the reason was for the HPAB Board member dissenting on the case.

Patricia Zayne Edwards  
602 Williams Street  
Rockwall, TX 75087

Mrs. Edwards came forward and provided additional details in regards to the request.

After brief discussion, Commissioner Deckard made a motion to approve the raised stone wall and cedar fence area but deny the proposed raised wall extension for MIS2022-002. Commissioner Thomas seconded the motion which passed by a vote of 7-0.

13. **SP2022-002 (HENRY LEE)**

Discuss and consider a request by David A. Morales of Pross Design Group, Inc. on behalf of Robert Reece of Alvaplast US (*SPR Packaging*) for the approval of an *Amended Site Plan* for an existing *Office/Warehouse/Manufacturing Facility* on a 10.1893-acre tract of land identified Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary.

Planner Henry Lee provided a brief summary in regards to the request. The applicant is requesting to expand their existing facility to expand production capacity. The applicant has two variances associated with the request and they are for parking and for screening. Mr. Lee advised that the variances and the amended site plan are a discretionary decision for the Planning and Zoning Commission.

Bobby Pross  
5310 Harvest Hill Road, Suite 180  
Dallas, TX 75230

Mr. Pross came forward and provided additional details in regards to the request.

Commissioner Womble made a motion to approve SP2022-002. Commissioner Moeller seconded the motion which passed by a vote of 7-0.

VI. DISCUSSION ITEMS

PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

---

**TO:** Planning and Zoning Commission  
**DATE:** March 15, 2022  
**APPLICANT:** Dnyanada Nevgi; *SRC Land Building and Real Estate, LLC*  
**CASE NUMBER:** P2022-006; *Replat for Lots 13 & 14, Rockwall Business Park East Addition*

---

### SUMMARY

Consider a request by Dnyanada Nevgi of the SRC Land Building and Real Estate, LLC on behalf of Rajesh Malviya of Buffalo Country Properties, LLC for the approval of a Replat for Lots 13 & 14 of the Rockwall Business Park East Addition being a 6.280-acre parcel of land identified as Lot 5 of the Rockwall Business Park East Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated on the southside of Ralph Hall Parkway west of the intersection of Ralph Hall Parkway and S. Goliad Street [*SH-205*], and take any action necessary.

### PLAT INFORMATION

- The applicant is requesting the approval of a Replat for a 6.280-acre parcel of land (*i.e. Lots 13 & 14 of the Rockwall Business Park East Addition*) for the purpose of establishing two (2) lots (*i.e. Lots 13 & 14, Rockwall Business Park East Addition*). Prior to the applicant's submittal for this Replat, a site plan for the subject property was approved by the Planning and Zoning Commission for a *Daycare Facility* and a *Strip Retail Center* [*Case No. SP2020-006*].
- The subject property was annexed by the City Council on December 7, 1981 by *Ordinance No. 81-33* [*Case No. A1981-002*]. On January 4, 1982, the subject property was rezoned to Planned Development District 14 (PD-14) [*Ordinance No. 82-02*] for office, retail, light industrial, warehouse, hotel, medical office, and restaurant land uses. The zoning change included 100.00-acres of land. On December 5, 1983, the City Council approved an amendment to Planned Development District 14 (PD-14) [*Ordinance No. 83-60*] changing the concept plan. This ordinance was again amended on October 5, 2009 by *Ordinance No. 09-42* [*Case No. Z2009-016*] changing the designation from Planned Development District 14 (PD-14) to Commercial (C) District. The subject property remains zoned Commercial (C) District and is currently vacant.
- The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for plats as stipulated by the Chapter 38, Subdivisions, of the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- Conditional approval of this Replat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.
- With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of Chapter 38, *Subdivisions*, of the Municipal Code of Ordinances.

### CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the Replat for *Lots 13 & 14, Rockwall Business Park East Addition*, staff would propose the following conditions of approval:

- (1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat; and,

- (2) Any construction resulting from the approval of this Replat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

---

**TO:** Planning and Zoning Commission  
**DATE:** March 15, 2022  
**APPLICANT:** Priya Acharya; *Wier & Associates, Inc.*  
**CASE NUMBER:** P2022-007; *Replat for Lot 3, Block A, Allen Anderson Addition*

---

### SUMMARY

Consider a request by Priya Acharya of Wier & Associates, Inc. on behalf of Ross Wood of Frost Bank for the approval of a Replat for Lot 3, Block A, Allen Anderson Addition being a 1.198-acre parcel of land identified as Lot 2, Block A, Allen Anderson Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located at the southwest corner of the intersection of Horizon Road and Rockwall Parkway, and take any action necessary.

### PLAT INFORMATION

- The applicant is requesting the approval of a Replat for a 1.198-acre parcel of land (*i.e. Lot 2, Block A, Allen Anderson Addition*) for the purpose of establishing the easements necessary to facilitate the development of the subject property. Prior to the applicant's submittal for this Replat, a site plan for the subject property was approved by the Planning and Zoning Commission for a ~4,165 SF *Financial Institution with Drive Through* [Case No. SP2021-035].
- The subject property was annexed by the City Council on November 7, 1960 by *Ordinance No. 60-03* [Case No. A1960-003]. On November 12, 1973 the City Council approved *Ordinance No. 73-49* rezoning the subject property from an Agricultural (AG) District to Planned Development District 9 (PD-9) for General Retail (GR) District land uses. On November 16, 2007, the City Council approved a final plat [Case No. P2007-031] establishing the subject property as Lot 2, Block A, Allen Anderson Addition. Since the time of annexation, the subject property has remained vacant. Since the original approval of Planned Development District 9 (PD-9), *Ordinance No. 73-49* has been amended nine (9) times (*Ordinance No.'s 86-55, 87-30, 88-13, 88-20, 95-17, 01-43, 04-02, 11-31, & 13-43*), with the most recent amendment being approved by City Council on November 4, 2013. With this being, said the land uses permitted on the subject property (*i.e. General Retail [GR] District land uses*) have not changed since the original adoption of Planned Development District 9 (PD-9). On January 11, 2022, the Planning and Zoning Commission approved a site plan [Case No. 2021-035] to allow the construction of a *Financial Institution with Drive Through*.
- The surveyor has completed the majority of the technical revisions requested by staff, and this Replat -- *conforming to the requirements for plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- Conditional approval of this Replat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.
- With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

### CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of a Replat for Lot 3, Block A, Allen Anderson Addition, staff would propose the following conditions of approval:

- (1) All technical comments from City Staff (*i.e. Engineering, Planning and Fire Department*) shall be addressed prior to submittal of civil engineering plans;
- (2) Any construction resulting from the approval of this Replat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING	Henry Lee	02/25/2022	Approved w/ Comments

02/25/2022: Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a Replat for Lot 3, Block A, Allen Anderson Addition being a 1.198-acre parcel of land identified as Lot 2, Block A, Allen Anderson Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located at the southwest corner of the intersection of Horizon Road and Rockwall Parkway.

I.2 For questions or comments concerning this case please contact Henry Lee in the Planning Department at (972) 772-6434 or email hlee@rockwall.com.

M.3 For reference, include the case number (P2022-007) in the lower right-hand corner of all pages on future submittals.

I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC) and Chapter 38 of the Municipal Code of Ordinances that are applicable to the subject property.

M.5 Correct the Title Block to the following:

Final Plat  
Lot 3, Block A  
Allen Anderson Addition  
52,186 Square Feet / 1.198 Acres  
Being a Replat of Lot 2, Block A, Allen Anderson Addition  
Being 1.198 Acres of Land  
Situated in the Edward Teal Survey, Abstract No. 207  
City of Rockwall, Rockwall County, Texas

M.6 Is there any new Fire Lane being added? If so correct the plat to reflect this.

M.7 Please provide the centerline for Horizon Road.

M.8 Remove the notary for the surveyor; the seal will suffice. Also remove the preliminary language from the surveyor's signature/seal block.

M.9 There is a discrepancy between the plat and the Owner's Certification; the last bearing reads 240.00' when the plat shows 240.01'.

M.10 There is a duplication of the Public Improvement Statement in #4 in the notes and #1 in the general notes. Please remove #4 in the notes.

M.11 Nothing may be built or planted in the Right-of-Way Easement (Vol. 1772, Pg. 124) situated along Rockwall Parkway. Engineering already has the needed ROW for Rockwall Parkway. If the easement is not abandoned it would cause changes to the approved Site Plan and Civil Plans. To abandon the easement, please crosshatch the

easement and label it as "Abandoned by this Plat."

I.12 Staff has identified the aforementioned items necessary to continue the submittal process. Please make all revisions and corrections and return to staff as soon as possible for a subsequent review prior to approval. The Planning and Zoning Commission Meeting for this case will be held on February 28, 2022.

I.13 Although this agenda item may be on the consent agenda, staff recommends that a representative be present for all meetings.

I.14 The projected City Council Meeting date for this case will be March 7, 2022.

I.15 Please note that once the Final Plat has been approved by the Planning and Zoning Commission and City Council, the case will be considered to be conditionally approved pending all of staff's comments from all City Departments and any applicable conditions of approval contained in staff's case memo are addressed prior to the subdivision plat being filed.

**APPLICANT:** William Johnson; *LTL Family Holdings*  
**CASE NUMBER:** P2022-008; *Preliminary Plat for Marina Village*

---

### SUMMARY

Consider a request by William Johnson of LTL Family Holdings, LLC for the approval of a Preliminary Plat for the Marina Village Subdivision being a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [Ordinance No. 92-39] for Zero Lot Line (ZL-5) District land uses, generally located on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740], and take any action necessary.

### PLAT INFORMATION

- The purpose of the applicant's request is to Preliminary Plat a 6.88-acre parcel of land (*i.e. as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207*) into 36 townhome lots and two (2) open space lots (*i.e. Lots 1-29, Block A; Lots 1-9, Block B Marina Village Subdivision*). The proposed Preliminary Plat also lays out the necessary easements (*e.g. fire lane, public access/right-of-way, utilities, and drainage*) for the future development of the subdivision.
- The subject property was annexed into the City of Rockwall and zoned Agricultural (AG) District on October 29, 1973 (*Ordinance No. 73-43*). On November 12, 1973, the subject property was rezoned to Planned Development District 8 (PD-8) and designated for a *Multi-Family* and/or *Condominium* land uses by *Ordinance No. 73-48*. This designation was amended on October 19, 1992 by *Ordinance No. 92-39 (Case No. PZ1992-008-01)*, which re-designated the subject property to allow 36 zero-lot-line, single-family homes. On August 16, 2022, the City Council approved an amendment to Planned Development District 8 (PD-8) through *Ordinance No. 21-38 (Case No. Z2021-026)* allowing 36 townhomes on the subject property.
- On March 1, 2022, the Parks and Recreation Board reviewed the Preliminary Plat and made the following recommendations concerning the proposed subdivision:
  - (1) The property owner shall pay pro-rata equipment fees of \$7,920.00 (*i.e. \$220.00 x 36 Lots*), which will be due prior to the issuance of a building permit.
  - (2) The property owner shall pay cash-in-lieu of land fees of \$8,352.00 (*i.e. \$232.00 x 36 Lots*), which will be due prior to the issuance of a building permit.
- The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.
- With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

## **CONDITIONS OF APPROVAL**

If the Planning and Zoning Commission chooses to recommend approval of a Preliminary Plat for the *Marina Village*, staff would propose the following conditions of approval:

- (1) All technical comments from City Staff (*i.e. Engineering, Planning and Fire Department*) shall be addressed prior to submittal of civil engineering plans; and,
- (2) The development shall adhere to the recommendations made by Parks and Recreation Board; and,
- (3) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PHONE: (972) 771-7745 • EMAIL: [PLANNING@ROCKWALL.COM](mailto:PLANNING@ROCKWALL.COM)

---

**TO:** Planning and Zoning Commission

**FROM:** Henry Lee, *Planner*

**DATE:** March 15, 2022

**SUBJECT:** SP2022-007; *Site Plan for Gideon Grove Phase 2 Subdivision*

---

The applicant, Meredith Joyce of Michael Joyce Properties, is requesting the approval of a site plan for Phase 2 of the Gideon Grove Subdivision. The subject property is a 30.36-acre tract of land (*i.e. being a portion of Tract 1-01 of the S. R. Barnes Survey, Abstract No. 13*) generally located at the northwest corner of the intersection of E. Quail Run Road and John King Boulevard. Currently, Phase 2 of the Gideon Grove Subdivision has been approved for a *Preliminary Plat* [Case No. P2020-046] and *Final Plat* [Case No. P2021-019], and -- *in accordance with the submittal schedule contained in the Planned Development District* -- the applicant has submitted an application for a *Site Plan*. As part of this site plan application the applicant has submitted a site plan, landscape plan, and hardscape plan.

The site plan indicates that 84 single-family lots and eleven (11) open space lots will be provided in accordance with the requirements of Planned Development District 84 (PD-84). The landscape plan shows that three (3) canopy and four (4) accent trees will be provided per 100 linear feet of frontage along John King Boulevard, one (1) canopy tree will be provided per 50 linear feet of frontage along E. Quail Run Road, and one (1) canopy tree will be provided per 25 linear feet of frontage along Old E. Quail Run Road. Staff should note that the tree mitigation balance identified in the approved treescape plan [Case No. P2020-046] has been accounted for in the landscape plan, and the mitigation balance has been satisfied. The hardscape plan details the entry monumentation signage and the fence type for each lot (*i.e. wrought iron fence, wood fence, and a wrought iron fence with masonry columns*) as required throughout the subdivision by the Planned Development District. The submitted site plan conforms to all the applicable technical requirements of Planned Development District 84 (PD-84) and the Unified Development Code (UDC), and based on this the case is being placed on the consent agenda. Should the Planning and Zoning Commission have any questions concerning the applicant's request, staff and the applicant will be available at the March 15, 2021 Planning and Zoning Commission meeting.

    - AFTER FINISH GRADES HAVE BEEN ESTABLISHED, CONTRACTOR SHALL HAVE SOIL SAMPLES FROM THE PROJECT'S LANDSCAPE AREAS TESTED BY AN ESTABLISHED SOIL TESTING LABORATORY. EACH SAMPLE SHALL CONTAIN NO LESS THAN ONE QUART OF SOIL TAKEN FROM BETWEEN THE SOIL SURFACE AND 6" DEPTH. IF NO SAMPLE LOCATIONS ARE INDICATED ON THE PLANS, THE CONTRACTOR SHALL TAKE A MINIMUM OF THREE SAMPLES FROM VARIOUS REPRESENTATIVE LOCATIONS FOR TESTING.
    - THE CONTRACTOR SHALL HAVE THE SOIL TESTING LABORATORY PROVIDE RESULTS FOR THE FOLLOWING: SOIL TEXTURAL CLASS, GENERAL SOIL FERTILITY, pH, ORGANIC MATTER CONTENT, SALT (CEC), LIME, SODIUM ADSORPTION RATIO (SAR) AND BORON CONTENT.
    - THE CONTRACTOR SHALL ALSO SUBMIT THE PROJECT'S PLANT LIST TO THE LABORATORY ALONG WITH THE SOIL SAMPLES.
    - THE SOIL REPORT PRODUCED BY THE LABORATORY SHALL CONTAIN RECOMMENDATIONS FOR THE FOLLOWING (AS APPROPRIATE): SEPARATE SOIL PREPARATION AND BACKFILL MIX RECOMMENDATIONS FOR GENERAL ORNAMENTAL PLANTS, XERIC PLANTS, TURF, AND NATIVE SEED, AS WELL AS PRE-PLANT FERTILIZER APPLICATIONS AND RECOMMENDATIONS FOR ANY OTHER SOIL RELATED ISSUES.   - ENSURE THAT THE FINISH GRADE IN SHRUB AREAS IMMEDIATELY ADJACENT TO WALKS AND OTHER WALKING SURFACES, AFTER INSTALLING SOIL AMENDMENTS, IS 3" BELOW THE ADJACENT FINISH SURFACE, IN ORDER TO ALLOW FOR PROPER MULCH DEPTH. TAPER THE SOIL SURFACE TO MEET FINISH GRADE, AS SPECIFIED ON THE GRADING PLANS, AT APPROXIMATELY 18" AWAY FROM THE WALKS.
  - ENSURE THAT THE FINISH GRADE IN TURF AREAS IMMEDIATELY ADJACENT TO WALKS AND OTHER WALKING SURFACES, AFTER INSTALLING SOIL AMENDMENTS, IS 1" BELOW THE FINISH SURFACE OF THE WALKS. TAPER THE SOIL SURFACE TO MEET FINISH GRADE, AS SPECIFIED ON THE GRADING PLANS, AT APPROXIMATELY 18" AWAY FROM THE WALKS.
  - SHOULD ANY CONFLICTS AND/OR DISCREPANCIES ARISE BETWEEN THE GRADING PLANS, GEOTECHNICAL REPORT, THESE NOTES AND PLANS, AND ACTUAL CONDITIONS, THE CONTRACTOR SHALL IMMEDIATELY BRING SUCH ITEMS TO THE ATTENTION OF THE LANDSCAPE ARCHITECT, GENERAL CONTRACTOR, AND OWNER.

    - CONTRACTOR SHALL NOT DISTURB ROOTS 1-1/2" AND LARGER IN DIAMETER WITHIN THE CRITICAL ROOT ZONE (CRZ) OF EXISTING TREES, AND SHALL EXERCISE ALL POSSIBLE CARE AND PRECAUTIONS TO AVOID INJURY TO TREE ROOTS, TRUNKS, AND BRANCHES. THE CRZ IS DEFINED AS A CIRCULAR AREA EXTENDING OUTWARD FROM THE TREE TRUNK, WITH A RADIUS EQUAL TO 1" FOR EVERY 1" OF TRUNK DIAMETER-AT-BREAST-HEIGHT (4.5' ABOVE THE AVERAGE GRADE AT THE TRUNK).
    - ALL EXCAVATION WITHIN THE CRZ SHALL BE PERFORMED USING HAND TOOLS. NO MACHINE EXCAVATION OR TRENCHING OF ANY KIND SHALL BE ALLOWED WITHIN THE CRZ.
    - ALTER ALIGNMENT OF PIPE TO AVOID TREE ROOTS 1-1/2" AND LARGER IN DIAMETER, WHERE TREE ROOTS 1-1/2" AND LARGER IN DIAMETER ARE ENCOUNTERED IN THE FIELD, TUNNEL UNDER SUCH ROOTS. WRAP EXPOSED ROOTS WITH SEVERAL LAYERS OF BURLAP AND KEEP MOIST. CLOSE ALL TRENCHES WITHIN THE CANOPY DRIP LINES WITHIN 24 HOURS.

SHOULD ADDITIONAL SOIL BE REQUIRED TO ACCOMPLISH THIS TASK, USE STORED TOPSOIL FROM ON-SITE OR IMPORT ADDITIONAL TOPSOIL FROM OFF-SITE AT AN ADDITIONAL COST TO THE OWNER. IMPORTED TOPSOIL SHALL BE OF SIMILAR TEXTURAL CLASS AND COMPOSITION TO THE ON-SITE SOIL.
  - TREES SHALL NOT BE STAKED UNLESS LOCAL CONDITIONS (SUCH AS HEAVY WINDS OR SLOPES) REQUIRE STAKES TO KEEP TREES UPRIGHT. SHOULD STAKING BE REQUIRED, THE TOTAL NUMBER OF TREE STAKES (BEYOND THE MINIMUMS LISTED BELOW) WILL BE LEFT TO THE LANDSCAPE CONTRACTOR'S DISCRETION. SHOULD ANY TREES FALL OR LEAN, THE LANDSCAPE CONTRACTOR SHALL STRAIGHTEN THE TREE, OR REPLACE IT SHOULD IT BECOME DAMAGED. TREE STAKING SHALL ADHERE TO THE FOLLOWING GUIDELINES:

**B SHRUB AND PERENNIAL PLANTING**  
SCALE: NTS

NOTE: ALL PLANTS SHALL BE PLANTED AT EQUAL TRIANGULAR SPACING (EXCEPT WHERE SHOWN ON PLANS AS INFORMAL GROUPINGS). REFER TO PLANT LEGEND FOR SPACING DISTANCE BETWEEN PLANTS.

- STEP 1: DETERMINE TOTAL PLANTS FOR THE AREA WITH THE FOLLOWING FORMULA:  
 TOTAL AREA / AREA DIVIDER = TOTAL PLANTS
 

PLANT SPACING	AREA DIVIDER	PLANT SPACING	AREA DIVIDER
6"	0.22	18"	1.95
8"	0.39	24"	3.46
10"	0.60	30"	5.41
12"	0.87	36"	7.79
15"	1.35		
- STEP 2: SUBTRACT THE ROW (S) OF PLANTS THAT WOULD OCCUR AT THE EDGE OF THE PLANTED AREA WITH THE FOLLOWING FORMULA: TOTAL PERIMETER LENGTH / PLANT SPACING = TOTAL PLANT SUBTRACTION
 

**EXAMPLE:** PLANTS AT 18" O.C. IN 100 SF PLANTING AREA, 40 LF PERIMETER  
 STEP 1: 100 SF / 1.95 = 51 PLANTS  
 STEP 2: 51 PLANTS - (40 LF / 1.95 = 21 PLANTS) = 30 PLANTS TOTAL

## PLANNING AND ZONING COMMISSION MEMORANDUM

### PLANNING AND ZONING DEPARTMENT

385 S. GOLIAD STREET • ROCKWALL, TX 75087

PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

---

**TO:** Planning and Zoning Commission  
**FROM:** Bethany Ross, *Planner*  
**DATE:** March 15, 2022  
**SUBJECT:** SP2022-008; *Amended Site Plan for EPES Trucking Facility*

---

The applicant, John Lucia of *JAL Architect Group Inc.*, is requesting the approval of an amended site plan for a trucking facility (*i.e. Texas Star Express/EPES Trucking*) for the purpose of adding the *Truck Rental* and *Outside Storage and/or Outside Display* land uses to the subject property. The subject property is located at 2890 S. Goliad Street [SH-205] and is zoned Heavy Commercial (HC) District. According to the Rockwall Central Appraisal District (RCAD), the subject property was originally constructed in 1984, with other buildings on the property being constructed in 1994, 2007, and 2013. According to Article 13, *Definitions*, of the Unified Development Code (UDC), these land uses are defined as follows:

- (1) *Truck Rental*. The display and rental of new or used heavy commercial vehicles or trucks in operable condition.
- (2) *Outside Storage and/or Outside Display*. The permeant or continuous keeping, displaying, or storing of unfinished goods, materials, merchandise, equipment, service vehicles or *heavy vehicles outside of a building on a lot or tract overnight or for more than 24-hours*.

In addition, Article 04, *Permissible Uses*, of the Unified Development Code (UDC) states that both the *Truck Rental* and *Outside Storage and/or Outside Display* land uses are permitted *by-right* on the subject property; however, Section 01.05(E), *Outside Storage*, of Article 05, *District Development Standards*, of the Unified Development Code (UDC) states that all "(o)utside storage of materials or vehicles shall be screened from all public streets ... (t)he screening must be at least one (1) foot taller than the material or vehicles being stored and shall be achieved using a masonry wall ... and Canopy Trees on 20-foot centers." The code does allow the Planning and Zoning Commission the authority to approve the use of three (3) tiered screening -- *in accordance with Subsection 05.02(A) of Article 08, Landscape and Fencing Standards, of the Unified Development Code (UDC)* -- in lieu of the masonry wall.

In this case, the applicant is proposing to convert six (6) parking spaces in front of the existing building to outside storage for the proposed *Truck Rental* land use. Since this area is in front of the building and is highly visible from SH-205, staff recommended to the applicant that the three (3) tiered screening method (*i.e. a row of small to mid-sized shrubs, a row of large shrubs or accent tress, and a row of canopy trees*) may be more appropriate and may provide a more appealing aesthetic. Based on staff's suggestion, the applicant has submitted a landscape plan showing the proposed screening; however, the use of three (3) tiered screening to screen outside storage is a discretionary decision for the Planning and Zoning Commission. Should the Planning and Zoning Commission have any questions concerning the applicant's request, staff and the applicant will be available at the *March 15, 2022* Planning and Zoning Commission meeting.

**TO:** Planning and Zoning Commission  
**DATE:** March 15, 2022  
**APPLICANT:** Matt Wavering; *Rockwall Economic Development Corporation*  
**CASE NUMBER:** Z2021-014; *Zoning Change (PD-73 to LI) for Rockwall Technology Park Addition*

---

### SUMMARY

Hold a public hearing to discuss and consider a request by Matt Wavering of the Rockwall Economic Development Corporation for the approval of a Zoning Change from Planned Development District 73 (PD-73) to a Light Industrial (LI) District for a 8.008-acre parcel of land identified as Lot 8, Block A, Rockwall Technology Park Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 73 (PD-73) for Commercial (C) District land uses, situated within the FM-549 Overlay (FM-549 OV) District and the SH-276 Overlay (SH-276 OV) District, located at the northwest corner of the intersection of Corporate Crossing and SH-276, and take any action necessary.

### BACKGROUND

The subject property was annexed on December 3, 1985 by *Ordinance No. 85-69 [Case No. A1985-002]*. At the time of annexation, the subject property was zoned Agricultural (AG) District. According to the City's *Historic Zoning Maps*, at some point between December 3, 1985 and December 7, 1993 the subject property was rezoned from an Agricultural (AG) District to a Light Industrial (LI) District. The subject property remained zoned Light Industrial (LI) District until March 2, 2009, when the City Council adopted *Ordinance No. 09-09 [Case No. Z2008-028]* creating Planned Development District 73 (PD-73). Under this Planned Development District, the property was subject to the development requirements of the Commercial (C) District with limited Commercial (C) District land uses being permitted. The subject property remains zoned Planned Development District 73 (PD-73) and has been vacant since annexation.

### PURPOSE

On February 18, 2022, the applicant -- *Matt Wavering of the Rockwall Economic Development Corporation* -- submitted an application requesting to change the zoning of the subject property from Planned Development District 73 (PD-73) to a Light Industrial (LI) District.

### ADJACENT LAND USES AND ACCESS

The subject property is located at the northwest corner of the intersection of SH-276 and Corporate Crossing (*FM-549*). The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is an 8.035-acre parcel of vacant land (*i.e. Lot 7, Block A, Rockwall Technology Park Addition*). Beyond this is Discovery Boulevard, which is identified as a M4U (*i.e. major collector, four [4] lane, undivided roadway*) on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this is a 5.131-acre parcel of land (*i.e. Lot 3, Block E, Rockwall Technology Park*), which is currently occupied with an ~49,920 SF office/manufacturing building (*i.e. L3 Communications Integrated Systems*). All of these properties are located within Phase 1 of the Rockwall Economic Development Corporation's Technology Park and are zoned Light Industrial (LI) District.

South: Directly south of the subject property is SH-276, which is identified as a TXDOT6D (*i.e. Texas Department of Transportation, six [6] lane, divided roadway*) on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this is an 11.076-acre vacant tract of land (*i.e. Tract 5*

of the W. H. Baird Survey, Abstract No. 25). Beyond this is Phase 5B of the Lofland Farms Subdivision, which consists of 75 residential lots on 29.77-acres of land. Both of these properties are zoned Planned Development District 45 (PD-45) for General Retail (GR) District and Single-Family 8.4 (SF-8.4) District land uses.

East: Directly east of the subject property is Corporate Crossing, which is identified as a TXDOT4D (i.e. Texas Department of Transportation, four [4] lane, divided roadway) on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this are the following: [1] a 3.853-acre vacant tract of land (i.e. Tract 2-09 of the J. A. Ramsey Survey, Abstract No. 186), [2] a two (2) acre parcel of land (i.e. Lot 1, Block A, Pannell Subdivision) with a House of Worship (i.e. Church of His Glory) situated on it, and [3] a 1.9811-acre parcel of land (i.e. Lot 2, Block A, Subway-Gateway-Health Food Store) with a General Retail Store with Gasoline Sales and a Restaurant with Drive-Through or Drive-In (i.e. Subway-Gateway Health Food Store) situated on it. These properties are all zoned Planned Development District 46 (PD-46) for limited Commercial (C) District land uses.

West: Directly west of the subject property is a 7.128-acre parcel of vacant land (i.e. Lot 5, Block A, Rockwall Technology Park Addition). Beyond this Innovation Drive, which is identified as a M4U (i.e. major collector, four [4] lane, undivided roadway) on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this is a 7.696-acre parcel of vacant land (i.e. Lot 4, Block B, Rockwall Technology Park). All of these properties are located within Phase 1 of the Rockwall Economic Development Corporation's Technology Park and are zoned Light Industrial (LI) District.

**CONFORMANCE TO THE CITY'S CODES**

According to Subsection 05.02, *Light Industrial (LI) District*, of Article 05, *District Development Standards*, of the Unified Development Code (UDC), "(t)he Light Industrial (LI) District is a zoning district intended to create a limited industrial zone that provides for modern types of industrial land uses ... [and] is intended for industrial parks and larger, cleaner types of industries." In this case, the subject property is owned by the Rockwall Economic Development Corporation (REDC) and is considered to be a part of Phase 1 of the Rockwall Technology Park. Currently, the REDC is planning to use a portion of this property for a regional detention system to serve adjacent properties and to use the other portion of the property to incorporate it with the property directly north of the subject property (i.e. Lot 7, Block A, Rockwall Technology Park) to create a larger parcel of land for a future prospect. If rezoned the property would be subject to the density and dimensional requirements for a property in a Light Industrial (LI) District as specified by Subsection 07.03, *Non-Residential District Development Standards*, of Article 05, *District Development Standards*, of the Unified Development Code (UDC), and which are summarized as follows:

TABLE 1: LIGHT INDUSTRIAL (LI) DISTRICT STANDARDS

<i>Minimum Lot Area</i>	12,500 SF
<i>Minimum Lot Width</i>	100'
<i>Minimum Lot Depth</i>	125'
<i>Minimum Front Yard Setback</i> <sup>(1)</sup>	25'
<i>Minimum Side Yard Setback</i> <sup>(2) &amp; (3)</sup>	15' + ½ Height Over 36'
<i>Minimum Rear Yard Setback</i> <sup>(2) &amp; (3)</sup>	10'
<i>Minimum Between Buildings</i> <sup>(2) &amp; (3)</sup>	15' + ½ Height Over 36'
<i>Maximum Building Height</i> <sup>(4)</sup>	60'
<i>Maximum Building Size</i>	N/A
<i>Maximum Lot Coverage</i>	60%
<i>Minimum Landscaping</i>	15%

General Notes:

- 1: From future right-of-way as shown on the adopted Master Thoroughfare Plan or as actually exists, whichever is greater.
- 2: Not to exceed 50-feet.
- 3: ½ Height Over 36-feet with a fire rated wall.
- 4: Building height may be increased up to 120-feet if approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

If this zoning change is approved and when the subject property is developed, the development will be required to conform to all the requirements of the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, and any other applicable local, state or federal requirements.

### **CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN**

According to the *Land Use Plan* contained in the OURHometown Vision 2040 Comprehensive Plan, the subject property is located within the Technology District and is designated for Commercial/Retail land uses on the Future Land Use Plan. According to the Comprehensive Plan, Commercial/Retail land uses are defined as "...single to multi-tenant commercial retail centers along major arterials at key intersections ... (i)n certain cases where commercial land uses are eminent, it may be appropriate to incorporate zoning in conformance with the *Commercial* land use category on all four (4) corners of an intersection; however, this is not necessary in all cases." If this zoning change is approved it would require the Future Land Use Map to be amended to a Technology/Employment Center designation, which is defined as a "...land use category [that] is characterized by employment-oriented businesses, which are generally situated in larger centers (i.e. *Rockwall Technology Park*) with access to key transportation networks." In addition, according to the Technology District the subject property is located in the City's Technology Park, and according to the *District Strategies* "(t)hese areas should be preserved for larger clean industrial businesses that can help to diversify the City's tax base." Based on this, even though the proposed zoning change does not conform to the Future Land Use Map designation for the subject property, the case appears to warrant approval; however, any changes to the OURHometown Vision 2040 Comprehensive Plan is a discretionary decision for the City Council pending a recommendation from the Planning and Zoning Commission. Staff has included a *Condition of Approval* that would change the Future Land Use Map to show the subject property as designated for Technology/Employment Center land uses as opposed to Commercial/Retail land uses should this case be approved.

### **INFRASTRUCTURE**

All infrastructure requirements will be dependent on the future development of the subject property.

### **STAFF ANALYSIS**

The proposed zoning change appears to be consistent with many aspects of the OURHometown Vision 2040 Comprehensive Plan, but is not consistent with the Future Land Use Map. Despite this, the applicant's request does appear to have merit when looking at the location, parcel configuration, and zoning designation of the surrounding areas. This coupled with the idea that this area will be used to provide regional detention for other land uses in the City's Technology Park and provide additional area to increase the size of existing vacant parcels that will be used to attract new prospects, makes the proposed zoning change consistent with the City's Economic Development goals and policies contained in the OURHometown Vision 2040 Comprehensive Plan. With all this being said, all zoning case are discretionary decisions for the City Council pending a recommendation from the Planning and Zoning Commission.

### **NOTIFICATIONS**

On February 25, 2022, staff mailed 102 notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Lofland Farms Homeowner's Association (HOA), which was the only Homeowner's Association (HOA) or Neighborhood Organization within 1,500-feet of the subject property participating in the Neighborhood Notification Program. Additionally, staff posted a sign on the subject property, and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this report was drafted, staff had not received any responses concerning the applicant's request.

### **CONDITIONS OF APPROVAL**

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to rezone the subject property from Planned Development District 73 (PD-73) to a Light Industrial (LI) District, then staff would propose the following conditions of approval:

- (1) The applicant shall be responsible for maintaining compliance with the draft ordinance; and,

- (2) By approving this Zoning Change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a Commercial/Retail designation to a Technology/Employment Center designation; and,
- (3) Any construction resulting from the approval of this Zoning Change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Re: Zoning Change for Lot 8, Block A Rockwall Technology Park Addition

Mr. Miller:

The Rockwall Economic Development Corporation (REDC) requests a zoning change for Lot 8, Block A of the Rockwall Technology Park Addition ("Lot A-8") from PD-073 to Light Industrial (LI). Lot A-8 was originally zoned LI, but was changed to PD-073 in 2009. The lot is mostly encumbered by an existing floodplain which makes development of the property difficult and cost prohibitive. The REDC plans to build a regional stormwater detention pond on the lot in the near future, which will add developable land and serve the adjacent lots.

The lots within all phases of the Rockwall Technology Park are zoned LI, therefore this request is consistent with the zoning and land use in the surrounding area. This change will facilitate more contiguous LI zoned land coupled with the lot immediately adjacent to the north (Lot A-7), where the REDC is currently courting a corporate relocation.

We respectfully ask that the Planning & Zoning Commission and the Rockwall City Council consider approval of our zoning request.

Sincerely,

Matt Wavering  
Director of Project Development

**TO:** Planning and Zoning Commission  
**DATE:** March 15, 2022  
**APPLICANT:** Jose A. Contreras; *Black Toro Custom Homes, LLC.*  
**CASE NUMBER:** Z2022-007; *Specific Use Permit (SUP) for Residential Infill in an Established Subdivision*

---

### **SUMMARY**

Hold a public hearing to discuss and consider a request by Juan Aguilar on behalf of Jose A. Contreras of Black Toro Custom Homes, LLC for the approval of a Specific Use Permit (SUP) for Residential Infill in an Established Subdivision on a 0.1650-acre parcel of land identified as Lot 1096 of the Rockwall Lake Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 75 (PD-75) for Single-Family 7 (SF-7) District land uses, addressed as 514 Yvonne Drive, and take any action necessary.

### **BACKGROUND**

The subject property was originally platted as Lot 1096 of the Rockwall Lake Estates #2 Addition. On February 17, 2009, the subject property -- *along with the rest of the Lake Rockwall Estates Subdivision* -- was annexed into the City of Rockwall by *Ordinance No. 09-07*. Based on aerial images, the subject property was vacant at the time of annexation. On September 21, 2009, the City Council rezoned the Lake Rockwall Estates Subdivision from an Agricultural (AG) District to Planned Development District 75 (PD-75) [*Ordinance No. 09-37*] for Single-Family 7 (SF-7) District land uses. On January 4, 2016, the City Council amended Planned Development District 75 (PD-75) with *Ordinance No. 16-01*, which made minor changes to the *Consideration of a Special Request* section of the ordinance.

### **PURPOSE**

The applicant is requesting the approval of a Specific Use Permit (SUP) for the purpose of constructing a single-family home on the subject property in accordance with Subsection 02.03(B)(11), *Residential Infill in or Adjacent to an Established Subdivision*, of Article 04, *Permissible Uses*, of the Unified Development Code (UDC).

### **ADJACENT LAND USES AND ACCESS**

The subject property is located at 514 Yvonne Drive. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are several residential lots developed with modular homes that are zoned Planned Development District 75 (PD-75) for Single Family 7 (SF-7) District land uses. Beyond that is Evans Road, which is identified as a R2U (*i.e. residential, two [2] lane, undivided roadway*) on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

South: Directly south of the subject property are several residential lots developed with traditional single-family homes and modular homes that are zoned Planned Development District 75 (PD-75) for Single Family 7 (SF-7) District land uses. Beyond this is County Line Road, which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

East: Directly east of the subject property are several residential lots developed with modular homes that are zoned Planned Development District 75 (PD-75) for Single Family 7 (SF-7) District land uses. Beyond that is Wayne Drive, which is identified as a R2U (*i.e. residential, two [2] lane, undivided roadway*) on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

West: Directly west of the subject property are several residential lots developed with traditional single-family homes and modular homes that are zoned Planned Development District 75 (PD-75) for Single Family 7 (SF-7) District land uses. Beyond this is Chris Drive, which is identified as a R2U (*i.e. residential, two [2] lane, undivided roadway*) on the City’s Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

**CHARACTERISTICS OF THE REQUEST AND CONFORMANCE TO THE CITY’S CODES**

Article 13, *Definitions*, of the Unified Development Code (UDC) defines *Residential Infill in or Adjacent to an Established Subdivision* as “(t)he new development of a single-family home or duplex on an existing vacant or undeveloped parcel of land or the redevelopment of a developed parcel of land for a new single-family home or duplex within an established subdivision that is mostly or entirely built-out.” An established subdivision is further defined in Subsection 02.03(B)(11) of Article 04, *Permissible Uses*, of the UDC as “...a subdivision that consists of five (5) or more lots, that is 90% developed, and that has been in existence for more than ten (10) years.” In this case, the subject property is located within the Lake Rockwall Estates East Subdivision. This subdivision has been in existence since prior to 1968, consists of more than five (5) lots, and is considered to be more than 90% developed. The *Permissible Use Charts* contained in Article 04, *Permissible Uses*, of the UDC, requires a Specific Use Permit (SUP) for *Residential Infill in or Adjacent to an Established Subdivision* in all single-family zoning districts, the Two-Family (2F) District, the Downtown (DT) District, and the Residential-Office (RO) District. This property, being in Planned Development District 75 (PD-75) and designated for Single-Family 7 (SF-7) District land uses, requires a Specific Use Permit (SUP).

In addition, Subsection 02.03(B)(11) of Article 04, *Permissible Uses*, of the UDC states that, “...the Planning and Zoning Commission and City Council shall consider the proposed size, location, and architecture of the home compared to the existing housing ... [and] (a)ll housing proposed under this section [*i.e. Residential Infill in or Adjacent to an Established Subdivision*] shall be constructed to be architecturally and visually similar or complimentary to the existing housing ...” The following is a summary of observations concerning the housing on Yvonne Drive compared to the house proposed by the applicant:

Housing Design and Characteristics	Existing Housing on Yvonne Drive in a Close Proximity to the Subject Property	Proposed House
Building Height	One (1) Story	One (1) Story
Building Orientation	All of the homes are oriented towards Yvonne Drive	The front elevation of the home will face onto Yvonne Drive.
Year Built	1970-2020	N/A
Building SF on Property	784 SF – 1,994 SF	2,258 SF
Building Architecture	Single-Family and Modular Homes	Comparable Architecture to the Surrounding Newer Single-Family Homes
Building Setbacks:		
Front	The front yard setbacks are 20 to 35-Feet	20-Feet
Side	The side yard setbacks are 0 to 33-Feet	5-Feet
Rear	The rear yard setbacks are 10 to 38-Feet	10-Feet
Building Materials	Brick, Vinyl Siding, and Modular Panels	Brick
Paint and Color	Brown, Tan, Blue, White, Green & Red	N/A
Roofs	Composite Shingles & Metal	Composite Shingle
Driveways/Garages	Flat-Front Entry, Carports, and Single-Family Homes without Garages	The garage will be set up approximately two (2) feet behind the front façade of the home.

According to Section 04, *Residential Parking*, of Article 06, *Parking and Loading*, of the Unified Development Code (UDC), “(i)n single-family or duplex districts, parking garages must be located at least 20-feet behind the front façade for front entry garages ...” In this case, the applicant is proposing to put the garage approximately two (2) feet behind the front façade of the home, and if approved the Planning and Zoning Commission and City Council will be waiving this requirement. Staff should note that this waiver has been approved in the Lake Rockwall Estates Subdivision in previous cases.

With the exception of the garage setback requirements, the proposed single-family home meets all of the density and dimensional requirements for the Single-Family 7 (SF-7) District as stipulated by Planned Development District 75 (PD-75) and the Unified Development Code (UDC). For the purpose of comparing the proposed single-family home to the existing single-family housing located adjacent to or in the vicinity of the subject property, staff has provided photos of the properties along Yvonne Drive. The proposed building elevations have also been provided in the attached packet. The approval of this request

is a discretionary decision for the City Council pending a recommendation from the Planning and Zoning Commission and a finding that the proposed house will not have a negative impact on the existing subdivision.

## **NOTIFICATIONS**

On February 26, 2022, staff mailed 133 notices to property owners and occupants within 500-feet of the subject property. There are no Homeowner's Associations (HOAs) within 1,500-feet of the subject property participating in the Neighborhood Notification Program. Additionally, staff posted a sign on the subject property, and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this report was drafted, staff had not received any notices with regard to the applicant's request.

## **CONDITIONS OF APPROVAL**

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request for a Specific Use Permit (SUP) for Residential Infill in an Established Subdivision, then staff would propose the following conditions of approval:

- (1) The applicant shall be responsible for maintaining compliance with the operational conditions contained in the Specific Use Permit (SUP) ordinance and which are detailed as follows:
  - (a) Development of the *Subject Property* shall generally conform to the Residential Plot Plan as depicted in *Exhibit 'B'* of the draft ordinance.
  - (b) Construction of a single-family home on the *Subject Property* shall generally conform to the Building Elevations depicted in *Exhibit 'C'* of the draft ordinance; and,
  - (c) Once construction of the single-family home has been completed, inspected, and accepted by the City, the Specific Use Permit (SUP) shall expire, and no further action by the property owner shall be required.
- (2) The subject property will be required to replat prior to obtaining any building permits.
- (3) Any construction resulting from the approval of this Specific Use Permit (SUP) shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Please address the following comments (M= Mandatory Comments; I = Informational Comments)

- I.1 This request is for the approval of a Specific Use Permit (SUP) for Residential Infill in an Established Subdivision for the purpose of constructing a single-family home a 0.1650-acre parcel of land identified as Lot 1096 of the Rockwall Lake Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 75 (PD-75) for Single-Family 7 (SF-7) District land uses, addressed as 514 Yvonne Drive.
- I.2 For questions or comments concerning this case please contact Angelica Gamez in the Planning Department at (972) 772-6438 or email agamez@rockwall.com.
- M.3 For reference, include the case number (Z2022-007) in the lower right-hand corner of all pages on future submittals.
- I.4 According to Subsection 02.03(B) (11), Residential Infill in or Adjacent to an Established Subdivision, of Article 05, District Development Standards, of the Unified Development Code (UDC), an Established Subdivision is defined as any subdivision that [1] consists of five (5) or more lots, [2] that is 90% or more developed, and [3] that has been in existence for more than ten (10) years. In this case, the subject property is located within the Lake Rockwall Estate Subdivision, which is 90% or more developed and has been in existence for more than 10 years.
- I.5 Subsection 02.03(B)(11), Residential Infill in or Adjacent to an Established Subdivision, of Article 05, District Development Standards, of the Unified Development Code (UDC), states that "(i)n reviewing the Specific Use Permit (SUP), the Planning and Zoning Commission and City Council shall consider the proposed size, location, and architecture of the home compared to the existing housing in the Established Subdivision ... [and] all housing proposed under this section shall be constructed to be architecturally and visually similar or complimentary to the existing housing in the Established Subdivision."
- I.6 The garage is required to meet the standards established in Subsection 07.04, Accessory Structure Development Standards of Article 04, of the Unified Development Code (UDC). This section requires that a garage be situated a minimum of 20-feet behind the front façade of the single-family home. In the current request, the garage is setback approximately two (2) feet from the front façade of the homes. While this is not uncharacteristic of the surrounding area, this will be a discretionary decision for the City Council pending a recommendation from the Planning and Zoning Commission.
- M.7 Please review the attached Draft Ordinance prior to the February 28, 2022 Planning and Zoning Commission Work Session meeting, and provide staff with your markups by no later than March 7, 2022.

Revisions for this case will be due on March 7, 2022; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the March 15, 2022 Planning and Zoning Commission Public Hearing Meeting. The Planning and Zoning Commission Work Session Meeting for this case will be held on February 28, 2022.

I.9 The projected City Council meeting dates for this case will be March 21, 2022 (1st Reading) and April 4, 2022 (2nd Reading).

**DATE:** March 15, 2022

**APPLICANT:** Valerie Valdez; *Design and Drafting Services Group*

**CASE NUMBER:** Z2022-008; *Specific Use Permit (SUP) for a Residential Infill within an Established Subdivision at 7106 Odell Avenue*

---

### SUMMARY

Hold a public hearing to discuss and consider a request by Valerie Valdez of DDS Group on behalf of Blanca Canales of JCK Custom Homes, LLC for the approval of a Specific Use Permit (SUP) for *Residential Infill within an Established Subdivision* on a 0.3990-acre parcel of land identified as Lot 7, Block A, Heritage Heights Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, addressed as 7106 Odell Avenue, and take any action necessary.

### BACKGROUND

The subject property was platted as Lot 7, Block A, Heritage Heights Addition on February 1, 1970. On November 7, 1983 the subject property along with the rest of the Heritage Heights Subdivision was annexed into the City of Rockwall by *Ordinance No. 83-57 [Case No. A1983-002]*. At the time of annexation the Heritage Heights Subdivision was zoned Agricultural (AG) District. On May 7, 1984, the City Council adopted a City initiated zoning case [*Case No. PZ1984-037-01; Ordinance No. 84-23*] changing the zoning of the Heritage Heights Subdivision from Agricultural (AG) District to Single-Family 10 (SF-10) District. Based on aerial imagery, a single-family home was constructed on the subject property in 2005, but was demolished due to a fire that occurred on the property around December of 2009. The subject property remained vacant since this date.

### PURPOSE

The applicant is requesting the approval of a Specific Use Permit (SUP) for the purpose of constructing a single-family home on the subject property in accordance with Subsection 02.03(B)(11), *Residential Infill in or Adjacent to an Established Subdivision*, of Article 04, *Permissible Uses*, of the Unified Development Code (UDC).

### ADJACENT LAND USES AND ACCESS

The subject property is located at 7106 Odell Avenue. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are eight (8) parcels of land (*i.e. Lots 8-14 and 31, Block A, Heritage Heights Addition*). These properties are zoned Single-Family 10 (SF-10) District and have single-family homes situated on them. Beyond this is Hunt Lane, which is classified as a R2 (*i.e. residential, two [2] lane, undivided roadway*) on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

South: Directly south of the subject property is one (1) parcel of land with a single-family home situated on it (*i.e. Lot 6 Block A, Heritage Heights Addition*). This property is zoned Single-Family 10 (SF-10) District. Beyond this is McKinzie Place which is classified as a R2 (*i.e. residential, two [2] lane, undivided roadway*) on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond McKinzie Place is one (1) parcel of land with a single-family home situated on it (*i.e. Lot 3, Block A, Heritage Heights Addition*). Beyond this is Dalton Road which is classified as a M4U (*i.e. major collector, four (4) lane, undivided roadway*) on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

East: Directly east of the subject property is one (1) parcel of land (i.e. Lot 6, Block A, Heritage Heights Addition) zoned Single-Family 10 (SF-10) District. Beyond this is Holden Drive which is classified as a R2 (i.e. residential, two [2] lane, undivided roadway) on the City’s Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

West: Directly west of the subject property is Odell Avenue, which is classified a R2 (i.e. residential, two [2] lane, undivided roadway) on the City’s Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond that is two (2) parcels of land with single-family homes situated on them (i.e. Lots 7 and 11, Block B, Heritage Heights Addition). Beyond this Hunt Lane, which is classified as a R2 (i.e. residential, two [2] lane, undivided roadway) on the City’s Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

**CHARACTERISTICS OF THE REQUEST AND CONFORMANCE TO THE CITY’S CODES**

Article 13, *Definitions*, of the Unified Development Code (UDC) defines *Residential Infill in or Adjacent to an Established Subdivision* as “(t)he new development of a single-family home or duplex on an existing vacant or undeveloped parcel of land or the redevelopment of a developed parcel of land for a new single-family home or duplex within an established subdivision that is mostly or entirely built-out.” An *established subdivision* is further defined in Subsection 02.03(B) (11) of Article 04, *Permissible Uses*, of the UDC as “...a subdivision that consists of five (5) or more lots, that is 90% developed, and that has been in existence for more than ten (10) years.” In this case, the subject property is located within the Heritage Heights Addition, which was established on February 1, 1970 and consists of 78 single-family residential lots. The subject property is one (1) of two (2) vacant parcels of land in the Heritage Heights Subdivision. The *Permissible Use Charts* contained in Article 04, *Permissible Uses*, of the UDC, requires a Specific Use Permit (SUP) for *Residential Infill in or Adjacent to an Established Subdivision* in all single-family zoning districts, the Two-Family (2F) District, the Downtown (DT) District, and the Residential-Office (RO) District. This property, being within an established subdivision and being zoned Single-Family 10 (SF-10) District, requires a Specific Use Permit (SUP).

In addition, Subsection 02.03(B)(11) of Article 04, *Permissible Uses*, of the UDC states that, “...the Planning and Zoning Commission and City Council shall consider the proposed size, location, and architecture of the home compared to the existing housing ... [and] (a)ll housing proposed under this section [i.e. *Residential Infill in or Adjacent to an Established Subdivision*] shall be constructed to be architecturally and visually similar or complimentary to the existing housing ...” The following is a summary of observations concerning the housing on Odell Avenue and Hunt Lane compared to the house proposed by the applicant:

Housing Design and Characteristics	Existing Housing on Odell Ave & Hunt Lane	Proposed Housing
Building Height	One (1) and Two (2) Story	Two (2) Story
Building Orientation	All of the homes are oriented toward the street they are built along.	The front elevation of the home will face Odell Avenue
Year Built	1977 - 2005	N/A
Building SF on Property	44 SF – 3,281 SF	3026 SF
Building Architecture	Single-Family Homes	Comparable Architecture to the Surrounding Single-Family Homes
Building Setbacks:		
Front	Estimated Between 30-Feet and 40-Feet	40-Feet
Side	Estimated between zero (0) and greater than ten (10) feet.	Greater than Ten (10) Feet
Rear	The rear yard setbacks appear to be greater than ten (10) feet.	Greater Than Ten (10) Feet
Building Materials	Brick and Siding	Stucco, Stone, and Siding
Paint and Color	White, Tan, Grey, Brown, and Red	White
Roofs	Composite and Asphalt Shingles	Composite and Asphalt Shingles
Driveways/Garages	Driveways all front the same street the single-family home faces, and are oriented in a side entry or a j-swing (traditional swing) configuration	Attached garage situated behind the primary structure in a side entry configuration.

The proposed single-family home meets all of the density and dimensional requirements for a property situated within a Single-Family 10 (SF-10) District as stipulated by the Unified Development Code (UDC). For the purpose of comparing the proposed home to the existing single-family housing located adjacent to or in the vicinity of the subject property, staff has provided photos of the properties along Odell Avenue, Hunt Street, and the proposed building elevations in the attached packet. The approval of this request is a discretionary decision for the City Council pending a recommendation from the Planning and Zoning Commission and a finding that the proposed house will not have a negative impact on the existing subdivision.

## **NOTIFICATIONS**

On February 23, 2022, staff mailed 46 notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Harland Park, Rockwall Shores, and The Shores at Lake Ray Hubbard Homeowner's Associations (HOA), which are the only HOAs within 1,500-feet of the subject property participating in the Neighborhood Notification Program. Additionally, staff posted a sign on the subject property, and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this report was written, staff had received two (2) notices in favor of the applicant's request.

## **CONDITIONS OF APPROVAL**

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request for a Specific Use Permit (SUP) for Residential Infill Adjacent to an Established Subdivision, then staff would propose the following conditions of approval:

- (1) The applicant shall be responsible for maintaining compliance with the operational conditions contained in the Specific Use Permit (SUP) ordinance and which are detailed as follows:
  - (a) Development of the Subject Property shall generally conform to the Residential Plot Plan as depicted in Exhibit 'B' of the draft ordinance.
  - (b) Construction of a single-family home on the Subject Property shall generally conform to the Building Elevations depicted in Exhibit 'C' of the draft ordinance; and,
  - (c) Once construction of the single-family home has been completed, inspected, and accepted by the City, the Specific Use Permit (SUP) shall expire, and no further action by the property owner shall be required.
- (2) Any construction resulting from the approval of this Specific Use Permit (SUP) shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

**TO:** Planning and Zoning Commission

**DATE:** March 15, 2022

**APPLICANT:** Jack Kurz, RSDGP, LLC

**CASE NUMBER:** Z2022-009; *Specific Use Permit for a Restaurant, 2,000 SF or Less, with a Drive-Through at 902 & 906 S. Goliad Street*

---

### **SUMMARY**

Hold a public hearing to discuss and consider a request by Jack Kurz of RSDGP, LLC on behalf of Allen Anderson of Adlor Enterprises, LLC for the approval of a Specific Use Permit (SUP) for a *Restaurant, Less Than 2,000 SF, with a Drive-Through/Drive-In* for the purpose of constructing a restaurant with drive-through on a 1.1308-acre parcel of land identified as Lot 1, Block B, Jack Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 62 (PD-62) for General Retail (GR) District, addressed as 902 & 906 S. Goliad Street [*SH-205*], and take any action necessary.

### **BACKGROUND**

The subject property is considered to be a part of the Old Town, and was annexed prior to 1934 based on the August 25, 1934 Sanborn Maps. According to the January 3, 1972 zoning map, the subject property was zoned Single-Family 2 (SF-2) District. At some point between January 3, 1972 and May 16, 1983, the subject property was rezoned to a Single-Family 10 (SF-10) District according to the 1983 zoning map. The subject property retained the Single-Family 10 (SF-10) District zoning designation until September 6, 2005 when the City Council approved Planned Development District 62 (PD-62) by adopting *Ordinance No. 05-42 [Case No. Z2005-031]*. This Planned Development District re-designated the subject property for General Retail (GR) District land uses. In addition, the Planned Development District also re-designated the 0.7329-acre tract of land directly west of the subject property for Zero Lot Line (ZL-5) District land uses. At the time of the zoning change, situated on the 0.7329-acre tract of land was an existing 2,773 SF single-family home that was constructed in 1980. This tract of land, along with the subject property, were platted into Lots 1-3, Block A (*i.e. the 0.7329-acre tract of land*) and Lot 1, Block B (*i.e. the subject property*), Jack Canup Addition (*Case No. P2006-040*), which was filed with Rockwall County on April 11, 2007. The two (2) undeveloped lots west of the subject property (*i.e. Lots 1 & 2, Block A*) were developed with single-family homes in 2016. The subject property was vacant at the time the area was rezoned to Planned Development District 62 (PD-62), and has remained vacant since.

Staff is obligated to note that on September 21, 2020 the City Council granted a request to withdraw a Specific Use Permit (SUP) [*Case No. Z2020-035*] requesting to establish a *Restaurant, 2,000 SF or More, with Drive-Through or Drive-In* on the subject property. This request came after the Planning and Zoning Commission unanimously denied the case by a vote of 6-0, with Commissioner Conway absent.

### **PURPOSE**

The applicant -- *Jack Kurz of RSDGP, LLC* -- is requesting the approval of a Specific Use Permit (SUP) for a *Restaurant with 2,000 SF or Less with a Drive-Through/Drive-In* to allow the development of a drive-through restaurant (*i.e. 7 Brew*) on the subject property.

### **ADJACENT LAND USES AND ACCESS**

The subject property is addressed as 902 & 906 S. Goliad Street [*SH-205*]. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is W, Bourn Avenue, which is identified as a R2 (*i.e. residential, two [2] lane, undivided roadway*) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. North of this roadway is a 1.8046-acre parcel of land (*i.e. Lot 14, Block M, Sanger Addition*) that serves as an overflow parking lot for the First Baptist Church of Rockwall. The parking lot is zoned General Retail (GR) District. West of this land use, and northwest of the subject property, are eight (8) single-family homes (*i.e. Lots 6-13, Block M, Sanger Addition*) that are zoned Zero Lot Line (ZL-5) District.

South: Directly south of the subject property is a 15-foot undeveloped alleyway. Beyond this are 13 single-family residential lots (*i.e. Lots 1-6, Block 1 and Lots 1-7, Block 2, L&W Addition*) with 12 single-family homes situated on them. All of these properties are zoned Single-Family 10 (SF-10) District.

East: Directly east of the subject property is the beginning of the S. Goliad Street [SH-205]/Ridge Road [FM-740] split, where a portion of S. Goliad Street proceeds south and a portion of the street splits and turns into Ridge Road. Ridge Road is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) and S. Goliad Street is identified as a P6D (*i.e. principal arterial, six [6] lane, divided roadway*) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this are five (5) parcels of land (*i.e. Lots 1-5, Block A, Canup Addition*) that have two (2) buildings situated on them (*i.e. Mattress Depot and Rockwall Floor Covering*). These five (5) parcels of land are zoned Commercial (C) District.

West: Directly west of the subject property is a 20-foot alleyway that is partially developed. Beyond this are three (3) single-family, residential lots (*i.e. Lots 1-3, Block A, Jack Canup Addition*) with three (3) single-family homes situated on them. These properties are zoned Planned Development District 62 (PD-62) for Zero Lot Line (ZL-5) District land uses. Beyond these parcels of land is S. Alamo Street, which is designated as a R2 (*residential, two [2] lane, undivided roadway*) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this are six (6) single-family residential lots (*i.e. Lots 1-4, Block A and Lots 1-2, Block B, John Spong Subdivision #1*) with five (5) single-family homes situated on them. These lots are followed by the Lake Meadows Subdivision, which consists of 26 residential lots that were established in 1968. All of these properties are zoned Single-Family 10 (SF-10) District.

## **CHARACTERISTICS OF THE REQUEST**

The applicant has submitted an application and concept plan depicting the layout of a 510 SF restaurant with a drive-through on the subject property. Based on the concept plan the building will be oriented so that the three (3) drive-through lanes will face onto S. Goliad Street. The applicant has stated that there will be no point of order, rather employees will take the orders from the drive-through lines (*i.e. similar to Chick-fil-A*). The *food delivery/payment window* will be oriented toward the residential properties adjacent to the southern property line. To provide landscape screening for the residential adjacencies the applicant has indicates a masonry screening wall with canopy trees adjacent to the residential alleyway located on the west property line. Landscape screening is also being depicted around the dumpster enclosure to screen it from S. Goliad Street [SH-205] and the adjacent residential properties.

Ingress and egress for the property will be provided via a driveway off of S. Goliad Street [SH-205] and a driveway off of W. Bourn Street. Staff should note that the subject property currently has a driveway off of S. Goliad Street that is located in approximately the center of the subject property. The parking requirement for a *Limited-Service Restaurant* (*i.e. a restaurant that does not provide indoor ordering, seating, and dining*) is one (1) parking space per 250 SF of floor area. In this case, the parking requirement for the proposed restaurant would be three (3) parking spaces. The concept plan shows the provision of 21 parking spaces and is over parked by 19 spaces per the parking requirements.

## **CONFORMANCE WITH THE CITY'S CODES**

According to the *Permissible Use Charts* contained in Article 04, *Permissible Uses*, of the Unified Development Code (UDC), the *Restaurant with 2,000 SF or Less with a Drive-Through or Drive-In* land use requires a Specific Use Permit (SUP) in a General Retail (GR) District. The purpose of requiring a Specific Use Permit (SUP) for this land use in a General Retail (GR) District is tied to the fact that this zoning designation is typically located directly adjacent to or in close proximity to single-family residentially zoned districts. According to the Unified Development Code (UDC), "(t)he General Retail (GR) District is a zoning district intended to provide *limited* retail and service uses for one (1) or more neighborhoods ... [i]f is not a major

commercial/retail district and should try to avoid intensive commercial land uses that carry large volumes of retail traffic.” Based on the potential ability of the *Restaurant with 2,000 SF or Less with a Drive-Through or Drive-In* land use to generate higher traffic volumes, this land use was identified as needing discretionary oversight from the Planning and Zoning Commission and City Council. More simply stated, this land use may not be appropriate on all properties zoned General Retail (GR) District. In addition, Article 04, *Permissible Use Charts*, of the Unified Development Code (UDC) also requires the following land use conditions as part of the establishment of this land use:

- (1) Drive-through lanes shall not have access to a local residential street.
- (2) Additional landscape screening shall be installed adjacent to drive-through lanes to impair the visibility and impact of headlights from motor vehicles in the drive-through lane on adjacent properties, rights-of-way, parks and open space.
- (3) Unless otherwise approved by the Planning and Zoning Commission, stacking lands for drive-through service window (*i.e. the food delivery/payment window*) shall accommodate a minimum of six (6) standard sized motor vehicles per lane.

In this case, the submitted site plan does show conformance to the minimum stacking requirements; however, the proposed concept plan does not provide landscape screening adjacent to drive-through lanes and the business is making use of W. Bourn Street, which is identified as a R2 (*i.e. residential, two [2] lane, undivided roadway*) on the Master Thoroughfare Plan. These non-conformities should be considered as part of this request due to the close proximity of the adjacent residential homes. According to the *Screening from Residential* standards contained in Article 08, *Landscape and Fence Standards*, of the Unified Development Code (UDC), “(a)ny non-residential...land use...that has a side or rear contiguous to any residentially zoned or used property shall be screened with a masonry fence a minimum of six (6) feet in height with canopy trees planted on 20-foot centers.” In this case, the subject property is directly adjacent to residentially zoned and used property on the southern and western boundaries and would be required to meet the *Screening from Residential* standards along the entire length of the southern and western property lines.

According to the *City’s Engineering Standards of Design Manual*, the proposed driveway along W. Bourn Street does not meet the minimum driveway spacing requirements. The applicant’s plan shows this driveway being located just east of the existing residential alley way. The *Engineering Standards of Design Manual* requires that first driveway on W. Bourn Street be 200-feet off of S. Goliad Street [SH-205] and the spacing between driveways on W. Bourn Street be 100-feet. In this case the proposed driveway does not meet either of these driveway spacing requirements. This is an important consideration due to the intensity of the proposed land use and the number of trips per day generated by a drive-through restaurant with three (3) drive-through lanes.

## **STAFF ANALYSIS**

When this request was originally reviewed, staff recommended to the applicant that they provide a letter outlining the proposed business operations and the proposed hours of operation. The applicant indicated that they would provide this information; however, at the time this report was drafted staff had not received a letter outlining this information. Staff also informed the applicant about the residential screening and landscaping requirements and that: [1] a six (6) foot masonry wall with canopy trees planted on 20-foot centers will be required along the southern and western property line, [2] a landscape buffer with a berm, canopy trees, accent trees, and a shrub row will be required along S. Goliad Street [SH-205] and W. Bourn Street, and [3] landscape screening must be provided around the dumpster enclosure and the remote cooler. Based on these comments from staff the applicant provided landscaping around the dumpster enclosure and the masonry wall and canopy trees along the adjacent residential alleyway to the west of the subject property; however, failed to extend the wall along the entire residential adjacency and did not show the required headlight screening.

Should the Planning and Zoning Commission choose to recommend approval of the applicant’s request staff has included conditions of approval requiring a Traffic Impact Analysis (TIA), requiring additional landscaping at the intersection of and along S. Goliad Street and W. Bourn Street, and requiring a six (6) foot masonry wall with canopy trees on 20-foot centers along the entire south and west property lines. With all this being said, a Specific Use Permit (SUP) request is a discretionary decision for the City Council pending a recommendation from the Planning and Zoning Commission.

## **NOTIFICATIONS**

On February 25, 2022, staff mailed 109 notices to property owners and occupants within 500-feet of the subject property. Staff also sent a notice to the Stonebridge Meadows Homeowners Association (HOA), which is the only HOA’s or

Neighborhood Organizations within 1,500-feet of the subject property participating in the Neighborhood Notification Program (*the Highridge Estates Homeowners Association [HOA] is listed on the notification map, but has not provided contact information*). Additionally, staff posted a sign on the subject property, and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this report was drafted, staff had received ten (10) returned notices from nine (9) property owners in opposition to the applicant's request.

### **CONDITIONS OF APPROVAL**

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request for a Specific Use Permit (SUP) for a *Restaurant, 2,000 SF or Less, with a Drive-Through/Drive-In* for the purpose of constructing a restaurant (*i.e. 7 Brew*), then staff would propose the following conditions of approval:

- (1) The applicant shall be responsible for maintaining compliance with the operational conditions contained in the SUP ordinance and which are detailed as follows:
  - (a) The development of the Subject Property shall generally conform to the Concept Plan as depicted in Exhibit 'B' of this ordinance.
  - (b) A minimum of a six (6) foot masonry wall (constructed with materials matching the primary structure) be constructed adjacent to the southern and western property lines. Mature canopy trees should be planted on 20-foot centers along the entire length of the wall.
  - (c) A minimum of a 20-foot landscape buffer with a berm and shrubbery shall be established along S. Goliad Street fully impairing any visibility issues caused by headlights from motor vehicles in the drive-through lane. In addition, mature canopy trees on 50-foot centers should be planted along the entire length of S. Goliad Street. Additional landscaping may also be required at the time of site plan at the corner of W. Bourne Street and S. Goliad Street to impair the visibility of headlights from the drive-through lane.
- (2) A Traffic Impact Analysis (TIA) shall be submitted and reviewed by the City of Rockwall prior to accepting a site plan application for the subject property.
- (3) Additional trees, bushes, and shrubs will be required at: [1] the corner of and along S. Goliad Street and W. Bourn Street; [2] adjacent to the masonry wall along the southern and western property boundaries (*i.e. adjacent to the residential adjacency*), and [3] south of the *restaurant ordering board*. These will be required to be shown on the landscape plan submitted with the site plan.
- (4) The approval of this Specific Use Permit (SUP) will waive the conditional land use standard stipulated by Subsection 02.02(F)(10)(a) of Article 04, *Permissible Uses*, of the Unified Development Code (UDC), stating that "(d)rive-through lanes shall not have access to a local residential street."
- (5) Any construction resulting from the approval of this zoning change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

I am opposed to the request for the reasons listed below. *This location is too close to split of 205 & 740 = nightmare*

*1. Property values would plummet & selling would be very difficult. 2. Most residents are retired. 3. The drive thru would move traffic to access the alley, so our privacy and safety would be negatively impacted. 4. Traffic would increase exponentially in our residential neighborhood. 5. Traffic noise would disturb our peace. 6. Lighting may affect the homeowners living next to it. 7. Litter would be prevalent. 8. RSDGP, LLC  
15110 N Dallas Pkwy  
Ste. 440  
Dallas, TX 75248

Dear City of Rockwall,

RSDGP is applying for a specific use permit to develop a drive-through concept located at the address of 906 S Goliad St. The development plan is designed to develop the site for 7Brew Coffee. 7Brew Coffee is a new coffee concept in the Dallas area.

RSDGP is applying for a specific use permit because the site is currently in the PD-62 district which is a subsection of the GR, General Retail, district. The 7Brew concept is a 510 SF building with a drive-through. This conceptual development plan would be considered a "restaurant with less than 2,000 SF with Drive-Through or Drive-In". This use requires a specific use permit in the GR zoning district.

In order for the development plan to take place, the first item that needs to be addressed is applying and acquiring a SUP. RSDGP believes that a drive-through coffee concept located at 906 S Goliad St would benefit the local neighborhoods and the city of Rockwall. The site is located at the Ridge Rd and Goliad St split which is why a drive-through coffee concept makes sense in this part of Rockwall. People leaving their homes, heading towards the retail corridor and businesses along I-30 will have an ideal morning coffee stop. RSDGP believes 7Brew will bring positive business and added aesthetic development to the nearby neighborhoods.

Sincerely,

Jack Kurz  
Development Manager

**APPLICANT:** Ryan Joyce; *Michael Joyce Properties*  
**CASE NUMBER:** Z2022-010; *Zoning Change (AG to PD) for Vallis Greene*

---

### SUMMARY

Hold a public hearing to discuss and consider a request by Ryan Joyce on Michael Joyce Properties on behalf of Mike Peoples for the approval of a Zoning Change from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses on a 93.97-acre tract of land identified as Tract 4 & 4-01 of the M. B. Jones Survey, Abstract No. 122 and a portion of Tract 25-1 & 26 and all of Tract 13 & 25 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-66 Overlay (SH-66 OV) District, addressed as 1936 SH-66, and take any action necessary.

### BACKGROUND

The subject property was annexed on March 16, 1998 by *Ordinance No. 98-10 [Case No. A1998-001]*. At the time of annexation, the subject property was zoned Agricultural (AG) District. According to the Rockwall Central Appraisal District (RCAD), currently situated on the subject property is: [1] a 2,500 SF single-family home constructed in 1958, [2] an ~1,856 SF covered porch constructed in 1958, [3] a 400 SF storage building constructed in 1900, and [4] a 96 SF storage building with a 240 SF covered canopy constructed in 2007. Beyond these structures, the subject property has remained largely undeveloped and the zoning designation has not changed since annexation.

### PURPOSE

On February 18, 2021, the applicant -- *Ryan Joyce of Michael Joyce Properties* -- submitted an application requesting to change the zoning of the subject property from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses. Specifically, the applicant is proposing to entitle the subject property for a 182-lot single-family, residential subdivision that will consists of five (5) lot sizes (*i.e. [A] 9, 100' x 130' lots; [B] 29, 82' x 120' lots; [C] 45, 72' x 115' lots; [D] 22, 72' x 110' lots; and [E] 77, 62' x 110' lots*).

### ADJACENT LAND USES AND ACCESS

The subject property is generally located between SH-66 and FM-1141 at the southwest corner of the intersection of FM-1141 and Cornelius Road. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is FM-1141 and Cornelius Road. FM-1141 is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) and Cornelius Road is identified as a M4U (*i.e. major collector, four [4] lane, divided roadway*) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. On the northside of the right-of-way for FM-1141 and the southside of the right-of-way for Cornelius Road are the corporate limits of the City of Rockwall. Beyond this are multiple residential properties situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ) in Rockwall County.

South: Directly south of the subject property is a 9.789-acre tract of land (*i.e. a portion of Lot 1, Block A, Ladera Rockwall Addition*), which will be Phase 2 of the Ladera Subdivision. This phase will consist of 33 residential units that are zoned Planned Development District 85 (PD-85) for Single-Family 7 (SF-7) District land uses. Beyond this is SH-66, which is identified as a TXDOT4D (*i.e. Texas Department of Transportation [TXDOT] roadway, four [4] lane,*

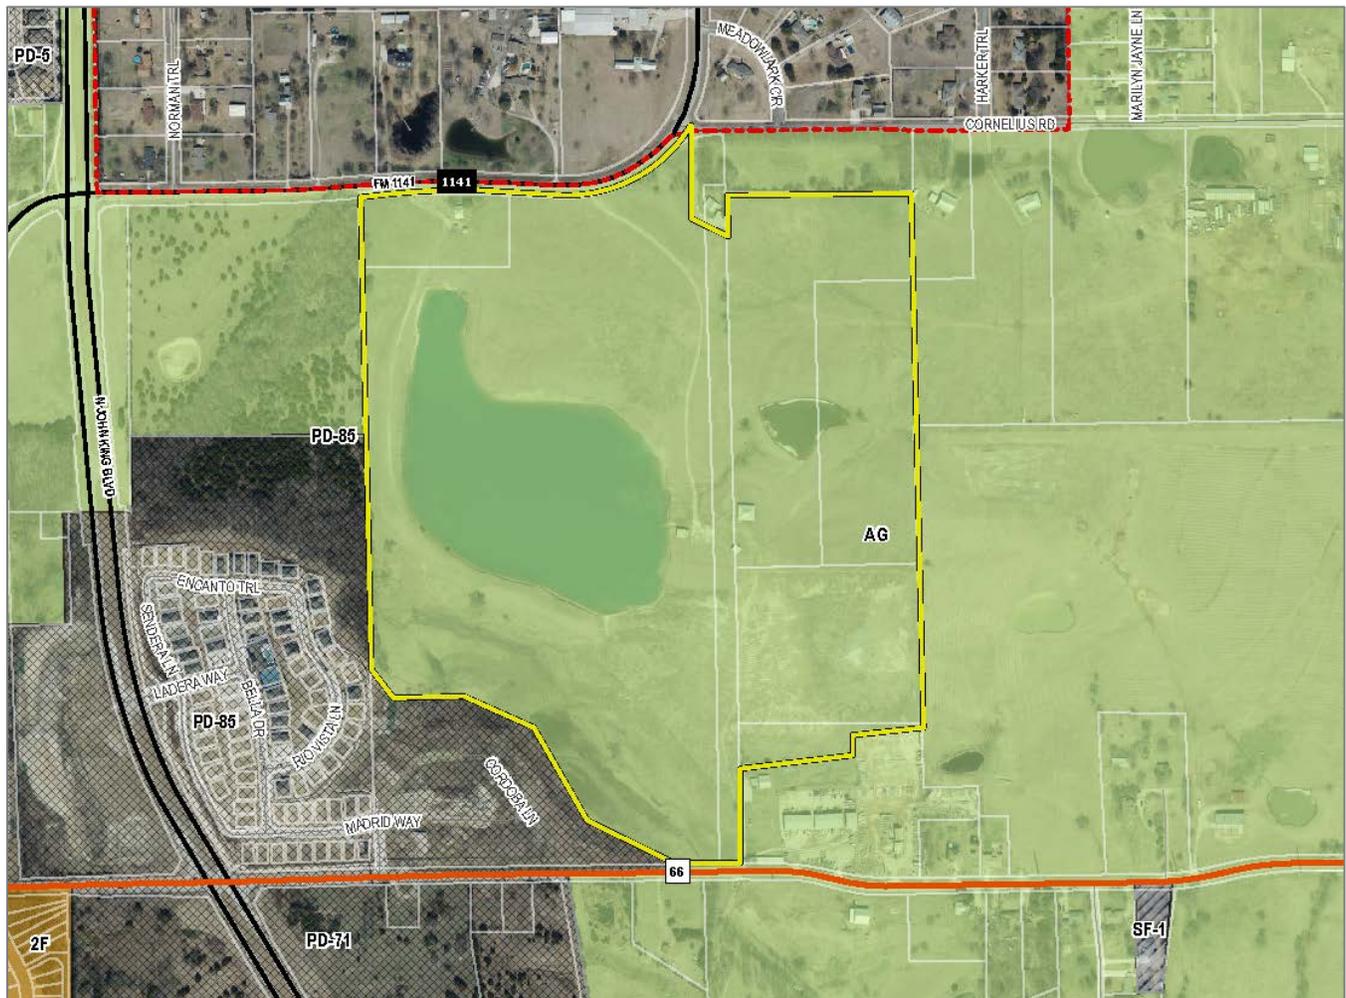

divided roadway) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. South of this thoroughfare is: [1] a 47.89-acre parcel of land (i.e. Lot 1 of the Rockwall Municipal Airport Addition) which is occupied by the Ralph Hall Municipal Airport, [2] a vacant two (2) acre tract of land (i.e. Tract 2 of the G. W. Redlin Survey, Abstract No. 183), and [3] a 43.66-acre tract of land (i.e. Tract 7 of the D. Harr Survey, Abstract No. 102) occupied with a single-family home. All of these properties are zoned Agricultural (AG) District.

East: Directly east of the subject property are the reminder tracts (i.e. Tracts 25-1 & 26 of the W. M. Dalton Survey, Abstract No. 72) being subdivided from the subject property. Also, east of the subject property is a 55.08-acre tract of land (i.e. Tract 11 of the W. M. Dalton Survey, Abstract No. 72), which has a two (2) barns (i.e. a 1,107 SF barn and a 7,448 SF barn both built in 1966). All of these properties are zoned Agricultural (AG) District.

West: Directly west of the subject property is: [1] a 15.935-acre vacant tract of land (i.e. Tract 5-1 of the M. B. Jones Survey, Abstract No. 122) zoned Agricultural (AG) District, and [2] a 37.80-acre parcel of land (i.e. Lot 1, Block A, Ladera Rockwall Addition) zoned Planned Development District 85 (PD-85) for Single-Family 7 (SF-7) District land uses. The 37.80-acre tract of land is the Ladera Subdivision, and will consist of 117 single-family units at buildout. Beyond this is John King Boulevard, which is identified as a P6D (i.e. principal arterial, six [6] lane, divided roadway) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

**YELLOW:** SUBJECT PROPERTY

### CHARACTERISTICS OF THE REQUEST

The applicant has submitted a concept plan and development standards for the proposed residential subdivision. The concept plan shows that the 93.97-acre subject property will consist of 182 residential lots. These lots will consist of five (5) lot types:

[7] 9 Type 'A' lots that are a minimum of 100' x 130' (or 13,000 SF), [2] 29 Type 'B' lots that are a minimum of 82' x 120' (or 10,000 SF), [3] 45 Type 'C' lots that are a minimum of 72' x 115' (or 9,000 SF), [4] 22 Type 'D' lots that are a minimum of 72' x 110' (or 8,400 SF), and [5] 77 Type 'E' lots that are a minimum of 62' x 110' (or 7,200 SF). This translates to a gross density of 1.94 dwelling units per gross acre (i.e. 182 lots/93.97-acres = 1.93679 dwelling units per gross acre) for the total development. The minimum dwelling unit size (i.e. air-condition space) will range from 2,000 SF to 2,400 SF. With regard to the proposed housing product, staff has incorporated anti-monotony and masonry standards into the proposed Planned Development District ordinance. Specifically, the ordinance will require a minimum of 90% masonry (with a minimum of 85% masonry on each façade), and be subject to the City's upgraded anti-monotony standards; however, the Planned Development District ordinance will also incorporate provisions that allow up to 80% cementitious fiberboard utilized in a horizontal lap-siding, board-and-batten siding, or decorative pattern to allow a more *Traditional Neighborhood Design* product (also referred to as *Gingerbread*). The following are some of the examples contained in the Planned Development District ordinance:

IMAGES 1 & 2: EXAMPLES OF BOARD AND BATTEN FROM THE PLANNED DEVELOPMENT DISTRICT ORDINANCE

Looking at the proposed garage orientation proposed for the development, the applicant is requesting to allow a total of 50% of all the garages be orientated toward the street; however, the applicant is proposing to require a five (5) foot setback for the garage from the front façade. The remaining garage doors will be situated within a *J-Swing* (or a *Traditional Swing*) configuration or *Recessed Entry* configuration (i.e. where the garage door is situated a minimum of 20-feet behind the front façade). In addition, the applicant is proposing to incorporate upgraded finishes on all garage doors that include: [1] coach lighting, [2] decorative wood doors or wood overlays on insulated metal doors, and [3] driveways that are constructed with ornamental stamped concrete brick pavers, stained finish, or salt finished. The following are some of the examples of these upgrades included in the Planned Development District ordinance:

IMAGES 3, 4 & 5: EXAMPLES OF UPGRADED GARAGES

The proposed subdivision will be subject to the land uses and density and dimensional requirements stipulated for properties within a Single-Family 10 (SF-10) District unless otherwise specified in the Planned Development District ordinance. The following is a summary of the lot composition and density and dimensional standards contained in the proposed Planned Development District ordinance:

**TABLE 1: LOT COMPOSITION**

Lot Type	Minimum Lot Size (FT)	Minimum Lot Size (SF)	Dwelling Units (#)	Dwelling Units (%)
A	100' x 130'	13,000 SF	9	4.95%

C	72' x 115'	9,000 SF	45	24.73%

<i>Maximum Lot Coverage</i>	45'	45'	45'	65'	65'

General Notes:

- 1: Lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may have the front lot width reduced by 20% as measured at the front property line provided that the lot width will be met at the *Front Yard Building Setback*. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by up to ten (10) percent, but shall meet the minimum lot size for each lot type referenced in *Table 1*.
- 2: The location of the *Front Yard Building Setback* as measured from the front property line.
- 3: The *Maximum Height* shall be measured to the eave or top plate (*whichever is greater*) of the single-family home.
- 4: The location of the *Rear Yard Building Setback* as measured from the rear property line.
- 5: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimneys, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* and *Side Yard Building Setback* by up to five (5) feet for any property. A sunroom is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces.
- 6: *J-Swing* or *Traditional Swing Garages* are permitted to encroach into the front yard building setback a minimum of five (5) feet.
- 7: All *Corner Lots* that back to a lot that fronts onto the same street that the *Corner Lot* sides to (*i.e. a Keystone Lot*), shall have a setback that is equal to the front setback of the fronting lot. In addition, no solid fence shall be situated within this setback.

The proposed concept plan shows that the development will consist of a total of 29.72-acres of floodplain and 13.06-acres of open space maintained by the Homeowner's Association (HOA). This translates to an open space percentage of 29.71% (*i.e. [29.72-acres of floodplain/2] + 13.06-acres of open space = 27.92-acres/93.97-acres gross = 29.7116%*). In addition, the applicant has agreed to utilize the pro-rata equipment fees and cash-in-lieu of land fees to provide amenity to the four (4) acre tract of City owned land (*i.e. Tract 13-01 of the W. M. Dalton Survey, Abstract No. 72*) to create a public park. All amenities being proposed for this public park will need to be approved by the Parks and Recreation Board and be constructed to the City's standard as determined by the Director of Parks and Recreation. The applicant will also be providing a trail system consisting of a six (6) foot concrete trail that will connect this public park to the proposed subdivision.

Staff should point out that a portion of the subject property is situated within the Runway Protection Zone (RPZ) of the Ralph Hall Municipal Airport. In addition, staff is currently bringing forward an Airport Overlay (AP OV) District [*Case No. Z2022-012*] that (*if approved*) will establish requirements for land uses in and around the Ralph Hall Municipal Airport. Based on this, staff sent a copy of the proposed plan to TXDOT Aviation for review and comment, and a copy of the proposed plan to Garver USA -- *the City's Airport Consultant* -- for review. TXDOT Aviation requested that the applicant [7] not have any development within the Runway Protection Zone (RPZ) and [2] establish an aviation easement over the property to ensure that future homeowners are aware they are purchasing a home in close proximity to the flight path of the Ralph Hall Municipal Airport. Garver USA requested that no development or amenity be constructed in the Runway Protection Zone (RPZ). In addition, staff requested that the applicant adhere to the future Airport Overlay (AP OV) District, and not locate any portion of any lot in the *Airport*

*Influence Zone (which if established is the zone that will prevent residential and assembly uses from being located within 500-feet of the airport).* The applicant has taken these comments and adjusted the concept plan to ensure compliance with these recommendations. In addition, staff has added a condition of approval that will require the avigation easement be established at the time of final plat.

## **INFRASTRUCTURE**

Based on the applicant's concept plan and the proposed density, the following infrastructure is required to be constructed to provide adequate public services for the proposed development:

- (1) Roadways. According to the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan, FM-1141 is required to be a M4D (*i.e. major collector, four [4] lane, divided roadway*), which requires an 85-foot right-of-way with a 64-foot *back-to-back* concrete street. In addition, SH-66 is identified as a which is identified as a TXDOT4D (*i.e. Texas Department of Transportation [TXDOT] roadway, four [4] lane, divided roadway*) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. This road will require a minimum of 120-feet of right-of-way or 60-feet from the centerline of the roadway. The applicant will also be required to perform a Traffic Impact Analysis (TIA) for the proposed drive approaches off of FM-1141 and SH-66. Staff is also requiring that as part of the Traffic Impact Analysis (TIA) and/or roadway design, the applicant's consultant study the need for a left turn lane at the proposed drive approach on FM-1141.
- (2) Water. The applicant will be required to construct a 12-inch water line on the subject property along SH-66, extending to the existing stub out at FM-1141. In addition, the development will require an eight (8) inch water line be looped through the subject property.
- (3) Wastewater. The applicant will be required to construct an eight (8) inch wastewater line that will tie into the 12-inch line adjacent to the southwestern property line.
- (4) Drainage. The applicant shall be required to perform a flood study to delineate the fully developed 100-year localized floodplain for all ponds, creeks or streams, and draws on the subject property. Detention will be required and sized per the required detention study. The applicant will also be required to perform a Wetlands and Waters of the United States (WOTUS) study for the existing ponds on the subject property.

## **CONFORMANCE TO THE CITY'S CODES**

The proposed Planned Development District conforms to the majority of the City's code requirements; however, it should be noted that the development standards contained within the Planned Development District ordinance deviate from the requirements of the Unified Development Code (UDC), the Municipal Code of Ordinances, and the Engineering Department's *Standards of Design and Construction Manual* in the following ways:

- (1) Alleyways. The Engineering Department's *Standards of Design and Construction Manual* stipulates that "(a)lleys shall be provided in all residential areas and shall be paved with steel reinforced concrete..." The code does grant the City Council the ability to "... waive the residential alley requirement, if it is in the best interest of the City." [Page 14; Section 2.11 of the *Standards of Design and Construction Manual*]
- (2) Garage Configuration. Section 04, *Residential Parking*, of Article 06, *Parking and Loading*, of the Unified Development Code (UDC) requires that, "(i)n single-family or duplex districts, parking garages must be located at least 20-feet behind the front building façade for front entry garages unless it is a *J-Swing [or traditional swing]* garage where the garage door is perpendicular to the street."

Applicant's Response to (1) & (2): In lieu of providing the required alleyways, the applicant is proposing to provide 50% *J-Swing (or Traditional Swing)* or *Recessed Front Entry (i.e. where the garage is setback a minimum of 20-feet behind the front façade of the home)* garages and 50% *Flat Front Entry* garages with a five (5) recess for the garage (*i.e. where the garage is setback five [5] feet from the front façade*). As a compensatory measure the applicant is proposing to provide additional architectural elements into all garage configurations: [A] coach lighting, [B] decorative wood doors or wood overlays on insulated metal doors, [C] driveways constructed with ornamental stamped concrete brick pavers, stained

finished, or salt finished. Staff should also point out that by providing a five (5) foot recess in the *Flat Front Entry* garages a minimum of a 25-foot driveway is being provided. The following are examples of some of the upgraded finishes depicted in the Planned Development District ordinance:

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

According to the *Land Use Plan* contained in the OURHometown Vision 2040 Comprehensive Plan, the subject property is located within the Northeast Residential District and is designated for Low Density Residential land uses. The plan defines Low Density Residential land uses as "... residential subdivisions that are two (2) units per gross acre or less; however, a density of up to two and one-half (2½) units per gross acre may be permitted for developments that incorporate increased amenity and a mix of land uses ..." In addition, the Comprehensive Plan defines increased amenity as, "... developments that provide some of the following: (1) open space beyond the required 20%, (2) a golf course and/or other comparable recreation facilities, (3) amenity/recreation facilities, (4) school site integration, (5) dedication or development of park land beyond the required park land dedication, (6) additional development of trails, (7) other amenities deemed appropriate by the City Council." In this case the applicant is proposing a total density of 1.94 dwelling units per acre. In addition, the applicant is proposing to incorporate walking trails and 29.71% open space (*i.e. 9.71% in excess of the required 20.00%*). Based on this the applicant's request appears to be in conformance with the Low Density Residential designation indicated for the subject property.

According to the Northeast Residential District, the district "... is characterized by its established low-density residential subdivisions and rural/estate style lots ... [and] is anticipated to be a future growth center for the City, having several large vacant tracts of land suitable for low-density, residential development." Looking at the District Strategies for the Northeast Residential District for Suburban Residential, the plan states that "...new Suburban Residential developments should include a mix of larger to mid-sized lots. Lots in these developments should not be smaller than existing Suburban Residential in this district." In this case, the applicant is proposing lot products that range from 62' x 110' (*or a minimum of 7,200 SF*) to 100' x 130' (*or a minimum of 13,000 SF*). After reviewing the district, staff has identified the following Suburban Residential developments that have similar lot sizes:

- (1) Ladera of Rockwall. This development is platted as one (1) large lot, but calls out Artificial Lots (*i.e. setup in a condominium regime*) that consist of the following lot products: 20, 44.5' x 80'; 31, 42' x 77'; 41, 54' x 60'; and 6, 64' x 50'.
- (2) Saddle Star. 143, 70' x 125' (*or a minimum of 8,750 SF*) and 33, 80' x 125' (*or a minimum of 10,000 SF*).
- (3) Dalton Ranch. 75' x 120' and 80' x 125'
- (4) Gideon Grove (Phase 1). 45, 80' x 125' (*or a minimum of 10,000 SF*) and 27, 100' x 150' (*or a minimum of 15,000 SF*)
- (5) Gideon Grove (Phase 2). 53, 60' x 120' (*or a minimum of 7,000 SF*) and 31, 70' x 120' (*or a minimum of 8,400 SF*)
- (6) Nelson Lakes. 134, 60' x 120' (*or a minimum of 7,000 SF*); 68, 70' x 120' (*or a minimum of 8,400 SF*); and 58, 72' x 120' (*or a minimum of 8,600 SF*)
- (7) Winding Creek. 132, 90' x 100' (*or a minimum of 16,000 SF*)

Staff should point out that the majority of the applicant's request is for the smaller Type 'E' lots (42.31%), which are the 62' x 110' lots (*or a minimum of 7,200 SF*). The only developments with smaller lot sizes than the Type 'E' lots are the Ladera of Rockwall and Nelson Lakes Subdivisions. It should also be pointed out that the subject property is directly adjacent to the Ladera of Rockwall Subdivision, which has the smallest lot sizes in this district.

With regard to the policies and goals for residential development contained in the Comprehensive Plan, the applicant's request incorporates the majority of these policies and goals (*e.g. minimum of six [6] side yard setbacks on all lot types, fronting of*

homes on to a park/open space, designed utilizing the Housing Tree Model, etc.); however, staff has identified the following non-conformities on the concept plan and provided the following recommendations to the applicant:

**RED:** NOT INCORPORATED INTO THE PLANNED DEVELOPMENT DISTRICT ORDINANCE.

**BLUE:** INCORPORATED INTO THE PLANNED DEVELOPMENT DISTRICT ORDINANCE.

- (1) **CH. 08 | Sec. 02.03 | Goal 03; Policy 3:** In cases where *Flat Front Entry* garages (i.e. even with the front façade of the primary structure) are requested as part of a development no greater than 20% should be incorporated into the development. In addition, *Flat Front Entry* garages should have a minimum of a 25-foot front yard building setback to allow vehicles to be parked in the driveway without overhanging public right-of-way. This type of garage may not be appropriate for all developments and should be generally discouraged.

Staff Response: If a *Flat Front Entry* garage configuration with a recess of five (5) feet is being requested it should be limited to 20%. The applicant has chosen to request 50% Flat Front Entry garages and 50% J-Swing (or Traditional Swing) or Recessed Front Entry (i.e. where the garage is setback a minimum of 20-feet behind the front façade of the home) garages, but has consented to upgraded garage doors and driveway requirements. In addition, the added five (5) foot recess provides a 25-foot driveway on the Flat Front Entry garage product, which has a similar effect as the 25-foot setback requested by the Comprehensive Plan.

Taking into account the applicant's concept plan, proposed density, and development standards, the request does appear to conform with the majority of the OURHometown Vision 2040 Comprehensive Plan; however, as with all zoning cases, this request remains a discretionary decision for the City Council pending a recommendation from the Planning and Zoning Commission.

## **NOTIFICATIONS**

On February 25, 2022, staff mailed 78 notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Caruth Lakes (*Caruth Ridge Estates*) Homeowner's Association (HOA), which is the only HOA within 1,500-feet of the subject property participating in the Neighborhood Notification Program. Additionally, staff posted a sign on the subject property, and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this report was drafted, staff had received two (2) property owner notifications from property owners within the 500-foot notification area in opposition to the applicant's request.

## **CONDITIONS OF APPROVAL**

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to rezone the subject property from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses, then staff would propose the following conditions of approval:

- (1) The applicant shall be responsible for maintaining compliance with the concept plan and development standards contained in the Planned Development District ordinance.
- (2) The applicant will be required to put an avigation easement over the property to ensure that homeowners are provided with information showing that they are within close proximity to the flight path of the Ralph Hall Municipal Airport. This will need to be established with the final plat for the subdivision.
- (3) No development or amenities can take place within the Runway Protection Zone (RPZ) of the Ralph Hall Municipal Airport.
- (4) As part of the Traffic Impact Analysis (TIA) and/or roadway design, the need for a left turn lane on FM-1141 -- *at the proposed drive approach* -- shall be determined.
- (5) Any construction resulting from the approval of this Zoning Change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

##### RESIDENTIAL DENSITY CHART

# 11 NORTHEAST RESIDENTIAL DISTRICT

↑ NORTHERN ESTATES DISTRICT (PAGE 1-24)

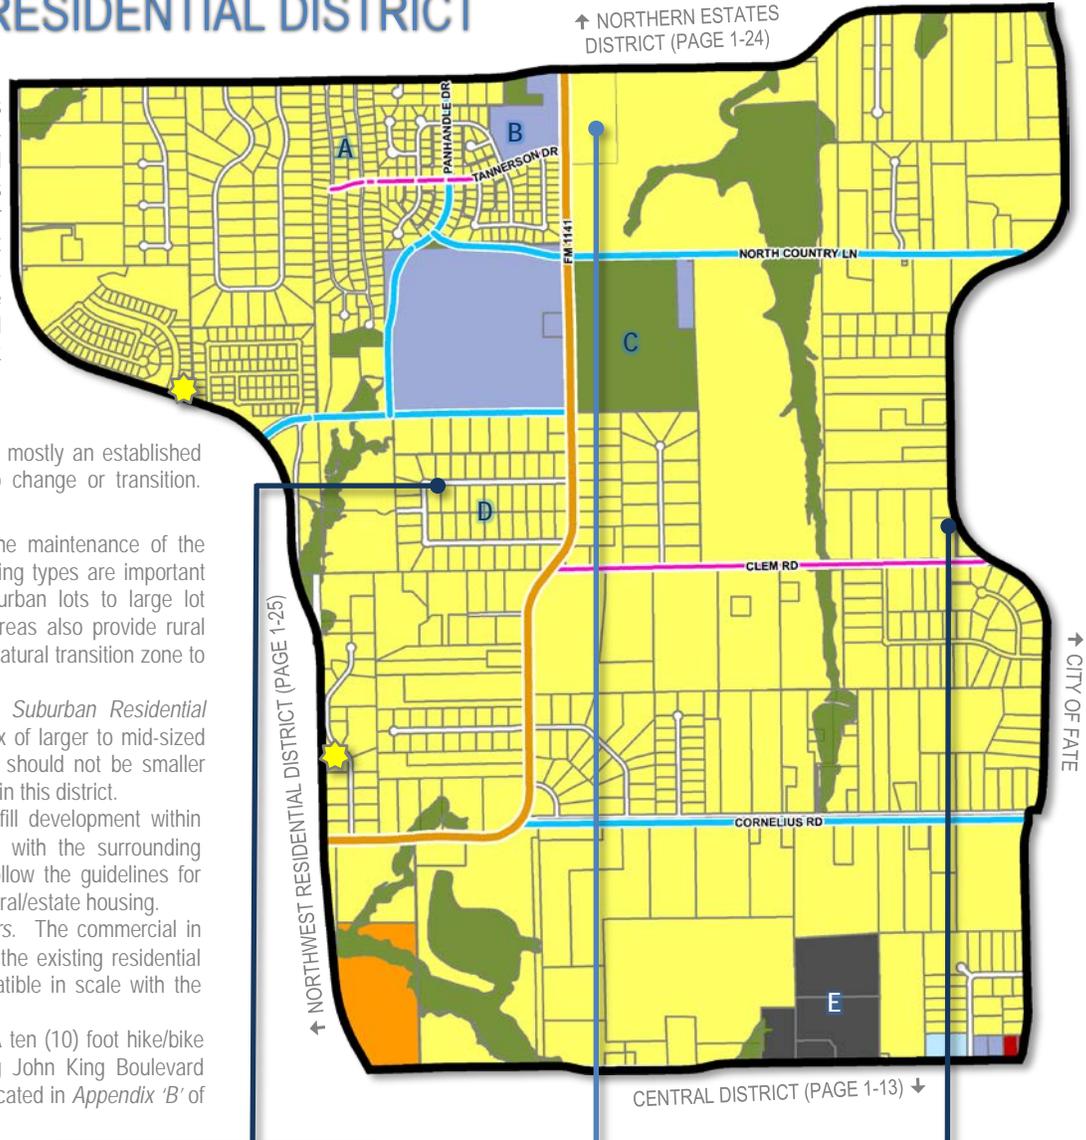

## DISTRICT DESCRIPTION

The *Northeast Residential District* is characterized by its established low-density residential subdivisions and rural/estate style lots. This district is anticipated to be a future growth center for the City, having several large vacant tracts of land suitable for low-density, residential development. In addition, the City currently owns a large tract of land that will be a northern community park and serve this district in the future.

## DISTRICT STRATEGIES

The *Northeast Residential District* being mostly an established residential district, is not anticipated to change or transition. The strategies for this district are:

- 1 **Estate and Rural Residential.** The maintenance of the *Estate and Rural Residential* housing types are important to balancing the diversity of suburban lots to large lot housing within the City. These areas also provide rural reserves for the City and create a natural transition zone to the east, towards FM-3549.
- 2 **Suburban Residential.** Any new *Suburban Residential* developments should include a mix of larger to mid-sized lots. Lots in these developments should not be smaller than existing *Suburban Residential* in this district.
- 3 **Infill Development.** Residential infill development within this district should be compatible with the surrounding structures and should generally follow the guidelines for low density, suburban housing or rural/estate housing.
- 4 **Neighborhood/Convenience Centers.** The commercial in this district is intended to support the existing residential subdivisions and should be compatible in scale with the adjacent residential structures.
- 5 **John King Boulevard Trail Plan.** A ten (10) foot hike/bike trail should be incorporated along John King Boulevard with rest stops and signage as indicated in *Appendix 'B'* of this Comprehensive Plan.

**DATE:** March 15, 2022  
**APPLICANT:** Ryan Miller, AICP; *City of Rockwall*  
**CASE NUMBER:** Z2021-011; *Zoning Change Agricultural (AG) District to General Retail (GR) District*

---

### SUMMARY

Hold a public hearing to discuss and consider a City initiated request for the approval of a Zoning Change from an Agricultural (AG) District to a General Retail (GR) District for a 5.812-acre tract of land identified as Tract 9 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, located at the southwest corner of the intersection of FM-1141 and N. John King Boulevard, and take any action necessary.

### BACKGROUND

The majority of the subject property was annexed on May 19, 1986 by *Ordinance No. 86-37 [Case No. A1986-005]*. The remainder of the subject property was annexed on March 16, 1998 by *Ordinance No. 98-10 [Case No. A1998-001]*. At the time of annexation both portions of the subject property were zoned Agricultural (AG) District. In 2007-2008, the City of Rockwall acquired the subject property -- *which was a portion of a larger 6.702-acre tract of land (i.e. Tract 9 of the M. B. Jones Survey, Abstract No. 122)* -- for the future right-of-way of John King Boulevard. When John King Boulevard was constructed, the subject property was established in its current configuration. The subject property has remained vacant since its annexation.

On August 19, 2021, Maxwell Fisher of Masterplan submitted a development application on behalf of Saro Partners, LLC requesting to rezone a 5.07-acre tract of land (*i.e. Tract 2-06 of the D. Harr Survey, Abstract No. 102 [known as the Developers Property]*) from an Agricultural (AG) District to a Light Industrial (LI) District. Provided with the application was a concept plan showing a proposed ~17,000 SF facility for a *Social Service Provider/Day Care (i.e. Boys and Girls Club of America)*. After reviewing the application and concept plan, staff was made aware that the parking areas and a portion of the proposed facility would be situated within the Runway Protection Zone (RPZ) and *Clear Zone Easement [Instrument No. 19690000870386]* of the Ralph Hall Municipal Airport. In response to these findings, staff contacted the applicant to discuss possible options to protect the airport's RPZ while still finding a way to facilitate the proposed development. The option that appeared to be the most beneficial to all parties involved, was an option that involved trading the 5.07-acre tract of land (*i.e. the Developers Property*) for a 4.18-acre portion of the subject property (*i.e. a portion of Tract 9 of the M. B. Jones Survey, Abstract No. 122*). At the February 7, 2022 City Council meeting, the City Council approved a motion directing the City Manager to enter into a 380 Economic Development Agreement with the owner of the *Developer's Property* for the property swap and the development of a Boys and Girls Club of America on the subject. This agreement was signed and executed by the City and Saro Partners, LLC on March 8, 2022.

Under the terms of this agreement, the City of Rockwall is responsible for rezoning the *City's Property* from an Agricultural (AG) District to a Commercial (C) District and replatting the subject property into two (2) lots (*i.e. a 4.18-acre parcel of land that will be subject to the terms of the agreement and a 1.632-acre parcel of land that will be retained by the City of Rockwall*). Once the property is zoned and platted, the 4.18-acre parcel of land can be exchanged for the *Developer's Property* and then deeded to the Boys and Girls Club of America. After the property swap, the Boys and Girls Club of America will have 36-months from the date of the exchange of the property to begin developing the property with a new facility or the properties will revert back to their previous ownership.

In preparing for this case, staff received a number of phone calls and emails from residents of the adjacent neighborhood (*i.e. the Caruth Lakes Subdivision*) expressing a concern with the requested Commercial (C) District zoning. Based on this staff

engaged the applicant to see if they were open to a changing the request from a Commercial (C) District to a General Retail (GR) District, and on March 11, 2022 the applicant sent an email accepting the change. Staff should point out that this change does not affect the ability of the Boys and Girls Club of America to meet the 380 Economic Development Agreement or what is being proposed to be developed on the subject property; however, staff is in agreement with the residents that a General Retail (GR) District zoning designation is more consistent with the residential adjacencies.

## **PURPOSE**

In accordance with the requirements of the executed 380 Economic Development Agreement and the changes agreed to by the City and Shawn Valk of Saro Partners, LLC, the City of Rockwall has submitted an application requesting to change the zoning of the subject property from an Agricultural (AG) District to a General Retail (GR) District.

## **ADJACENT LAND USES AND ACCESS**

The subject property is located at the southwest corner of the intersection of FM-1141 and John King Boulevard. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is FM-1141, which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this is a 0.5457-acre tract of land (*i.e. Tract 29-1 of the S. S. McCurry Survey, Abstract No. 146*) zoned Agricultural (AG) District. Situated on this tract of land is a 2,176 SF single-family home constructed in 1971. North of this property is Phase 6 of the Caruth Lakes Subdivision, which was established on August 9, 2005 and consists of 158 single-family residential lots. This subdivision is zoned Planned Development District 5 (PD-5) for Single-Family 7 (SF-7) District land uses.

South: Directly south of the subject property is: [1] a 1.837-acre vacant tract of land (*i.e. Tract 6 of the M. B. Jones Survey, Abstract No. 122*) zoned Agricultural (AG) District, and [2] a 9.894-acre vacant parcel of land (*i.e. Lot 1, Block B, Ladera Rockwall Addition*). Beyond this is SH-66, which is identified as a *Minor Collector* on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

East: Directly east of the subject property is John King Boulevard, which is identified as a P6D (*i.e. principal arterial, six [6] lane, divided roadway*) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this is: [1] excess right-of-way for John King Boulevard (*i.e. being a portion of Tract 9 of the M. B. Jones Survey, Abstract No. 122*), [2] a 15.93-acre vacant tract of land (*i.e. Tract 5-1 of M. B. Jones Survey, Abstract No. 122*) zoned Agricultural (AG) District, and [3] a 9.789-acre parcel of land (*i.e. Lot 1, Block A, Ladera Rockwall Addition*) zoned Planned Development District 85 (PD-85) for Single-Family 7 (SF-7) District land uses. Situated on the 9.789-acre parcel of land is Phase 1 of the Ladera Subdivision, which was established on September 20, 2019 and consists of 87 single-family residential homes.

West: Directly west of the subject property is FM-1141, which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this is a 3.20-acre tract of land (*i.e. Tract 1 of the M. B. Jones Survey, Abstract No. 122*) zoned Agricultural (AG) District. Situated on this tract of land is a 1,380 SF single-family home constructed in 1976. West of this property is Phase 6 of the Caruth Lakes Subdivision, which was established on August 9, 2005 and consists of 158 single-family residential lots. This subdivision is zoned Planned Development District 5 (PD-5) for Single-Family 7 (SF-7) District land uses.

## **CONFORMANCE TO THE CITY'S CODES**

According to Subsection 04.04, *General Retail (GR) District*, of Article 05, *District Development Standards*, of the Unified Development Code (UDC), "(t)he General Retail (GR) District is a zoning district intended to provided limited retail and service uses ... [tha] include most types of retail and office activity, and are typically located on/at the intersections of major thoroughfares." This section goes on to state that "(s)ince the General Retail (GR) District will be located close to residential areas, the development standards are stringent and require high standards of development ..." These standards are defined in Subsection 07.03, *Non-Residential District Development Standards*, of the Unified Development Code (UDC) and are summarized as follows:

TABLE 1: GENERAL RETAIL (GR) DISTRICT STANDARDS

Minimum Lot Area	6,000 SF
Minimum Lot Width	60'
Minimum Lot Depth	100'
Minimum Front Yard Setback <sup>(1) &amp; (2)</sup>	15'
Minimum Side Yard Setback <sup>(3)</sup>	10'
Minimum Rear Yard Setback <sup>(3)</sup>	10'
Minimum Between Buildings <sup>(3)</sup>	10'
Maximum Building Height <sup>(4)</sup>	36'
Maximum Building Size <sup>(5)</sup>	25,000 SF
Maximum Lot Coverage	40%
Minimum Landscaping	20%

General Notes:

- 1: From future right-of-way as shown on the adopted Master Thoroughfare Plan or as actually exists, whichever is greater.
- 2: Parking should not be located between the front façade and the property line.
- 3: The setback can be reduced to zero (0) feet with a fire rated wall.
- 4: Building height may be increased up to 60-feet if approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.
- 5: A maximum building size of 25,000 SF in area, unless otherwise approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

If this zoning change is approved and when the subject property is developed, the development will be required to conform to all the requirements of the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, and any other applicable local, state or federal requirements.

**CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN**

According to the *Land Use Plan* contained in the OURHometown Vision 2040 Comprehensive Plan, the subject property is situated within Northwest Residential District and is designated for Commercial/Retail land uses. In addition, the *District Map* shows that the subject property is an ideal place for a *Trail Plan Rest Stop/Trailblazer Pylon* for John King Boulevard in accordance with the John King Boulevard Corridor Plan (see *Subsection 02.02 of Appendix 'B', Corridor Plans, of the OURHometown Vision 2040 Comprehensive Plan*). The *Land Use Designations* section of the plan states that, "(t)he Commercial/Retail land use category is characterized by single to multi-tenant commercial retail centers along major arterials at key intersection ..."; however, listed as an acceptable land use in the *Secondary Land Uses* section of this designation is the *Institutional/Civic Land Uses*, which is what the proposed Boys and Girls Club of America would be categorized as. Additionally, the General Retail (GR) District is one (1) of the permitted zoning designations for the Commercial/Retail designation. Based on this the proposed zoning change meets the intent of the Comprehensive Plan. With regard to the *Trail Plan Rest Stop/Trailblazer Pylon* designated to be situated on the subject property, this element of the plan is probably better situated at the corner of the FM-1141 and John King Boulevard. This would be on the 1.632-acre portion of the subject property that will be retained by the City of Rockwall.

For the Planning and Zoning Commission and City Council's review, staff has included excerpts from the Comprehensive Plan showing the *Land Use Plan* and *District Strategies* for the Northwest Residential District, and the land use designation definition for the Commercial/Retail land use designation.

**INFRASTRUCTURE**

Based on the proposed request, the following infrastructure is required to be constructed to provide adequate public services for any development of the subject property:

- (1) Roadways. At the time of development, the developer shall verify the right-of-way width of FM-1141 to ensure there is 120-feet of right-of-way, and dedicate any of the subject property that is within 30-feet of the centerline of the roadway and put anything up to 60-feet from the centerline in a reserve. A Traffic Impact Analysis (TIA) will be required by the Texas Department of Transportation (TXDOT) at the time the civil engineering is submitted.

- (2) Water. An eight (8) inch water line will need to be extended from the 12-inch water line at the northwest corner of FM-1141 and John King Boulevard, through the subject property to the west side of FM-1141, and tie into the 12-inch water line stubbed out north of Waters Edge Drive.
- (3) Wastewater. A minimum of an eight (8) inch wastewater line will need to extend from the manhole at the southeast corner of the subject property to the northern most property line of the subject property.
- (4) Drainage. If a proposed development is *touching* the floodplain, the developer shall be required to perform a flood study to delineate the fully developed 100-year localized floodplain for all ponds, creeks or streams, and draws on the subject property. This has already been submitted by the applicant. In addition, detention will be required and sized per *Manning's C-Value* for the zoning designation.

## **STAFF ANALYSIS**

The proposed zoning change is in conformance with the intent of the General Retail (GR) District as defined by the Unified Development Code (UDC) and the policies and guidelines of the OURHometown Vision 2040 Comprehensive Plan; however, zoning is a discretionary decision for the City Council pending a recommendation from the Planning and Zoning Commission.

## **NOTIFICATIONS**

On February 25, 2022, staff mailed 62 notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Caruth Lakes (*Caruth Ridge Estates*) Homeowner's Association (HOA), which was the only Homeowner's Association (HOA) or Neighborhood Organization within 1,500-feet of the subject property participating in the Neighborhood Notification Program. Additionally, staff posted a sign on the subject property, and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this report was drafted, staff had received the following:

- (1) Two (2) property owner notifications from property owners within the 500-foot notification buffer opposed to the applicant's request.
- (2) Two (2) emails from two (2) property owners outside of the 500-foot notification buffer opposed to the applicant's request.
- (3) Two (2) responses from the online *Zoning & Specific Use Permit Input Form* from two (2) property owners outside of the 500-foot notification buffer opposed to the applicant's request.
- (4) Three (3) emails from three (3) property owners outside of the 500-foot notification buffer stating an opposition to Commercial (C) District zoning. These emails indicate that General Retail (GR) District zoning is more appropriate for this request.

## **CONDITIONS OF APPROVAL**

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to rezone the subject property from an Agricultural (AG) District to a General Retail (GR) District, then staff would propose the following conditions of approval:

- (1) The applicant shall be responsible for maintaining compliance with the draft ordinance; and,
- (2) Any construction resulting from the approval of this Zoning Change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Name: Amanda and Beau Jackson  
Address: 1277 Waters Edge Drive Rockwall 75087

My husband and I are in opposition for the zoning change (Case No. Z2022-011). We live very close to the intersection of Waters Edge and 1141. We have young children (along with several of our neighbors) that are always playing outside. We would not like to have the extra traffic and people that close to where our children play. The new commercial buildings would be within eyes view of our home and would be an eyesore. Having commercial buildings this close to a home can also negatively effect the resale value of a home.

Please take our input into consideration.

Thanks

As citizens of the City of Rockwall, we are requesting that the Rockwall Planning and Zoning Department and the City Council deny the request in Z2022-011 to change the zoning for this parcel of land from *Agriculture (AG)* to *Commercial (C)* because the zoning of *Commercial* allows for the building of businesses that are not deemed appropriate for this location.

We believe that a zoning of *General Retail (GR)* is significantly more appropriate for this location. Please deny the request for the designation of *Commercial* zoning and advise the applicant to apply for the more appropriate zoning designation of *General Retail*.

We did our due diligence when we built our home 10 years ago to ensure property around us was not zoned commercial. We would not have built and put \$100k in home improvements had we known this land could be zoned commercial. We're extremely concerned about the noise, light pollution that will effect our neighborhoods quality of life & property values

**Subject:** Zoning Case Z2022-011

Dear Honorable Council Members,

Regarding the swap of land near Airport Road and a lot located on the SW corner of FM-1141 and N. John King Boulevard. The city's public relations campaign describes a Chapter 380 Economic Agreement between the City of Rockwall and developer (Saro Partners, LLC,). It indicates it will enhance the safety of people and property on the ground by moving a proposed Boys and Girls Club out of a Runway Protection Zone near the Ralph Hall Municipal Airport to the SW Corner of FM1141 and John King Blvd.

This all sounds well and good since it is reasonable to assume we all support safety, economic development, and non-profits like the Boys and Girls Club who do good for the community.

However, the proposed Boys and Girls club will go directly on SH205 Bypass, otherwise known as John King Blvd. The City of Rockwall is working with TxDOT to move all 18-wheeler traffic to John King from Goliad. The already heavy 18-wheeler traffic will increase substantially. Unfortunately, the City of Rockwall allowed a toddler's playground directly on John King a while back which caused an uproar. It is concerning that child safety seems to take a back seat to economic development.

Additionally, the City of Rockwall has requested a zoning change for the lot from AG to commercial C District presumably to allow the Boys and Girls Club to build there. The issue is "C" commercial zoning is general in nature and permits such development as mini warehouses, bail bond services, pawn shops, rental storage, gas stations with more than 2 dispensers, nightclubs, used car lots, and heavy machine tool rental. The more appropriate zoning change would be to "GR" General Retail commercial. Since General Retail (GR) zoning is usually located close to residential areas, the development standards are stringent and require high standards of development. The "C" commercial zoning does not have the same stringent requirements. The GR zoning is all that is needed for a Boys and Girls Club. Daycare with Seven [7] or More Children/Office) and social service providers are permitted with that zoning and it is consistent with the Rockwall Comprehensive Plan.

There is no 100% guarantee the Boys and Girls Club will be built on the lot. If the "C" zoning is approved it will stay associated with the lot. This request to change the zoning is not following the normal application process. Rockwall citizens are not being provided with a site plan, preliminary plat plan, landscape plan, square footage, height, conceptual drawings of the building, traffic flow, or if the lot will be subdivided.

**Nothing.** We are not being provided the customary information that normally informs a zoning decision. This is akin to asking the residents to write a blank check on any future development there that could include mini warehouses, bail bond services, pawn shops, rental storage, gas stations with more than 2 dispensers, nightclubs, used car lots, and heavy machine tool rental.

I support the Economic Agreement and the swap of land for the Boys and Girls Club but pawn shops, storage buildings, bail bonds services, nightclubs, machine tool rentals, used car lots etc. near a residential area, in this case Caruth Lakes, Gideon Grove, FM 1141 neighborhoods, and Ladera is unacceptable. Please change the proposed zoning to GR General Retail Commercial on case number Z2022-011.

During the site planning process, extra diligence must be focused on child safety so that a dangerous environment is not created like the existing toddler playground on John King. Use every available stringent zoning guidelines to ensure the safety of the children. We all support safety of people and property on the ground. I urge the City of Rockwall to take a harder look at the economic agreement and proposed zoning to ensure children and their parents are in a protection zone from 18-wheelers and residents' home values and property are in a protection zone with the appropriate GR General Retail zoning.

Thank you.

**Subject:** Proposed Zoning Change on 1141 and John King for Boys and Girls Club Opposition

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

Dear Mr. Miller,

I have a strong objection to any type of commercial zoning change of this parcel. This is a residential area and a business of any kind would increase traffic, create more noise than we already have from John King and 66 and disturb our somewhat peaceful neighborhood even more.

I also strongly feel like turning this into a commercial parcel will not guarantee what type of business will be built there and will lower our property values.

I also feel this will create a safety issue for our children and for the probability of more car accidents in the area.

Most all commercial parcels have bright lighting as well and that would be a real annoyance to the homes directly off 1141.

Privacy is also a concern as well as losing beautification of many trees.

This parcel is surrounded by 3 Subdivisions on both sides along with the addition of more schools to come. Plain and simple this a residential area and the only type of zoning that I would agree with would be more homes since there is such a shortage in Rockwall.

I live in Carruth Lakes very close to this parcel of land and I vehemently object to a zoning change from AG to Commercial.

Sincerely,

## CHAPTER 380 ECONOMIC DEVELOPMENT AGREEMENT

This **CHAPTER 380 ECONOMIC DEVELOPMENT AGREEMENT** (hereinafter referred to as the *Agreement*) is entered into by and between the **CITY OF ROCKWALL, TEXAS**, a Texas home-rule municipality (hereinafter referred to as the *City*) and **SARO PARTNERS, LLC** [a Texas limited liability company], (hereinafter referred to as the *Developer*). The *City* and *Developer* are collectively referred to in this *Agreement* as the *Parties*.

**WHEREAS**, the *City* owns approximately 4.18-acre tract of land (*i.e. Tract 9 of the M. B. Jones Survey, Abstract No. 122*) -- depicted in Exhibit 'A' attached hereto and incorporated herein for all purposes (the *City's Property*), which is part of a larger portion of a 5.702-acre tract of land in the City of Rockwall located at the southwest corner of John King Boulevard and FM-1141; and

**WHEREAS**, the *Developer* owns approximately 5.07-acre tract of land (*i.e. Tract 2-06 of the D. Harr Survey, Abstract No. 102*) -- depicted in Exhibit 'B' attached hereto and incorporated herein for all purposes (the *Developer's Property*), which is in the City of Rockwall at the southeast corner of Airport Road and John King Boulevard; and

**WHEREAS**, the *Developer's Property* is located in the Airport Runway Protection Zone of the Ralph Hall Municipal Airport, which limits the type of development that can be developed on the *Developer's Property*, including the development of an assembly type land use (*i.e. the Boys and Girls Club*); and

**WHEREAS**, the *Developer* has offered to exchange the *Developer's Property* for the *City's Property* in order to allow for the development of a Boys and Girls Club facility (the *Project*) based on the agreed to terms of an executed **CHAPTER 380 ECONOMIC DEVELOPMENT AGREEMENT** between the *City* and the *Developer*; and

**WHEREAS**, the *City* has determined that the development of the *Project* will be a benefit to the *City* and will promote economic development in the area; and

**WHEREAS**, in accordance with Section 52-a, *Programs and Loans or Grants of Public Money for Economic Development*, of Article 3, *Legislative Department*, of the Texas Constitution and Section 380.001 of the Texas Local Government Code, the *City* has established a program to provide for the administration of programs to promote state or local economic development and to stimulate business and commercial activity in the *City*; and

**WHEREAS**, to ensure that the benefits the *City* provides under this *Agreement* are utilized in a manner consistent with Section 52-a, *Programs and Loans or Grants of Public Money for Economic Development*, of Article 3, *Legislative Department*, of the Texas Constitution and Chapter 380, *Miscellaneous Provisions Relating to Municipal Planning and Development*, of the Texas Local Government Code, the *Developer* has agreed, to receive such benefits, to cooperate with the *City* in the design and construction of certain public improvements; and

**WHEREAS**, the *City* acknowledges that the provisions of this *Agreement* substantially advance a legitimate interest of the *City* by providing public infrastructure, expanding the tax base of the *City* and promoting economic development.

**NOW, THEREFORE**, for and in consideration of the above recitals and the terms and conditions set forth below, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the *City* and the *Developer* hereby agree as follows:

(1) PROJECT.

(A) Jurisdiction. The design, specifications and ordinances for the *Project* applicable in the City of Rockwall shall apply to the *Project*, except where the City of Rockwall City Council concurs in writing the application of differing requirements and specifications.

(B) Property for the Project. The *City Property* for the *Project* consists of a 4.18-acre acre tract of land (*i.e. Tract 9 of the M. B. Jones Survey, Abstract No. 122*) -- depicted in Exhibit A attached hereto and incorporated herein for all purposes,

which is part of a larger portion of a 5.702-acre tract of land in the City of Rockwall located at the southwest corner of John King Boulevard and FM-1141.

(C) Conditions Precedent. This *Agreement* and the *Developer's* obligation to execute the *Project* are subject to the following conditions:

- (I) The *City* will initiate zoning procedures to rezone the *City's Property* from an Agricultural (AG) District to a Commercial (C) District. This zoning change would be in accordance with the *City's Future Land Use Map* contained in the *OURHometown Vision 2040 Comprehensive Plan*, and would allow the requested land uses (*i.e. a Daycare with Seven [7] or More Children/Office*) needed for the *Project*.
- (II) Upon the zoning being approved on the *City's Property*, the *City* and *Developer* will legally document the exchange of the *City's Property* for the *Developer's Property*. This exchange of property will secure a portion of the Airport Runway Protection Zone of the Ralph Hall Municipal Airport.
- (III) Once the *Developer* is in possession and has acquired ownership of the *City's Property*, the Boys and Girls Club will have 36-months from the date of the exchange of property to begin developing the *City's Property* with the *Project*. Once the *Project* has commenced, *Developer* shall have 24-months to complete the *Project*.

(D) Return of City Property. Should the *Project* fail to commence within 36-months from the date the exchange of the property or if the *Parties* do not extend the term to commence the *Project*, the *Developer* will reconvey the *City's Property* back to the City of Rockwall at no cost to the *City* and the *City* will reconvey the *Developer's Property* back to the *City* at no cost to the *Developer*. If the *City* returns the *Property* to *Developer*, *Developer* must comply with the regulations of the Airport Runway Protection Zone on any future development of the returned *Developer's Property*.

(E) Plans and Approvals. The *Developer* shall be responsible for pursuing and obtaining the necessary plats, site plan approvals and all other approvals and permits required from the *City* which are necessary for construction of the improvements for the development for the *Project* as well as all occupancy and use permits required to allow the development and occupancy of the *Project*.

(F) Construction. If sufficient funds are raised to proceed with the *Project*, the *Developer* shall require its construction contractor(s) to construct the *Project* in a good and workmanlike manner and in substantial accordance with the approved plans and specifications and shall diligently pursue the construction of the *Project* until it is completed. The *City* shall have the right to inspect the *Project* to confirm compliance with the approved plans and specifications and applicable *City* codes.

(2) DEFAULT.

(A) Notice and Opportunity to Cure. Notwithstanding anything herein to the contrary, no party shall be deemed to be in default hereunder until the passage of 30-days after receipt by such party of notice of default from the other party. Upon the passage of 30-days without cure of the default, such party shall be deemed to have defaulted for purposes of this *Agreement*, unless such party has commenced to cure such default and is prosecuting the same with reasonable diligence. Notwithstanding the foregoing, commencement of cure, with reasonable diligence, shall only prevent a party from being in default for 60-days after notice was received and a cure had not been achieved unless the non-defaulting party agrees to allow the defaulting party additional time to cure the default.

(B) Remedies. In the event of a default not cured within the time period set forth herein, the non-defaulting party may, as its sole and exclusive remedy, terminate this *Agreement* or seek injunctive relief of other equitable relief, including, without limitation, specific performance, to enforce the terms of this *Agreement*. Notwithstanding the foregoing, if injunctive or other equitable relief is barred by governmental immunity, then the *Developer* may pursue all other legal and equitable remedies that are not barred by governmental immunity; however, in no event shall a non-defaulting party be entitled to an award of damages or any other monetary relief. The foregoing remedies shall not be applicable to the facts set forth in Section (1)(D) above and the remedy set forth in such Section shall be the exclusive remedy of the *City* and the *Developer* for the facts set forth in that Section.

- (C) Attorney's Fees. In the event that the *Developer* and the *City* fail to resolve a dispute and become involved in litigation with regard to breach of or dispute arising out of this *Agreement*, the prevailing *Party* shall be entitled to be paid its reasonable attorneys' fees and court costs.

(3) DISPUTE RESOLUTION.

- (A) If a dispute arises out of or relates to this *Agreement* or the breach thereof, the *Parties* shall first in good faith seek to resolve the dispute through negotiation between the upper management of each respective *Party*. If such dispute cannot be settled through negotiation, the *Parties* agree to try in good faith to settle the dispute by mediation under the *Commercial Mediation Rules of the American Arbitration Association*, Dallas, Texas, before resorting to litigation, or some other dispute resolution procedure; provided that a *Party* may not invoke mediation unless it has provided the other *Party* with written notice of the dispute and has attempted in good faith to resolve such dispute through negotiation. Notwithstanding the foregoing, any *Party* may seek immediate equitable relief, without attempting to settle a dispute through mediation, in any case where such *Party* is entitled to equitable relief by law, the terms of the *Agreement*, or otherwise. All costs of negotiation, mediation, and arbitration collectively known as Alternate Dispute Resolution (ADR) shall be assessed equally between the *City* and *Developer* with each party bearing their own costs for attorneys' fees, experts, and other costs of ADR and any ensuing litigation.

(4) GENERAL PROVISIONS.

- (A) INDEMNIFICATION. THE *DEVELOPER* AGREES TO DEFEND, INDEMNIFY AND HOLD THE *CITY* AND ITS ELECTED OFFICIALS, OFFICERS, AGENTS AND EMPLOYEES (COLLECTIVELY THE *CITY*) HARMLESS FROM AND AGAINST ANY AND ALL REASONABLE LIABILITIES, DAMAGES, CLAIMS, DEMANDS, LAWSUITS, JUDGMENTS, ATTORNEY FEES, COSTS, EXPENSES AND ANY CAUSE OF ACTION OF ANY KIND AND NATURE, INCLUDING BUT NOT LIMITED TO, PERSONAL OR BODILY INJURY, DEATH AND PROPERTY DAMAGE, MADE UPON THE *CITY* DIRECTLY OR INDIRECTLY ARISING OUT OF, RESULTING FROM OR RELATED TO *DEVELOPER'S* ACTIVITIES UNDER THIS *AGREEMENT*, INCLUDING ANY ACTS OR OMISSIONS OF *DEVELOPER'S* AGENT, OFFICER, DIRECTOR, REPRESENTATIVE, EMPLOYEE, CONSULTANT OR CONTRACTOR OF THE *DEVELOPER*, AND THEIR RESPECTIVE OFFICERS, AGENTS EMPLOYEES, DIRECTORS AND REPRESENTATIVES WHILE IN THE EXERCISE OF PERFORMANCE OF THE RIGHTS OR DUTIES UNDER THIS *AGREEMENT*. THE INDEMNITY PROVIDED FOR IN THIS PARAGRAPH SHALL NOT APPLY TO ANY LIABILITY RESULTING FROM THE NEGLIGENCE OF THE *CITY*, ITS OFFICERS OR EMPLOYEES, IN INSTANCES WHERE SUCH NEGLIGENCE IS THE SOLE CAUSE OF PERSONAL INJURY, DEATH, OR PROPERTY DAMAGE.
- (B) THE PROVISIONS OF THE ABOVE SECTIONS ARE SOLELY FOR THE BENEFIT OF THE *PARTIES* HERETO AND NOT INTENDED TO CREATE OR GRANT ANY RIGHTS, CONTRACTUAL OR OTHERWISE, TO ANY OTHER PERSON OR ENTITY. IT BEING THE INTENTION OF THE *PARTIES* THAT THE *DEVELOPER* SHALL BE RESPONSIBLE FOR THE REPAYMENT OF ANY AMOUNTS PAID TO THE *DEVELOPER* HEREIN THAT INCLUDES *CITY* SALES TAX RECEIPTS THAT THE STATE OF TEXAS HAS DETERMINED WAS ERRONEOUSLY PAID, DISTRIBUTED OR ALLOCATED TO THE *CITY*.
- (C) Mutual Assistance. The *City* and the *Developer* will do all things and execute all documents reasonably necessary or appropriate to carry out the terms and provisions of this *Agreement* and to aid and assist each other in carrying out such terms and provisions.
- (D) Inconsistencies. Where any inconsistency exists between this *Agreement* and other provisions of subsequent collateral contractual agreements that are made a part hereof by reference or otherwise, the provisions of this *Agreement* shall control.
- (E) Rule of Construction. The *Parties* hereto acknowledge that each party and its legal counsel have reviewed and revised this *Agreement*, and the *Parties* hereby agree that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this *Agreement* or any amendments hereto.

(F) Independent Contractors and Immunity.

- (I) It is expressly understood and agreed by all *Parties* hereto that in performing their services hereunder, the *Developer* at no time will be acting as an agent of the *City* and that all consultants or contractors engaged by the *Developer* respectively will be independent contractors of the *Developer*; and nothing contained in this *Agreement* is intended by the *Parties* to create a partnership or joint venture between the *Parties* and any implication to the contrary is hereby expressly disavowed. The *Parties* hereto understand and agree that the *City* will not be liable for any claims that may be asserted by any third party occurring in connection with services performed by the *Developer* respectively under this *Agreement*, unless any such claims are due to the fault of the *City*.
- (II) By entering into this *Agreement*, the *Parties* do not waive, and shall not be deemed to have waived, any rights, immunities, or defenses either may have, including the defense of parties, and nothing contained herein shall ever be construed as a waiver of sovereign or official immunity by the *City* with such rights being expressly reserved to the fullest extent authorized by law and to the same extent which existed prior to the execution hereof.
- (III) No employee of the *City*, or any councilmember or agent of the *City*, shall be personally responsible for any liability arising under or growing out of this *Agreement*.

(G) Invalidity. If any provision of this *Agreement* is held to be invalid, illegal or unenforceable by a court or other tribunal of competent jurisdiction, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired. The *Parties* shall use their best efforts to replace the respective provision or provisions of this *Agreement* with legal terms and conditions approximating the original intent of the *Parties*.

## 01.02 COMMERCIAL ●●●●

### ● COMMERCIAL/RETAIL (CR)

The *Commercial/Retail* land use category is characterized by single to multi-tenant commercial retail centers along major arterials at key intersections. These areas are typically considered to be convenience shopping centers and service adjacent residential subdivisions. Zoning in conformance with the Commercial/Retail land uses category can be incorporated into a Planned Development (PD) District as part of a larger mix-use master planned community, and may vary in size depending on the adjacent service area. In certain cases where commercial land uses are eminent, it may be appropriate to incorporate zoning in conformance to the Commercial land use category on all four (4) corners of an intersection; however, this is not necessary in all cases. These areas should be designed with the pedestrian in mind, and provide connections between the commercial land use and the adjacent residential subdivision.

#### DESIGNATION CHARACTERISTICS

- 1 Primary Land Uses: Commercial Retail Buildings, Restaurants/Brew Pubs, Multi-Tenant Commercial Centers, Neighborhood Centers and Convenience Centers
- 2 Secondary Land Uses: Office/Financial Institutions, Parks, Open Space, and Institutional/Civic Land Uses
- 3 Zoning Districts: Neighborhood Services (NS) District, General Retail (GR) District, Commercial (C) District and certain mixed-use Planned Development (PD) Districts

#### EXISTING LAND USE EXAMPLES

- 1 Shops at Stone Creek
- 2 Corner of the Intersection of N. Lakeshore Drive and N. Goliad Street [SH-205]
- 3 Walmart Neighborhood Market Shopping Center

### ● COMMERCIAL/INDUSTRIAL (CI)

The *Commercial/Industrial* land use category typically is characterized by smaller business and industrial land uses that are focused around assembly, manufacturing and fabrication. This designation may also accommodate land uses that require outside storage. These areas are also appropriate for small business and business incubator arrangements. Land uses under this designation should be heavily screened by landscaping and should be separated from other land uses using large buffers and roadways. These areas are not appropriate adjacent to residential land use designations and should be separated from these areas using transitional land uses.

#### DESIGNATION CHARACTERISTICS

- 1 Primary Land Uses: Small Scale Manufacturing, Assembly, and Fabrication Businesses, Business Incubators, Contractors Shops, and Heavy Equipment/Truck Rental Businesses
- 2 Secondary Land Uses: Warehouse and Outside Storage
- 3 Zoning Districts: Heavy Commercial (HC) District and Heavy Industrial (HI) District

#### EXISTING LAND USE EXAMPLES

- 1 Areas Adjacent to National Drive
- 2 Areas Adjacent to Sids Road

### ● BUSINESS CENTERS (BC)

The Business Center land use designation is intended to provide areas with a variety of employment options. While focusing on employment land uses, these areas may also incorporate limited supporting land uses (*e.g. restaurants and commercial-retail*) that complement the primary land uses. These areas should be designed with public amenities and greenspaces, increased landscaping, and unique design features that will help create a sense of place.

#### DESIGNATION CHARACTERISTICS

- 1 Primary Land Uses: Professional Offices, Corporate Offices, General Offices, Institutional Land Uses, Research and Design/Development Businesses, and Technology/Data Centers.
- 2 Secondary Land Uses: Supporting Restaurants and Commercial-Retail Land Uses, Hotels, Parks, Open Space and Civic Uses
- 3 Zoning Districts: Commercial (C) District, Light Industrial (LI) District, and Planned Development (PD) Districts

#### EXISTING LAND USE EXAMPLES

- 1 Trend Tower

# 13 NORTHWEST RESIDENTIAL DISTRICT

## DISTRICT DESCRIPTION

The Northwest Residential District is characterized by the two (2) large master planned communities that make up the majority of the acreage in this district. These developments are the Caruth Lakes and Stone Creek Subdivisions. The remainder of this district is expected to develop with similar medium density residential housing product.

## DISTRICT STRATEGIES

The Northwest Residential District is expected to continue to provide master planned suburban neighborhoods in the future and has no areas that are thought to be transitioning. Based on these assumptions the strategies for this district are as follows:

- 1 Suburban Residential.** Many of the remaining tracts of land in this area have been entitled with planned development districts that are targeted at bringing similar Suburban Residential products as those that currently exist in the Caruth Lakes and Stone Creek Subdivisions. Any new residential development in these areas should be highly amenitized and include a mixture of lots similar to the lot mixture in the Stone Creek Subdivision.
- 2 Neighborhood/Convenience Centers.** The commercial in this district is intended to support the existing residential subdivisions and should be compatible in scale with the adjacent residential structures. These areas should provide pedestrian access between the Neighborhood/Convenience Centers and the Suburban Residential developments.
- 3 John King Boulevard Trail Plan.** A ten (10) foot hike/bike trail should be incorporated along John King Boulevard with rest stops and signage as indicated in Appendix 'B' of this Comprehensive Plan.

Shawn ... Thank you again for taking the time to speak with me today and being open to making this change. Per our conversation, I conferred with the City Attorney and he feels that a simple email stating that you are fine with a change in the zoning designation to a General Retail (GR) District from a Commercial (C) District will suffice in lieu of amending the 380 Agreement. As stated this will not affect the ability of the Boys and Girls Club from developing the property and meeting the terms of the agreement, but should alleviate the concerns of the adjacent neighborhood. If you have any questions or need any additional clarifications, please let me know. Thanks.

**TO:** Planning and Zoning Commission

**FROM:** Ryan Miller, *Director of Planning and Zoning*

**DATE:** March 15, 2022

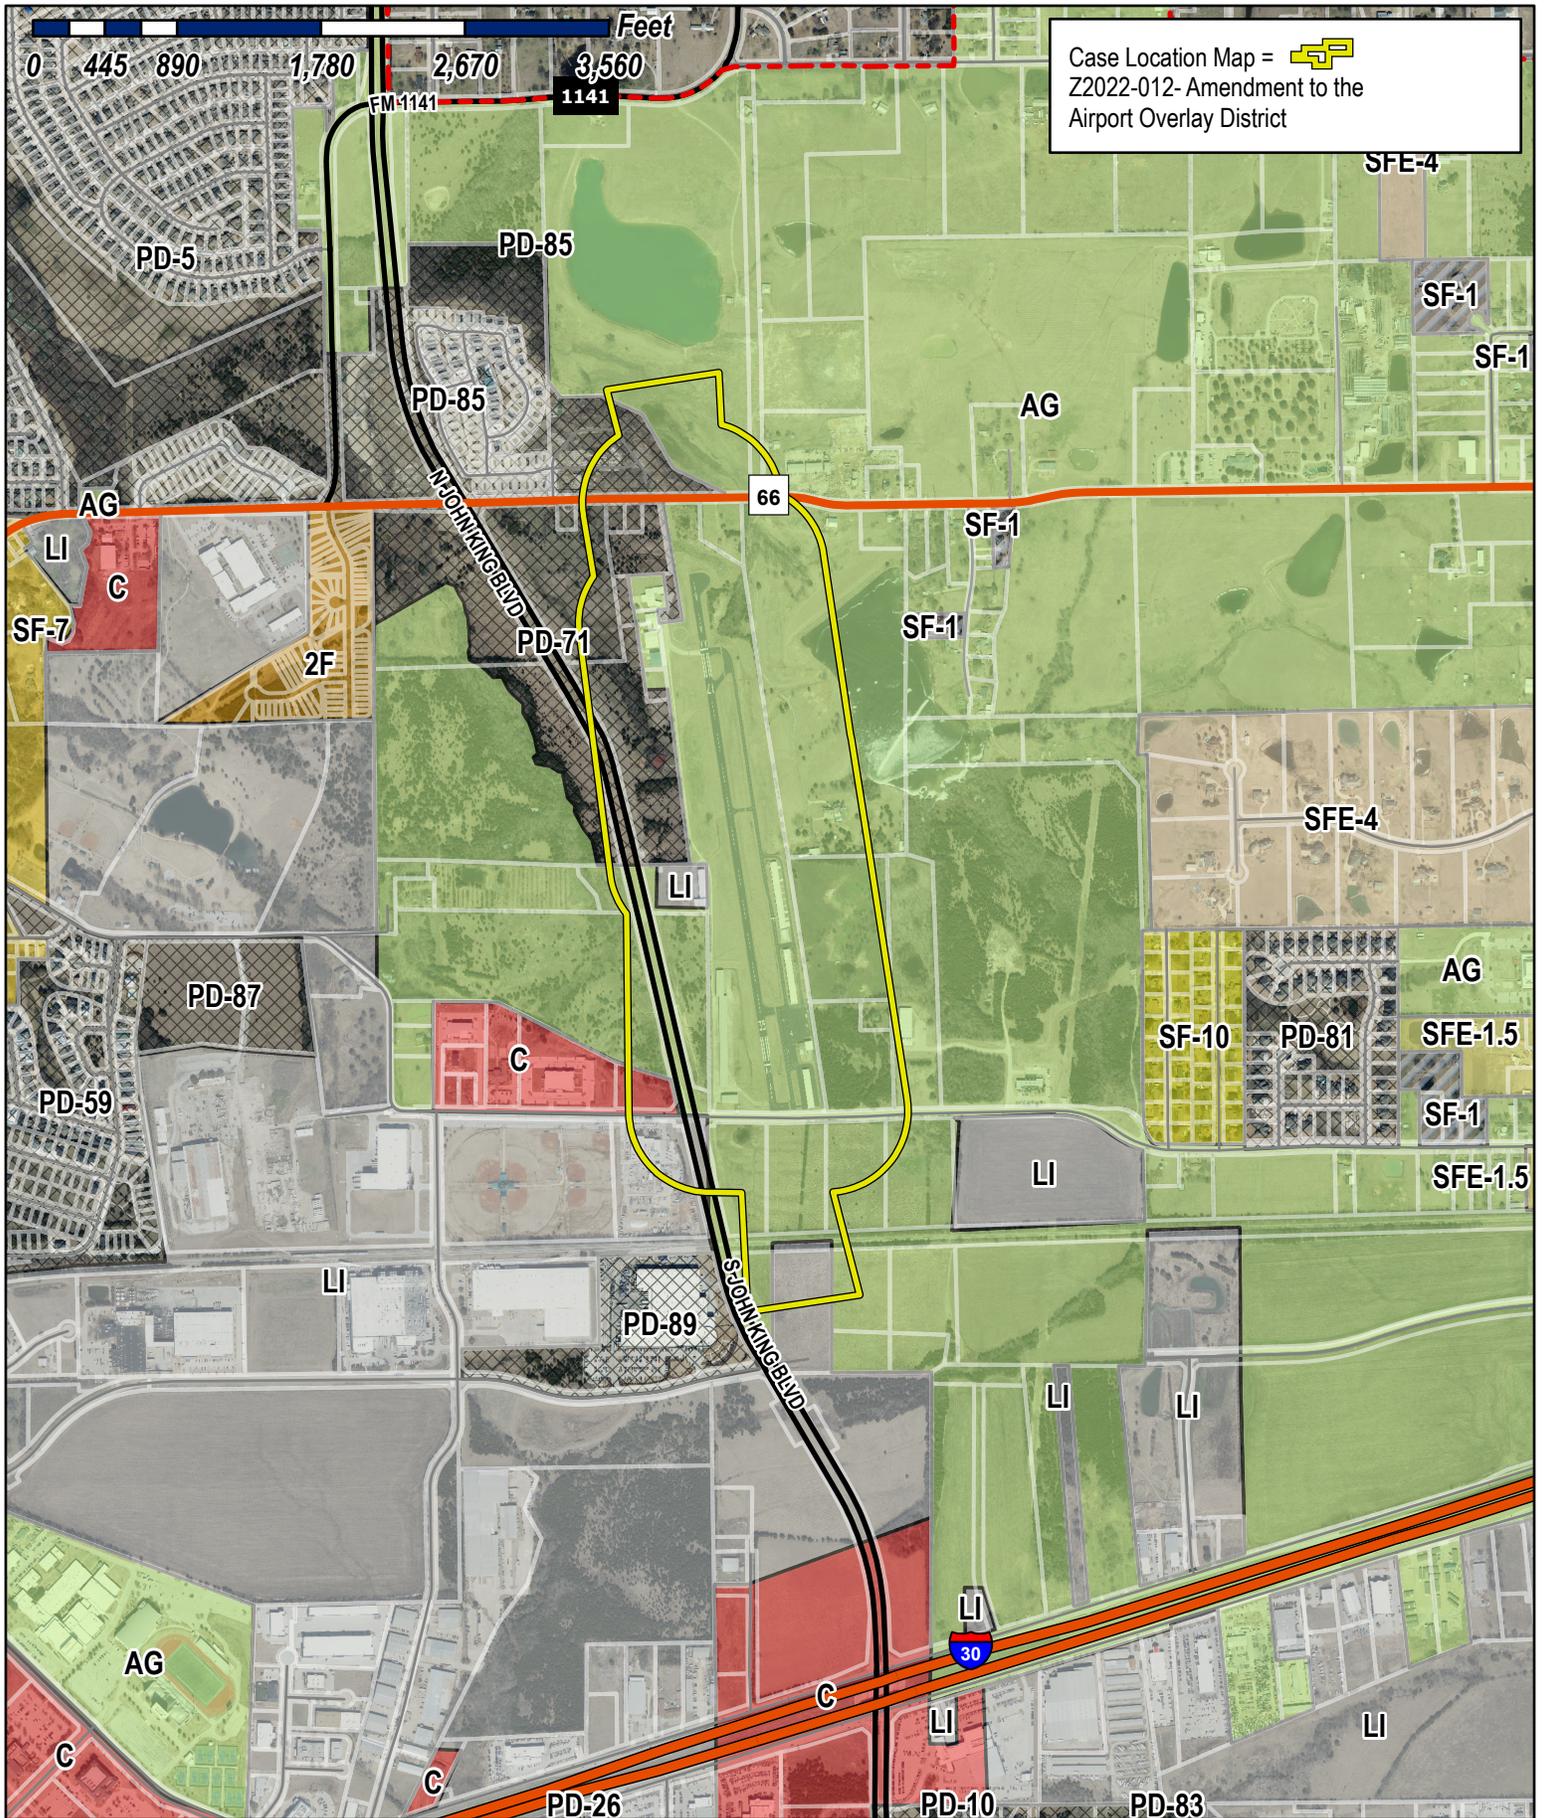

**SUBJECT:** Z2022-012; *Amendment to Article 05, District Development Standards, of the Unified Development Code (UDC) for an Airport Overlay (AP OV) District*

---

In response to a recommendation by the Airport Subcommittee, staff created the framework for an Airport Overlay (AP OV) District in 2014. This document was prepared in accordance with Chapter 241, *Municipal and County Zoning Authority Around Airports*, of the Texas Local Government Code, which enables municipalities to draft land use restrictions for properties adjacent to airports -- *which are used in the interest of the general public* -- to prevent the creation of an airport hazard (§214.012). The City Council reviewed this text amendment on September 15, 2014 after being unanimously recommended for approval by the Airport Zoning Commission (*i.e. the Planning and Zoning Commission*) on September 9, 2014. Ultimately, the City Council chose not to act on the text amendment (*Case No. Z2014-022*) citing that "... after further discussion with the Airport Subcommittee, they [*the Airport Subcommittee*] are comfortable with recommending that the City Council leave the zoning 'as is' at this time ..." (*see the excerpt from the minutes from the September 15, 2014 City Council meeting in the attached packet*).

More recently, the City has seen an increase in air traffic at the Ralph Hall Municipal Airport and the development of vacant land in and around the airport. In working with TXDOT Aviation and the City's Airport Consultants -- *Garver USA and the Solco, Group* -- to address concerns with development in the area, the idea of an Airport Overlay (AP OV) District was revisited as a way to: [1] protect the City's grant assurances and [2] to prevent inconsistent development from being approved around the airport. Based on this, staff has revised the 2014 Airport Overlay (AP OV) District document to ensure that it meets all the current standards of TXDOT Aviation and the Texas Local Government Code. Garver USA has also reviewed and helped staff revise the document to ensure compliance. Staff has sent the revised document to TXDOT Aviation for review and is awaiting comment [*but should have approval prior to the adoption date of this case*]. In accordance, with Section 02.04(B) of Article 11, *Development Applications and Review Procedures*, of the Unified Development Code (UDC), staff is bringing the proposed amendment forward to the Planning and Zoning Commission (*i.e. the Airport Zoning Commission*) for a recommendation to the City Council.

Staff has sent out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 02.03(A)(3) of Article 11, *Development Applications and Review Procedures*, of the Unified Development Code (UDC). In addition, on February 25, 2022 staff sent out property owner notifications to the 28 properties that could be affected by the proposed Airport Overlay (AP OV) District. This was done in accordance with the procedures and requirements of the Texas Local Government Code. Should the Planning and Zoning Commission have any questions staff will be available at the meeting on March 15, 2022.

Councilmember Milder made a motion to approve MIS2014-013. Councilmember White seconded the motion, which passed by a vote of 5 ayes with 2 absent (Daniels and Lewis).

3. MIS2014-014 - Discuss and consider a miscellaneous request by Tim Spiars of Spiars Engineering on behalf of Master Developers SNB LLC for the approval of a variance to the alley requirements stipulated by Planned Development District 41 (PD-41) [Ordinance No. 01-27] and Section 2.11 of the Standards of Design Manual, for a 12.45-acre subdivision of land identified as the North Shore Addition, being a portion of the Preserve preliminary plat, zoned Planned Development District 41 (PD- 41) for single family residential land uses, generally located on the south side of East Fork Drive, and take any action necessary.

Planning Director Robert LaCroix provided background information related to this agenda item. Mr. Spiars of Spiars Engineering then came forth and briefly addressed the city council. Councilmember White made a motion to approve MIS2014-014. Councilmember Milder seconded the motion, which passed by a vote of 5 ayes with 2 absent (Daniels and Lewis).

4. Z2014-022 – Discuss and consider approval of an ordinance for a City initiated zoning request for the approval of a text amendment to Article V, District Development Standards, of the Unified Development Code [Ordinance No. 04-38] for the purpose of creating and implementing an Airport Overlay (AP OV) District, which will be applicable for the Ralph M. Hall/Rockwall Municipal Airport property, and for all properties located within 500-feet of the airport property and/or located within the Airport’s Runway Protection Zones as defined by AC150/5300-13A, Airport Design, of the FAA standards, and take any action necessary. (1st Reading)

Planning Director Robert LaCroix provided brief background information related to this item, indicating that a public hearing on this issue was held at the last, regular city council meeting. Mayor Sweet indicated that Mayor Pro Tem Pruitt, Councilmember White and Councilmember Townsend are the council members that currently sit on the council’s Airport Subcommittee, and, following discussions had at the last council meeting, they were asked to further evaluate this matter. Mayor Pro Tem Pruitt indicated that, after further discussions with the Airport Subcommittee, they are comfortable with recommending that the council leave the zoning ‘as is’ at this time. Therefore, no action will be taken by the city council to make any modifications to the zoning at this time.

JoAnn Athey

P.O. Box 219  
Lavon, TX 75166

Mrs. Athey came forth and asked if hangars can be built on the land surrounding the airport. Staff clarified that the FAA is the authority that approves or disapproves these sorts of requests; however, “thru the fence” agreements are not allowed at the Rockwall Municipal Airport.

5. Discuss and consider approval of a resolution establishing an intent to apply for Preserve America Community Designation, supporting heritage tourism and historic preservation, and take any action necessary.

the entire property shall be subject to the requirements of [Section 06.02, General Overlay District Standards](#).

#### SUBSECTION 06.14: SH-276 OVERLAY (SH-276 OV) DISTRICT

- (A) **Purpose.** The intent of the SH-276 Overlay (SH-276 OV) District is to provide for consistent development of office, retail and commercial areas in concert with the most efficient and aesthetically pleasing appearance of the frontage, which serves as the initial impression to those visiting and passing through the City of Rockwall. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility will be reviewed through the Architectural Review Board (ARB). These development requirements shall apply to non-residential and multi-family land uses only, single-family land uses shall be excluded from these standards except as otherwise stated.
- (B) **Application and Boundaries.** The SH-276 Overlay (SH-276 OV) District includes the entirety of all properties which adjoin or are located within 500-feet of the current or future right-of-way of SH-276. The SH-276 Overlay (SH-276 OV) District extends from SH-205 east to the eastern city limits, as may be extended with future annexation(s). The standards and regulations set forth in the SH-276 Overlay (SH-276 OV) District are superimposed and shall supersede the standards and regulations of any underlying zoning district which are in conflict.
- (C) **Overlay District Standards.** If any portion of a property is situated within the boundaries of the SH-276 Overlay (SH-276 OV) District, the entire property shall be subject to the requirements of [Section 06.02, General Overlay District Standards](#).

#### SUBSECTION 06.15: AIRPORT OVERLAY (AP OV) DISTRICT

*Note: This document was prepared using FAA guidelines as of March 17, 2020 and using AC150/5300-14D.*

- (A) **Purpose.** The purpose of this district is to provide both airspace protection and land use compatibility with airport operations at the Ralph M. Hall/Rockwall Municipal Airport. This district, through establishment of airport zones and corresponding regulations, provides for independent review of development proposals in order to promote the public interest in safety, health and general welfare of the City of Rockwall. Therefore, the City of Rockwall deems it necessary to regulate uses of land located within or near the traffic patterns of the airport through regulation of height of structures and objects of natural growth, and through the regulation of land uses within the Airport Overlay (AP OV) District, and other FAA regulated areas associated with the airport (*i.e. areas relating to RSA/ROFA/ROFZ which extend off the airport property*).
- (B) **District Boundaries.** This *Airport Overlay (AP OV) District* is hereby established as the land area owned by the City of Rockwall and held as Ralph M. Hall/Rockwall Municipal Airport, the Airport Runway Protection Zone (RPZs), and a buffer area extending 500-feet from all property lines of the Ralph M. Hall/Rockwall Municipal Airport (*see Figure 29: Airport Overlay District Boundaries*).
- (C) **Definitions.** Unless otherwise stated in this section, the following words shall have the definitions prescribed to them below:

- (1) **Administrative Agency.** The appropriate person or office of the municipality that is responsible for the administration and enforcement of the regulations prescribed in this section of the Unified Development Code (UDC).
  - (2) **Airport.** The current and future boundaries of the Ralph Hall Municipal Airport located within the City of Rockwall, Texas.
  - (3) **Airport Hazard.** A structure or object of natural growth that obstructs the air space required for the taking off, landing, and flight of aircraft or that interferes with visual, radar, radio, or other systems for tracking, acquiring data relating to, monitoring, or controlling aircraft.
  - (4) **Airport Hazard Area.** An area of land or water on which an airport hazard could exist.
  - (5) **Applicant.** The person or persons making a request to the administrative agency.
  - (6) **Centerline.** The runway centerline identifies the center of the runway and provides alignment guidance during takeoff and landings. The centerline consists of a line of uniformly spaced stripes and gaps.
  - (7) **Non-Conforming Land Use or Non-Conforming Use.** Any land use of which is inconsistent with the provisions of these regulations and which is existing as of the effective date of the Airport Overlay (AP OV) District.
  - (8) **Person.** An individual, firm, partnership, corporation, company, association, joint stock association, or body politic and includes a trustee, receiver, assignee, administrator, executor, guardian, or other representative.
  - (9) **Runway.** A defined area on the airport prepared for the landing and taking off of aircraft along its length. The current length of the Rockwall Municipal Airport is 3,373-feet by 45-feet and the zoned dimensions are 3,373-feet by 60-feet.
  - (10) **Runway Safety Area (RSA).** The surface surrounding the runway prepared or suitable for reducing the risk of damage to airplanes in the event of an undershoot, overshoot, or excursion from the runway.
  - (11) **Structure.** An object constructed or installed by one (1) or more persons and includes but is not limited to a building, tower, smokestack, and overhead transmission line.
- (D) **Airport Zones.** In order to implement the intent of this ordinance, the Airport Overlay (AP OV) District hereby includes the following three (3) exhibits that depict the zones within the controlled area and shown on the official zoning map as depicted in [Figure 29: Airport Overlay District Boundaries](#):
- Airport Overlay (AP OV) District Boundaries (*see Figure 29: Airport Overlay District Boundaries*)
  - Development Zones within the Airport Overlay (AP OV) District (*see Figure 30: Development Zones within the Airport Overlay (AP OV) District*)
  - Airport Airspace Zones Boundaries (*see Figure 31: Airspace Zone Boundaries*)
- (E) **Permitted Uses.** All uses otherwise permitted by existing zoning ordinances within the boundaries of the AP OV District are permitted

within the district, except where there is a conflict between the AP OV District and the existing zoning ordinances. Where the provisions of the AP OV District are more restrictive, the provisions of the AP OV District shall govern.

(F) **Controlled Area.** The area within which airport land use compatibility controls may be instituted, as defined by *Section 241, Municipal and County Zoning Authority Around Airports*, of the *V.T.C.A., Texas Local Government Code*, shall be defined as the controlled area. The controlled area is located outside the Airport boundaries and within an area measured no farther than one and one-half (1½) statute miles from the centerline of the Ralph M. Hall/Rockwall Municipal Airport runway and lies no farther than five (5) statute miles from each end of the paved surface of the runway.

(G) **Airspace Zones.** *Airspace Zones* consist of all of the land area lying beneath the surfaces referenced in Section H, *Height Limitations*, below and in Title 14, Part 77.19. The following *Airspace Zones* are hereby established and set forth (see *Figures 26: Airspace Zones [right] & Figure 31: Airspace Zone Boundaries [below]*; reference Title 14, Part 77, FAR):

(1) **Primary Surface.** The *Primary Surface* is a surface that is longitudinally centered on the runway. It extends 200-feet beyond the end of each runway and 250-feet on either side of the centerline of the runway for a total width of 500-feet (i.e. a 250-foot side buffer of the runway centerline).

(2) **Approach Zone.** The *Approach Zone* is a fan shaped zone that is established at both ends of the runway for the purpose of landings and take-offs. The *Approach Zone* commences at the end of the *Primary Surface* (i.e. 200-feet beyond the end of the runway) and has a beginning width of 500-feet. It then extends uniformly along the continuation of the centerline of the runway to a width of 3,500-feet at a distance of 10,000-feet from the point of commencement, and a slope of 34:1 or one (1) foot in height for each 34-feet in horizontal distance [this is the land area that exists underneath the *Approach Surface*].

(3) **Transitional Zones.** The *Transitional Zones* are symmetrically located on either side of runway, and have variable widths. The *Transitional Zones* extend outward and upward commencing from the edge of the *Primary Surface* (i.e. 250-feet on either side of the centerline of the runway), and *Approach Surfaces*. The *Transitional Zones* extend upward and outward at slope of 7:1 or one (1) foot vertically for each seven (7) feet horizontally to the point where they intersect the surface of the *Horizontal Zone*. The *Transitional Zones* are established adjacent to the *Approach Zones* and extend their entire length. The *Transitional Zones* flare symmetrically with either side of the runway *Approach Zone* from the base of said zones and slope upward and outward at the rate of 7:1 or one (1) foot vertically for each seven (7) feet horizontally to the points where they intersect the surface of the *Horizontal Zone* and the *Conical Zone* [this is the land area that exists underneath the *Transitional Surface*].

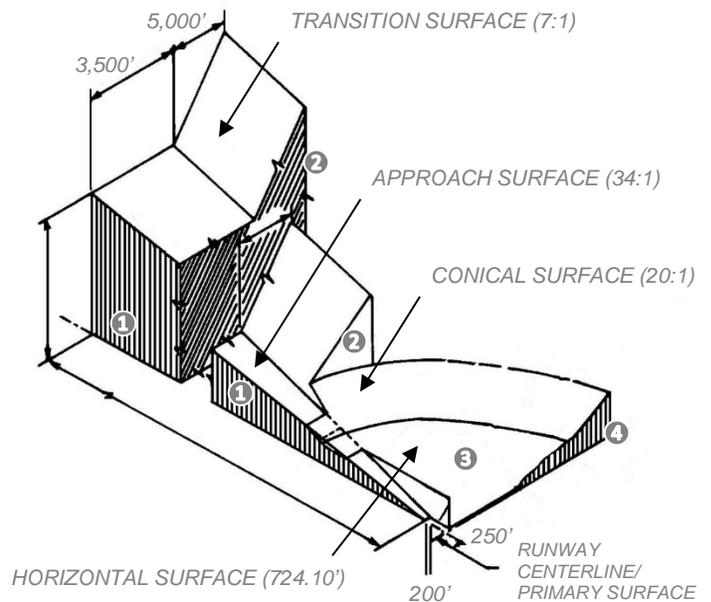

(4) **Horizontal Zone.** The *Horizontal Zone* consists of the land area within the perimeter of which is constructed by swinging arcs of 10,000-feet from the center of each *Primary Surface*, 200-feet beyond the centerline of each runway and connecting the adjacent arcs by lines of tangent to those arcs. The *Horizontal*

*Zone* does not include the *Approach Zone* and/or the *Transition Zone* [this is the land area that exists underneath the *Horizontal Surface*].

(5) **Conical Zone.** The *Conical Zone* consists of the land area that commences at the periphery of the *Horizontal Zone* and extends outward for a distance of 4,000-feet, at a 20:1 slope or one (1) foot in height for each 20-feet of horizontal distance. The *Conical Zone* does not include the *Approach Zone* and/or the *Transition Zone* [this is the land area that exists underneath the *Conical Surface*].

FIGURE 26: AIRSPACE ZONES

① : APPROACH ZONE; ② : TRANSITION ZONE; ③ : HORIZONTAL ZONE;  
④ : CONICAL ZONE

(H) **Height Limitations.** Except as otherwise provided in this ordinance, no structure or tree shall be erected, altered, allowed to grow, or be maintained in any zone created above to a height in excess of the limits established herein for each of the imaginary surfaces created by the airspace zones (*Title 14 CFR, Section 77.19, Civil Airport Imaginary Surfaces*), which are defined as follows:

(1) **Approach Surface.** The *Approach Surface* is the surface that is created by the *Approach Zone*, and is required to prevent existing or proposed objects, objects of natural growth or terrain from extending into the area required for an aircraft's navigable airspace. The *Approach Surface* is the same starting width as the *Primary Surface* (i.e. 500-feet), and has a slope of 34:1 or one (1) foot in height for each 34-feet in horizontal distance commencing at the *Primary Surface* and extending to a point 10,000-feet from the point of beginning and widening to a width of 3,500-feet.

(2) **Transitional Surface.** The *Transitional Surface* is the surface that is created by the *Transitional Zone*, and is required to prevent existing or proposed objects, objects of natural growth or terrain from extending in the area required for an aircraft's navigable airspace. The *Transitional Surface* is the surface that extends outward and upward, at right angles to the runway

centerline (at any point 250-foot normal to and at the elevation of the centerline) and extended runway centerline (i.e. 200-foot beyond the end of the runway), from the sides of the Primary Surface and the Approach Surfaces to a point of 150-foot above the airport elevation (i.e. 724.10-feet) [the airport elevation is 574.10-feet above mean sea level]. The Transitional Surface has a slope of 7:1 or one (1) foot in height for each seven (7) feet in horizontal distance.

- (3) Horizontal Surface. The Horizontal Surface is the surface that is created by the Horizontal Zone, and is required to prevent existing or proposed objects, objects of natural growth or terrain from extending into the area required for an aircraft's navigable airspace. The Horizontal Surface is the horizontal plane created by swinging arcs with a 10,000-foot radius centered on the extended runway centerline where it crosses the Primary Surface, and is situated 150-foot above the established airport elevation (i.e. 724-feet) [the airport elevation is 574-feet above mean sea level], which coincides with the extent of the Horizontal Zone.
- (4) Conical Surface. The Conical Surface is the surface that is created by the Conical Zone, and is required to prevent existing or proposed objects, objects of natural growth or terrain from extending into the area required for an aircraft's navigable airspace. The Conical Surface extends upward and outward from the outer limits or the periphery of the Horizontal Surface at a slope of 20:1 or one (1) foot in height for each 20-feet of horizontal distance for a horizontal distance of 4,000-feet. The Conical Surface extends to a height of 350-feet above the airport's elevation (i.e. 924-feet) [the airport elevation is 574-feet above mean sea level].

[Where an area is covered by more than one (1) height limitation, the more restrictive limitation shall prevail. Nothing in this ordinance shall be construed as prohibiting the growth, construction or maintenance of any tree or structure to a height up to 45-feet above the surface of the land, except in the Approach Zones.]

- (I) Airport Hazard Area. The Airport Hazard Area is an area of land or water on which an airport hazard could exist. An airport hazard is defined as a structure or object of natural growth that obstructs the airspace required for the taking off, landing, and flight of aircraft or that interferes with visual, radar, radio, or other systems for tracking, acquiring data relating to, monitoring, or controlling aircraft. For the purposes of this ordinance, the Airport Hazard Area is defined as the entirety of all the imaginary surfaces stated in Section H, Height Limitations, of this ordinance (see Figure 31: Airspace Zone Boundaries).

(J) Land Use Compatibility.

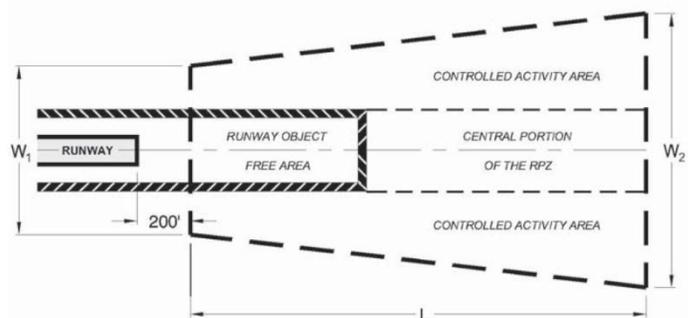

- (1) Intent. The Airport Overlay (AP OV) District is intended to overlay any other zoning district's regulations comprising or pertaining to areas to which it is applicable, to prevent undue negative interaction between aviation activities associated with the airport and the surrounding community. It is intended to protect the lives and property of the users of the airport and of the occupants of the land in its general vicinity by restricting places of public assembly within this Airport Overlay (AP OV) District. The overlay is intended to preserve the utility of the airport and the public investment therein.

- (2) Development Zones. The Development Zones are hereby established within the Airport Overlay (AP OV) District. These zones are depicted in Figure 30: Development Zones within the Airport Overlay (AP OV) District of this ordinance. The Development Zones are defined and described as follows:

- (a) Airport Runway Protection Zones (RPZs). The Airport Runway Protection Zones are hereby established as the trapezoidal areas centered about the extended runway centerline. The RPZ dimensions for a particular runway end are a function of the type of aircraft and approach/departure visibility minimum associated with the runway end. The RPZs for the Ralph M. Hall/Rockwall Municipal Airport commence 200-feet from the edge of pavement at the end of each runway, beginning with a base of 500-feet (i.e. inner width or  $W_1$ ), extending 1,000-feet along the runway centerline (i.e. length or  $L$ ), and terminating at the outboard corners of a 700-foot line segment (i.e. outer width or  $W_2$ ) [see Figure 27: Airport Runway Protection Zone (RPZ)], creating a 13.770-acre trapezoidal area, which is intended to service Aircraft Approach/Departure Categories 'A' & 'B' (i.e. small single and multi-engine planes). Contained within the two (2) trapezoidal areas that make up the RPZs are the Controlled Activity Area and a portion of the ROFA (Object Free Area). These areas are defined as follows:

- (1) The Runway Object Free Area (ROFA). The Runway Object Free Area (ROFA) is centered on the runway centerline. The ROFA clearing standard requires clearing the ROFA of above ground objects protruding above the runway safety area edge elevation. Except where precluded by other clearing standards, it is acceptable to place objects that need to be located in the ROFA for air navigation or aircraft ground maneuvering purposes to protrude above the nearest point of the runway safety area, and to taxi and hold aircraft in the ROFA. To the extent practicable, objects in the ROFA should meet the same frangibility requirements as the runway safety area. Objects non-essential for air navigation or aircraft ground maneuvering purposes are not permitted to be placed in the ROFA. This includes parked airplanes and agricultural operations.

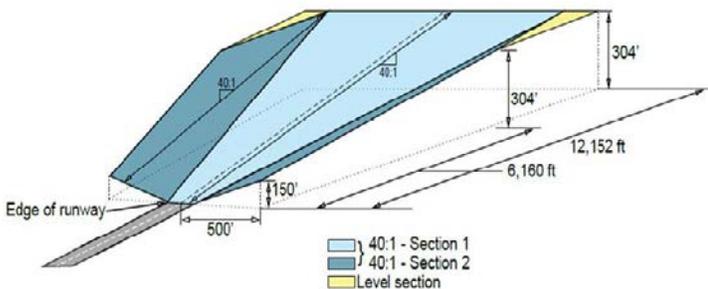

FIGURE 27: AIRPORT RUNWAY PROTECTION ZONE (RPZ)

- (2) The Controlled Activity Area. The Controlled Activity Area is the portion of the RPZ beyond the boundaries of the ROFA.
- (b) Municipal Airport Zone. The Municipal Airport Zone is hereby established as the real property boundaries of the Ralph M. Hall/Rockwall Municipal Airport. This zone contains the majority of all airport related land uses and structures.
- (c) Airport Influence Zone. The Airport Influence Zone contains all areas within the 500-foot buffer excluding the Municipal Airport Zone and the RPZ.
- (d) Height Restriction Zone. The Height Restriction Zone extends to the edge of the Conical Zone and is subject only to the requirements stipulated in Section H, Height Limitations, of this ordinance (see Figure 29: Airport Overlay District Boundaries).
- (e) Departure Surface. The Departure Surface starts at the end of the runway end elevation and matches the width of the usable runway. From the edge of the usable runway, the surface rises upward to 150-feet above the runway end elevation at a point 500-feet on either side of the runway centerline. The new surface rises upward along the extended centerline at a slope of 40:1 or one (1) foot in height for each 40-feet in horizontal distance until reaching 304-feet above the runway end elevation (i.e. 6,160-feet across at its outer width at the runway end elevation). Upon reaching the 304-foot marker, the surface levels out until the end of the departure surface at 12,152-feet. The area splays outward at a rate of 15-degrees relative to the extended runway centerline (see Figure 28: Departure Surface).

(d) Height Restriction Zone. Properties within the Height Restriction Zone, outside of the Airport Overlay (AP OV District), are subject to the use requirements stipulated by the underlying zoning depicted on the official zoning map of the City of Rockwall (see Figure 29: Airport Overlay District Boundaries).

(4) Additional Use Restrictions.

- (a) Notwithstanding any other provision of this ordinance, no use may be made of land within any zone established by this ordinance in such a manner as to (1) create electrical interference with radio communication between the Airport and aircraft, (2) make it difficult for flyers to distinguish between airport lights and others, (3) result in glare in the eyes of flyers using the Airport, (4) impair visibility in the vicinity of the Airport or otherwise endanger the landing, taking-off, or maneuvering of aircraft.

(5) Legal Non-Conforming Land Uses.

- (a) Regulations Not Retroactive. The regulations prescribed by this ordinance shall not be construed to require the removal, lowering, changes and/or alteration of any structure (e.g. building) or object of natural growth (e.g. tree) not conforming to the regulations as of the effective date of this ordinance, or otherwise interfere with the continuance of any legal non-conforming use. Nothing herein contained shall require any change in the construction, alteration, or intended use of any structure or property, for which the construction or alteration of said structure or property was commenced prior to the effective date of this ordinance.
- (b) Hazard Marking and Lighting. Notwithstanding the preceding provision of this section, the owner of any non-conforming structure or tree is hereby required to permit the installation, operation, and maintenance thereon of such markers and lights as shall be deemed necessary by the City Manager or his designee to indicate to the operators of aircraft in the vicinity of the Airport, the presence of such airport hazards. Markers and lighting necessary for existing non-conforming structures or trees shall be operated and maintained at the expense of the

property owner. Markers and lighting necessary for future non-conforming structures or trees, approved per the requirements of this ordinance, shall be installed, operated, and maintained at the expense of the property owner.

(K) Development Standards.(1) Architectural Standards.

- (a) All buildings within the Municipal Airport Zone shall be designed by a licensed, professional architect and all drawings submitted for approval and/or permits shall bear the architect's seal of the State of Texas.
- (b) All buildings intended for airport related use such as hangars, maintenance facilities, offices and facilities for airport management, terminal buildings and other similar types of uses with exterior walls visible from a public right-of-way shall consist of 90% masonry materials, excluding doors and windows as defined in Article 13, Definitions, of the Unified Development Code (UDC) [i.e. "Masonry"]. Building exterior walls not visible from the public rights-of-way may be earth-tone colored, pre-finished aluminum, steel or masonry. Materials that are unfinished are prohibited.

*[All other buildings not related to airport uses within the Airport Overlay (AP OV) District shall conform to building materials requirements as stipulated within the Unified Development Code (UDC).]*

In addition, all buildings intended for airport related uses shall adhere to the following standards:

- (1) A Material Sample Board indicating all exterior materials and colors must be submitted to the Planning and Zoning Commission, upon a recommendation by the Architecture Review Board (ARB), for approval prior to the commencement of construction. All sides of the exterior building shall be architecturally integrated and similar in nature with respect to the design and aesthetic.
- (2) All roofs shall be metal. If galvanized metal is being proposed, it shall be limited to a roofing material only.
- (3) Building glazing or reflectors shall not be incorporated into a building if it will cause a glare or reflection that could interfere with airport operations or ground circulation.
- (4) All windows or large glass elements shall be oriented and/or treated to avoid reflections that could cause a distraction to air traffic that is landing or taking off.
- (5) All new construction shall be of a high quality and utilize materials and finishes that will maintain their appearance with relatively low maintenance.
- (6) All steel used for roofing or siding shall be a minimum of 28-gauge steel, with a factory finish in a color that has been approved by the Planning and Zoning Commission, and which has been warranted by the

manufacturer for a minimum of 20 years with regards to the durability and color fastness.

- (7) All floors must be constructed of a minimum of four (4) inches thick concrete and reinforced with steel to a standard approved by the Engineering and Building Inspections Departments.
- (8) All hangars facing a taxiway (*i.e. a path connecting runways with ramps, hangars, terminals, etc.*) shall have a hangar door that has a minimum opening of 55-feet in width by 16-feet in height (*i.e. 55' [w] x 16' [h]*). Buildings facing a taxilane (*i.e. a path connecting the taxiways to aircraft parking positions*) shall have a hangar door that has a minimum opening of 41-feet, 6-inches in width by 12-feet in height (*i.e. 41'-6" [w] x 12' [h]*). Approved swing out, overhead or sliding doors may also be used. All pedestrian doors must be of a pre-finished metal construction positioned in metal doorjamb. No wood doorjamb will be permitted on exterior doors.
- (9) Mechanical equipment shall be screened so as not to be visible from the public and private rights-of-way. All screens, whether situated on the ground or on the building, shall be constructed to be aesthetically integrated into the design of the building. The rooftops of all buildings shall be free of any mechanical equipment unless completely screened from all points of view along all public rights-of-way by an architectural parapet. All screening materials shall be compatible with the material used on the building.

(2) Landscaping.

- (a) The requirements contained within Article 05, *District Development Standards*, and Article 08, *Landscape and Fence Standards*, of the Unified Development Code (UDC), whichever would be applicable to the subject property independent of the AP OV District, shall apply to a property located within the overlay (*i.e. the landscaping percentage of the underlying zoning district would apply*); however, landscaping plans in the AP OV District should be designed with the consideration of aircraft movement and should not be designed using trees and/or plants that have the propensity to attract hazardous wildlife. In cases where aircraft requirements would conflict with certain landscaping elements, the Planning and Zoning Commission may approve requirements that deviate from those stipulated by the Unified Development Code (UDC) if, in its opinion, such alternate requirements provide for a safer and more efficient use of the property. In addition, the Planning and Zoning Commission may request that a qualified Airport Wildlife Biologist review landscaping plans in sensitive areas and provide recommendations for planting placement and alternatives.
- (3) Variances. The City Council may, upon request from the applicant, grant a variance to the any of the provisions contained within Section K.6, *Architectural Standards*, and Section K.7, *Landscaping*, of this ordinance where unique or

extraordinary conditions exist or where strict adherence to the provisions of this ordinance would create a hardship. Approval of any variance to any provision of this section shall require City Council approval by a three-quarter (¾) majority vote of the City Council members present with a minimum of four (4) affirmative votes.

(L) Administrative Procedures and Permits.

- (1) Notice of Proposed Construction or Alteration (*i.e. FAA Form 7460-1*). Any tree or structure (*new or alteration of an existing structure*) proposed within the AP OV District or 20,000-feet of the runway shall require an applicant to file a *Notice of Proposed Construction or Alteration* form (*i.e. FAA Form 7460-1*) with the Federal Aviation Administration (FAA) to determine if the tree or structure creates a hazard to air navigation or will result in an inefficient use of airspace.
- (2) Future Use. Except as specifically provided herein, no change shall be made in the use of land and no structure or tree shall be erected, altered, planted or otherwise established in any zone hereby created unless a permit therefore shall have been applied for and granted. Each application for a permit shall indicate the purpose for which the permit is desired, with sufficient particularity to permit it to be determined whether the resulting use, structure or tree would conform to the regulations herein prescribed. If such determination is in the affirmative, the permit shall be granted.
  - (a) In the area lying within the limits of the *Horizontal Zone* and *Conical Zone*, no permit -- *except as required by Section (L)(1) above* -- shall be required for any tree or structure less than 75-feet of vertical height above the ground as measured at grade, except when because of terrain, land contour or topographic features such tree or structure would extend above the height limits prescribed for such zone.
  - (b) In the areas lying within the limits of the *Approach Zones* but at the horizontal distance of not less than 4,000-feet from each end of the runways, no permit -- *except as required by Section (L)(1) above* -- shall be required for any tree or structure less than 75-feet of vertical height above the ground as measured at grade, except when because of terrain, land contour or topographic features such tree or structure would extend above the height limit prescribed for the *Approach Zone*.
  - (c) In the areas lying within the limits of the *Transitional Zones* ending at the perimeter of the *Horizontal Zone*, no permit -- *except as required by Section (L)(1) above* -- shall be required for any tree or structure less than 75-feet of vertical height above the ground as measured at grade, except when such tree or structure because of terrain, land-contour or topographic features would extend above the height limit prescribed for such *Transitional Zones*.
- (3) Exceptions/Variances/Non-Conforming Uses. Nothing contained in any of the foregoing exceptions shall be construed as permitting or intending to permit any construction, alteration or growth of any structure or tree in excess of any of the height

limits established by this Ordinance except as set forth in Section H, *Height Limitations*.

- (a) *Existing Uses*. No permit shall be granted that would allow the establishment or creation of an airport hazard or permit a non-conforming use, structure, or tree to be made or become higher, or become a greater hazard to air navigation, than it was on the effective date of this Ordinance or any amendments thereto or than it is when the application for a permit is made. Except as indicated, all applications for such a permit shall be granted.
- (b) *Non-Conforming Uses Abandoned or Destroyed*. Whenever the Board of Adjustment (BOA) determines that a non-conforming structure or use has been abandoned for a period of six (6) months, or more than eighty (80%) percent of a non-conforming structure or tree has been torn down, physically deteriorated, or decayed, no permit shall be granted that would allow such structure or tree to exceed the applicable height limit or otherwise deviate from the zoning regulations.
- (c) *Variances*. Any person desiring to erect or increase the height of any structure, or permit the growth of any tree, or use of their property, not in accordance with the regulations prescribed in this ordinance, may apply to the Board of Adjustment (BOA) for a variance from such regulations. Such variances shall be allowed where it is duly found that a literal application or enforcement of the regulation would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest but will do substantial justice to be in accordance with the spirit and intent of this Ordinance.
- (d) *Hazard Marking and Lighting*. Any permit or variance granted may, if such action is deemed advisable to effectuate the purpose of this Ordinance and be reasonable in the circumstances, be so conditioned as to require the owner of the structure or tree in question to permit the owners at their own expense, to install, operate, and maintain thereon such markers and lights as may be necessary to indicate to flyers the presence of an airport hazard.

(M) *Enforcement*. It shall be the duty of the City Manager or his designee to administer and enforce the regulations prescribed herein. Application of permits shall be made to the City Manager or his designee upon a form published for that purpose. Applications required by this ordinance to be submitted to the City Manager or his designee shall be promptly considered and granted or denied. Applications for variances shall be made to the Board of Adjustment (BOA) by first filing said application for variance with the City Manager or his designee who shall forthwith transmit said application to the Board of Adjustment for determination.

~~(A)(N)~~ *Appeals*. Requests for appeals to administrative decisions by the City Manager or his designee concerning the enforcement of this ordinance shall be directed to the Board of Adjustment (BOA) in compliance with Section 04, Board of Adjustments, of Article 02, Authority and Administrative Procedures, of the Unified Development Code (UDC).

**SUBSECTION 06.1516: LAKE RAY HUBBARD TAKELINE OVERLAY (TL OV) DISTRICT**

- (A) **Purpose.** The purpose of the *Lake Ray Hubbard Takeline Overlay (TL OV) District* is to permit the development of property along the shoreline of Lake Ray Hubbard under certain regulatory conditions governing permitted uses and development standards, setting forth the procedures for the development of said property, and establishing an appeal process for the development standards of the district. This zoning district has its basis in and is intended serve as an implementation tool for the Lake Ray Hubbard Master Plan (adopted by the City of Dallas), the Lake Ray Hubbard Interlocal Agreement as approved by those municipalities comprising the *Lake Cities Coalition* (i.e. *Garland, Rockwall, and Rowlett*) and the City of Dallas, and the OURHometown Vision 2040 Comprehensive Plan. The adoption of this zoning district is intended to provide a means for the protection of water quality
- (B) **Boundaries.** The Lake Ray Hubbard Takeline (TL OV) District includes all property that is located between the City of Dallas *Takeline* as shown on the boundary map for Lake Ray Hubbard (i.e. *File 612D-1 on file in the City of Dallas Records Vault and depicted below in Figure 26, Lake Ray Hubbard Takeline [TL OV] District Map*) and the meandering of the contour line 435.5-foot sea level elevation. In addition, *Figure 27: Elevation Contours*, shows the elevation zones used to delineate where certain land uses are permitted.

FIGURE 2733: ELEVATION CONTOUR ZONES

- (C) **Applicability.**
  - (1) **Applicable Lots.** The standards set forth within Subsection 06.15, *Lake Ray Hubbard Takeline Overlay (TL OV) District*, shall apply only to those lots within the takeline that are zoned and used for detached, single-family residential land uses, and that either have a minimum lot width of 45-feet when measured at the front building line or a minimum width of 35-feet at the front building line when located on a curved street or cul-de-sac that are eligible to lease. The properties eligible to lease the takeline area are depicted in *Figure 26: Lake Ray Hubbard Takeline Overlay (TL OV) District Map* above.

- (2) Exceptions for Lots Not Meeting the Applicability Standards. The City Council shall have the authority to consider special exceptions to the eligibility standards set forth within this section that apply to those lots within the Lake Ray Hubbard Takeline Overlay (TL OV) District that are zoned and used for detached, attached, or zero-lot-line single-family residential land uses and meet the minimum lot width requirements as prescribed in [Subsection 06.15\(C\)\(1\)](#) above.
- (D) Definitions. The terms used in this section shall be as defined in this Unified Development Code (UDC), the Lake Ray Hubbard Interlocal Agreement, and the sublease agreements prepared by the City of Rockwall. For specific land use definitions refer to [Subsection \(J\), Specifications for Permitted Land Uses](#). In addition, the following terms shall be defined as follows:
- (1) Catwalk. The narrow walkway of a dock providing people access to moored watercraft.
  - (2) Centerline. An established line that is equidistant from the surface or sides of something (e.g. *parcel boundaries*).
  - (3) Cleat. A metal fitting with two (2) projecting pieces used to wrap a rope around to secure a watercraft in position.
  - (4) Dredging. The process of deepening a waterway for the safe and efficient movement of watercraft by the removal of dirt either by digging or by suction.
  - (5) Habitable Structure. A structure fit for human habitation usually containing amenities (e.g. *fireplace, furniture, plumbing, bathing facilities, and cooking facilities*). Structures allowed by this section shall not be habitable structures and may not contain such amenities.
  - (6) Lake. Refers to Lake Ray Hubbard.
  - (7) Lake Area. The City of Dallas property, known as Lake Ray Hubbard, that is normally submerged by the lake at a normal lake pool elevation (i.e. *property at or below an elevation of 435.5-foot mean sea level*).
  - (8) Leased Area. Means the take area that is within the corporate limits of the City of Rockwall, or where the takeline is directly adjacent to the corporate limits of the City of Rockwall.
  - (9) Lift. A temporary means of elevating a watercraft out of the water by use of a hoist.
  - (10) Locker Box. A secured chest fixed onto a dock used for storage of watercraft equipment.
  - (11) Moor. Securing a watercraft to a fixed object such as a fixed cleat on a seawall while the watercraft is still in the water.
  - (12) Mooring. A place where a watercraft can be tied up and secured while in the water (e.g. *a slip*) for not more than 156-consecutive hours.
  - (13) Power Source Station. Used as a power supply for lighting a dock just below watercraft level.
  - (14) Shoreline. Refers to the line along the shore of the lake, established by the normal lake pool elevations (i.e. *435.5-foot mean sea level*).
- (15) Slip. A watercraft's berth between two (2) piers or between finger piers.
  - (16) Take or Takeline Area. Refers to the land owned by Dallas between the takeline and the normal lake pool elevations (i.e. *435.5-foot mean sea level*).
  - (17) Treated Wood. Wood treated by the impregnation or application of chemical solutions or chemical mixtures for the purpose of retarding or preventing deterioration or destruction cause by insects, fungi, bacteria, or other wood destroying organisms.
  - (18) View Clear Zone. The area within the view preservation angle where no new structures or plantings shall exceed six (6) feet above the existing grade to maintain neighboring views.
  - (19) View Corridor. A sight passage recognized as holding an intangible asset for a property owner and for a community due to the unique visual qualities of distant terrain, woodlands, wetlands, grasslands, skylines, and manmade lakes expressed through a view preservation angle from either a generally recognized center point or various center points along a road corridor or public view area ([see Figure 28: Visual Measurements for View Corridors of Subsection \(E\)](#)).
  - (20) View Preservation Angle. The angle determined as the line extending from the center point -- or 30-foot point depending on lot size -- along the quarter distance line of the leased area extending back toward the opposite corner where the takeline area crosses the lease area's side yard ([see Figure 28: Visual Measurements for View Corridors](#)).
  - (21) Watercraft (or Boat). A craft for water transport. Examples of watercrafts are as follows:
    - (a) Motorized Boat. A boat propelled by an internal combustion engine.
    - (b) Sail Boat. A boat with a mast and sail propelled by the wind.
- (E) Visual Measurements for View Corridors.
- (1) View Corridors. View clear zones are established to protect a property owner's views of the lake and to maintain the aesthetic value of the lake's shoreline. The view clear zones for the takeline areas are established by the shoreline frontage of the takeline lease area. This measurement is determined by projecting the lease areas side yards to the normal pool elevation (i.e. *435.5-foot mean sea level*), and connecting these two (2) points in a straight line ([see Figure 28: Visual Measurements for View Corridors](#)). Based on this linear measurement, the view clear zones are determined by the following:
    - (a) Lots That Have Less Than 100-Feet of Shoreline Frontage. The view corridor for lots that have less than 100-feet of shoreline frontage is defined by the view preservation angle determined as the quarter distance (i.e. 25%) center point from the shoreline frontage line along the centerline of the leasing property owner's side yard with the angle running from the quarter distance center point to the opposite corners where the takeline

area crosses the lease area's side yard. Those areas that fall inside of the view clear zones will be restricted from any type of new improvements or plantings exceeding six (6) feet in height with the exception of boat-related uses, which will be allowed by an administrative exception in accordance with [Subsection \(F\)\(2\)\(d\)](#).

- (b) Lots That Have More 100-Foot or More Shoreline Frontage. The view corridor for lots that have 100-foot or more shoreline frontage are defined by the view preservation angle determined as the quarter distance (i.e. 25%) line projected from the shoreline frontage line extending from the leasing property owner's side yard 30-foot along the quarter distance line and running from this point to the opposite corners where the takeline area crosses the lease area's side yard, and in a straight line from the 30-foot point on the quarter distance line to the shoreline frontage line. Those areas that fall inside of the view clear zones will be restricted from any type of new improvements or plantings exceeding six (6) feet in height with the exception of boat-related uses, which will be allowed by an administrative exception in accordance with [Subsection \(F\)\(2\)\(d\)](#).

- (1) Number of Permitted Structures. The following is the maximum number of structures that shall be permitted in each elevation zone (NOTE: in this case a structure is defined as any of the permitted uses specified in [Subsection \(J\), Specifications for Permitted Land Uses](#) that exceeds six [6] feet in height):

the entire property shall be subject to the requirements of [Section 06.02, General Overlay District Standards](#).

#### SUBSECTION 06.14: SH-276 OVERLAY (SH-276 OV) DISTRICT

- (A) **Purpose.** The intent of the SH-276 Overlay (SH-276 OV) District is to provide for consistent development of office, retail and commercial areas in concert with the most efficient and aesthetically pleasing appearance of the frontage, which serves as the initial impression to those visiting and passing through the City of Rockwall. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility will be reviewed through the Architectural Review Board (ARB). These development requirements shall apply to non-residential and multi-family land uses only, single-family land uses shall be excluded from these standards except as otherwise stated.
- (B) **Application and Boundaries.** The SH-276 Overlay (SH-276 OV) District includes the entirety of all properties which adjoin or are located within 500-feet of the current or future right-of-way of SH-276. The SH-276 Overlay (SH-276 OV) District extends from SH-205 east to the eastern city limits, as may be extended with future annexation(s). The standards and regulations set forth in the SH-276 Overlay (SH-276 OV) District are superimposed and shall supersede the standards and regulations of any underlying zoning district which are in conflict.
- (C) **Overlay District Standards.** If any portion of a property is situated within the boundaries of the SH-276 Overlay (SH-276 OV) District, the entire property shall be subject to the requirements of [Section 06.02, General Overlay District Standards](#).

#### SUBSECTION 06.15: AIRPORT OVERLAY (AP OV) DISTRICT

*Note: This document was prepared using FAA guidelines as of March 17, 2020 and using AC150/5300-14D.*

- (A) **Purpose.** The purpose of this district is to provide both airspace protection and land use compatibility with airport operations at the Ralph M. Hall/Rockwall Municipal Airport. This district, through establishment of airport zones and corresponding regulations, provides for independent review of development proposals in order to promote the public interest in safety, health and general welfare of the City of Rockwall. Therefore, the City of Rockwall deems it necessary to regulate uses of land located within or near the traffic patterns of the airport through regulation of height of structures and objects of natural growth, and through the regulation of land uses within the Airport Overlay (AP OV) District, and other FAA regulated areas associated with the airport (i.e. areas relating to RSA/ROFA/ROFZ which extend off the airport property).
- (B) **District Boundaries.** This Airport Overlay (AP OV) District is hereby established as the land area owned by the City of Rockwall and held as Ralph M. Hall/Rockwall Municipal Airport, the Airport Runway Protection Zone (RPZs), and a buffer area extending 500-feet from all property lines of the Ralph M. Hall/Rockwall Municipal Airport (see [Figure 29: Airport Overlay District Boundaries](#)).
- (C) **Definitions.** Unless otherwise stated in this section, the following words shall have the definitions prescribed to them below:

- (1) **Administrative Agency.** The appropriate person or office of the municipality that is responsible for the administration and enforcement of the regulations prescribed in this section of the Unified Development Code (UDC).
  - (2) **Airport.** The current and future boundaries of the Ralph Hall Municipal Airport located within the City of Rockwall, Texas.
  - (3) **Airport Hazard.** A structure or object of natural growth that obstructs the air space required for the taking off, landing, and flight of aircraft or that interferes with visual, radar, radio, or other systems for tracking, acquiring data relating to, monitoring, or controlling aircraft.
  - (4) **Airport Hazard Area.** An area of land or water on which an airport hazard could exist.
  - (5) **Applicant.** The person or persons making a request to the administrative agency.
  - (6) **Centerline.** The runway centerline identifies the center of the runway and provides alignment guidance during takeoff and landings. The centerline consists of a line of uniformly spaced stripes and gaps.
  - (7) **Non-Conforming Land Use or Non-Conforming Use.** Any land use of which is inconsistent with the provisions of these regulations and which is existing as of the effective date of the Airport Overlay (AP OV) District.
  - (8) **Person.** An individual, firm, partnership, corporation, company, association, joint stock association, or body politic and includes a trustee, receiver, assignee, administrator, executor, guardian, or other representative.
  - (9) **Runway.** A defined area on the airport prepared for the landing and taking off of aircraft along its length. The current length of the Rockwall Municipal Airport is 3,373-feet by 45-feet and the zoned dimensions are 3,373-feet by 60-feet.
  - (10) **Runway Safety Area (RSA).** The surface surrounding the runway prepared or suitable for reducing the risk of damage to airplanes in the event of an undershoot, overshoot, or excursion from the runway.
  - (11) **Structure.** An object constructed or installed by one (1) or more persons and includes but is not limited to a building, tower, smokestack, and overhead transmission line.
- (D) **Airport Zones.** In order to implement the intent of this ordinance, the Airport Overlay (AP OV) District hereby includes the following three (3) exhibits that depict the zones within the controlled area and shown on the official zoning map as depicted in [Figure 29: Airport Overlay District Boundaries](#):
- Airport Overlay (AP OV) District Boundaries (see [Figure 29: Airport Overlay District Boundaries](#))
  - Development Zones within the Airport Overlay (AP OV) District (see [Figure 30: Development Zones within the Airport Overlay \(AP OV\) District](#))
  - Airport Airspace Zones Boundaries (see [Figure 31: Airspace Zone Boundaries](#))
- (E) **Permitted Uses.** All uses otherwise permitted by existing zoning ordinances within the boundaries of the AP OV District are permitted

within the district, except where there is a conflict between the AP OV District and the existing zoning ordinances. Where the provisions of the AP OV District are more restrictive, the provisions of the AP OV District shall govern.

(F) **Controlled Area.** The area within which airport land use compatibility controls may be instituted, as defined by *Section 241, Municipal and County Zoning Authority Around Airports*, of the *V.T.C.A., Texas Local Government Code*, shall be defined as the controlled area. The controlled area is located outside the Airport boundaries and within an area measured no farther than one and one-half (1½) statute miles from the centerline of the Ralph M. Hall/Rockwall Municipal Airport runway and lies no farther than five (5) statute miles from each end of the paved surface of the runway.

(G) **Airspace Zones.** *Airspace Zones* consist of all of the land area lying beneath the surfaces referenced in Section H, *Height Limitations*, below and in Title 14, Part 77.19. The following *Airspace Zones* are hereby established and set forth (see *Figures 26: Airspace Zones [right] & Figure 31: Airspace Zone Boundaries [below]*; reference Title 14, Part 77, FAR):

(1) **Primary Surface.** The *Primary Surface* is a surface that is longitudinally centered on the runway. It extends 200-feet beyond the end of each runway and 250-feet on either side of the centerline of the runway for a total width of 500-feet (i.e. a 250-foot side buffer of the runway centerline).

(2) **Approach Zone.** The *Approach Zone* is a fan shaped zone that is established at both ends of the runway for the purpose of landings and take-offs. The *Approach Zone* commences at the end of the *Primary Surface* (i.e. 200-feet beyond the end of the runway) and has a beginning width of 500-feet. It then extends uniformly along the continuation of the centerline of the runway to a width of 3,500-feet at a distance of 10,000-feet from the point of commencement, and a slope of 34:1 or one (1) foot in height for each 34-feet in horizontal distance [this is the land area that exists underneath the *Approach Surface*].

(3) **Transitional Zones.** The *Transitional Zones* are symmetrically located on either side of runway, and have variable widths. The *Transitional Zones* extend outward and upward commencing from the edge of the *Primary Surface* (i.e. 250-feet on either side of the centerline of the runway), and *Approach Surfaces*. The *Transitional Zones* extend upward and outward at slope of 7:1 or one (1) foot vertically for each seven (7) feet horizontally to the point where they intersect the surface of the *Horizontal Zone*. The *Transitional Zones* are established adjacent to the *Approach Zones* and extend their entire length. The *Transitional Zones* flare symmetrically with either side of the runway *Approach Zone* from the base of said zones and slope upward and outward at the rate of 7:1 or one (1) foot vertically for each seven (7) feet horizontally to the points where they intersect the surface of the *Horizontal Zone* and the *Conical Zone* [this is the land area that exists underneath the *Transitional Surface*].

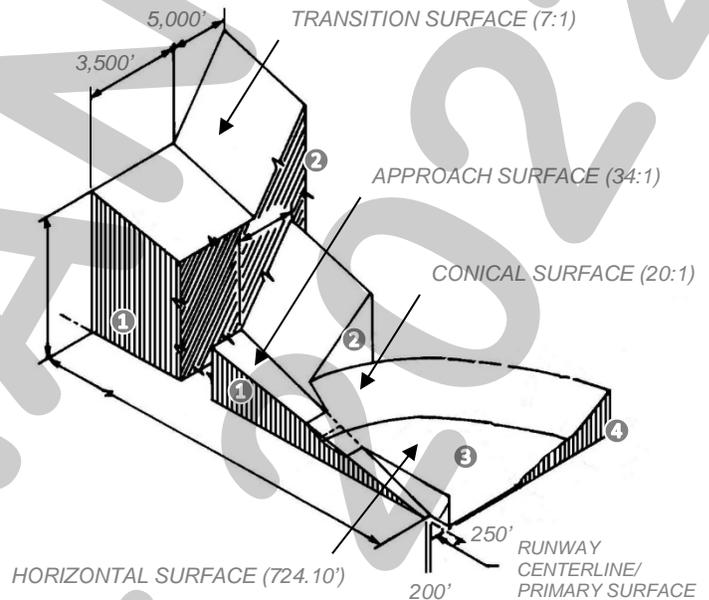

(4) **Horizontal Zone.** The *Horizontal Zone* consists of the land area within the perimeter of which is constructed by swinging arcs of 10,000-feet from the center of each *Primary Surface*, 200-feet beyond the centerline of each runway and connecting the adjacent arcs by lines of tangent to those arcs. The *Horizontal*

*Zone* does not include the *Approach Zone* and/or the *Transition Zone* [this is the land area that exists underneath the *Horizontal Surface*].

(5) **Conical Zone.** The *Conical Zone* consists of the land area that commences at the periphery of the *Horizontal Zone* and extends outward for a distance of 4,000-feet, at a 20:1 slope or one (1) foot in height for each 20-feet of horizontal distance. The *Conical Zone* does not include the *Approach Zone* and/or the *Transition Zone* [this is the land area that exists underneath the *Conical Surface*].

(H) **Height Limitations.** Except as otherwise provided in this ordinance, no structure or tree shall be erected, altered, allowed to grow, or be maintained in any zone created above to a height in excess of the limits established herein for each of the imaginary surfaces created by the airspace zones (Title 14 CFR, Section 77.19, *Civil Airport Imaginary Surfaces*), which are defined as follows:

(1) **Approach Surface.** The *Approach Surface* is the surface that is created by the *Approach Zone*, and is required to prevent existing or proposed objects, objects of natural growth or terrain from extending into the area required for an aircraft's navigable airspace. The *Approach Surface* is the same starting width as the *Primary Surface* (i.e. 500-feet), and has a slope of 34:1 or one (1) foot in height for each 34-feet in horizontal distance commencing at the *Primary Surface* and extending to a point 10,000-feet from the point of beginning and widening to a width of 3,500-feet.

(2) **Transitional Surface.** The *Transitional Surface* is the surface that is created by the *Transitional Zone*, and is required to prevent existing or proposed objects, objects of natural growth or terrain from extending in the area required for an aircraft's navigable airspace. The *Transitional Surface* is the surface that extends outward and upward, at right angles to the runway

centerline (at any point 250-feet normal to and at the elevation of the centerline) and extended runway centerline (i.e. 200-feet beyond the end of the runway), from the sides of the Primary Surface and the Approach Surfaces to a point of 150-feet above the airport elevation (i.e. 724.10-feet) [the airport elevation is 574.10-feet above mean sea level]. The Transitional Surface has a slope of 7:1 or one (1) foot in height for each seven (7) feet in horizontal distance.

- (3) Horizontal Surface. The Horizontal Surface is the surface that is created by the Horizontal Zone, and is required to prevent existing or proposed objects, objects of natural growth or terrain from extending into the area required for an aircraft's navigable airspace. The Horizontal Surface is the horizontal plane created by swinging arcs with a 10,000-foot radius centered on the extended runway centerline where it crosses the Primary Surface, and is situated 150-feet above the established airport elevation (i.e. 724-feet) [the airport elevation is 574-feet above mean sea level], which coincides with the extent of the Horizontal Zone.
- (4) Conical Surface. The Conical Surface is the surface that is created by the Conical Zone, and is required to prevent existing or proposed objects, objects of natural growth or terrain from extending into the area required for an aircraft's navigable airspace. The Conical Surface extends upward and outward from the outer limits or the periphery of the Horizontal Surface at a slope of 20:1 or one (1) foot in height for each 20-feet of horizontal distance for a horizontal distance of 4,000-feet. The Conical Surface extends to a height of 350-feet above the airport's elevation (i.e. 924-feet) [the airport elevation is 574-feet above mean sea level].

[Where an area is covered by more than one (1) height limitation, the more restrictive limitation shall prevail. Nothing in this ordinance shall be construed as prohibiting the growth, construction or maintenance of any tree or structure to a height up to 45-feet above the surface of the land, except in the Approach Zones.]

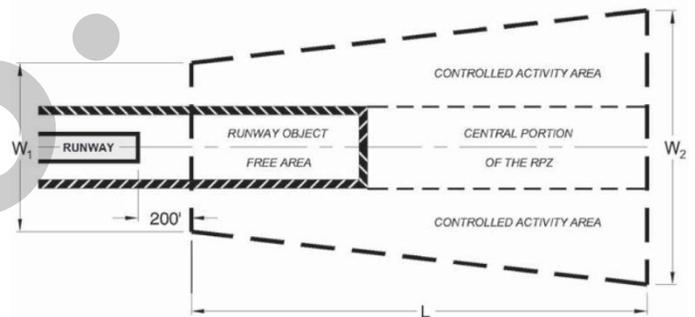

- (I) Airport Hazard Area. The Airport Hazard Area is an area of land or water on which an airport hazard could exist. An airport hazard is defined as a structure or object of natural growth that obstructs the airspace required for the taking off, landing, and flight of aircraft or that interferes with visual, radar, radio, or other systems for tracking, acquiring data relating to, monitoring, or controlling aircraft. For the purposes of this ordinance, the Airport Hazard Area is defined as the entirety of all the imaginary surfaces stated in Section H, Height Limitations, of this ordinance (see Figure 31: Airspace Zone Boundaries).
- (J) Land Use Compatibility.
  - (1) Intent. The Airport Overlay (AP OV) District is intended to overlay any other zoning district's regulations comprising or pertaining to areas to which it is applicable, to prevent undue negative interaction between aviation activities associated with the airport and the surrounding community. It is intended to protect the lives and property of the users of the airport and of the occupants of the land in its general vicinity by restricting places of public assembly within this Airport Overlay (AP OV) District. The overlay is intended to preserve the utility of the airport and the public investment therein.

(2) Development Zones. The Development Zones are hereby established within the Airport Overlay (AP OV) District. These zones are depicted in Figure 30: Development Zones within the Airport Overlay (AP OV) District of this ordinance. The Development Zones are defined and described as follows:

- (a) Airport Runway Protection Zones (RPZs). The Airport Runway Protection Zones are hereby established as the trapezoidal areas centered about the extended runway centerline. The RPZ dimensions for a particular runway end are a function of the type of aircraft and approach/departure visibility minimum associated with the runway end. The RPZs for the Ralph M. Hall/Rockwall Municipal Airport commence 200-feet from the edge of pavement at the end of each runway, beginning with a base of 500-feet (i.e. inner width or  $W_1$ ), extending 1,000-feet along the runway centerline (i.e. length or  $L$ ), and terminating at the outboard corners of a 700-foot line segment (i.e. outer width or  $W_2$ ) [see Figure 27: Airport Runway Protection Zone (RPZ)], creating a 13.770-acre trapezoidal area, which is intended to service Aircraft Approach/Departure Categories 'A' & 'B' (i.e. small single and multi-engine planes). Contained within the two (2) trapezoidal areas that make up the RPZs are the Controlled Activity Area and a portion of the ROFA (Object Free Area). These areas are defined as follows:

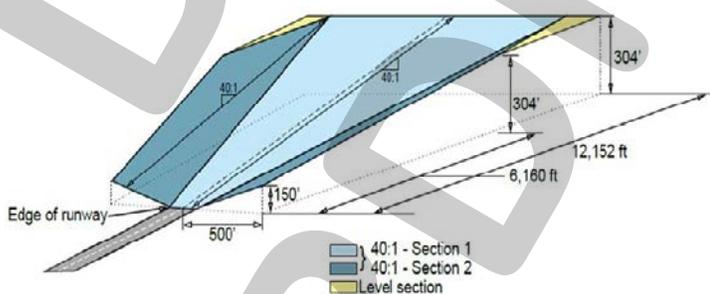

- (1) The Runway Object Free Area (ROFA). The Runway Object Free Area (ROFA) is centered on the runway centerline. The ROFA clearing standard requires clearing the ROFA of above ground objects protruding above the runway safety area edge elevation. Except where precluded by other clearing standards, it is acceptable to place objects that need to be located in the ROFA for air navigation or aircraft ground maneuvering purposes to protrude above the nearest point of the runway safety area, and to taxi and hold aircraft in the ROFA. To the extent practicable, objects in the ROFA should meet the same frangibility requirements as the runway safety area. Objects non-essential for air navigation or aircraft ground maneuvering purposes are not permitted to be placed in the ROFA. This includes parked airplanes and agricultural operations.

FIGURE 27: AIRPORT RUNWAY PROTECTION ZONE (RPZ)

- (2) The Controlled Activity Area. The *Controlled Activity Area* is the portion of the *RPZ* beyond the boundaries of the *ROFA*.
- (b) Municipal Airport Zone. The *Municipal Airport Zone* is hereby established as the real property boundaries of the Ralph M. Hall/Rockwall Municipal Airport. This zone contains the majority of all airport related land uses and structures.
- (c) Airport Influence Zone. The *Airport Influence Zone* contains all areas within the 500-foot buffer excluding the *Municipal Airport Zone* and the *RPZ*.
- (d) Height Restriction Zone. The *Height Restriction Zone* extends to the edge of the *Conical Zone* and is subject only to the requirements stipulated in Section H, *Height Limitations*, of this ordinance (see Figure 29: Airport Overlay District Boundaries).
- (e) Departure Surface. The *Departure Surface* starts at the end of the runway end elevation and matches the width of the usable runway. From the edge of the usable runway, the surface rises upward to 150-feet above the runway end elevation at a point 500-feet on either side of the runway centerline. The new surface rises upward along the extended centerline at a slope of 40:1 or one (1) foot in height for each 40-feet in horizontal distance until reaching 304-feet above the runway end elevation (i.e. 6,160-feet across at its outer width at the runway end elevation). Upon reaching the 304-foot marker, the surface levels out until the end of the departure surface at 12,152-feet. The area splays outward at a rate of 15-degrees relative to the extended runway centerline (see Figure 28: Departure Surface).

FIGURE 28: DEPARTURE SURFACE

(3) Land Use Restrictions.

- (a) Runway Object Free Area (ROFA) and Controlled Activity Area. No uses are permitted within the *Runway Object Free Area (ROFA)* or the *Controlled Activity Area* unless deemed essential to air navigation or aircraft ground maneuvering purposes by the Federal Aviation Administration (FAA) with the following exceptions:

Properties within the Height Restriction Zone, outside of the Airport Overlay (AP OV District), are subject to the use requirements stipulated by the underlying zoning depicted on the official zoning map of the City of Rockwall (see Figure 29: Airport Overlay District Boundaries).

(4) Additional Use Restrictions.

(a) Notwithstanding any other provision of this ordinance, no use may be made of land within any zone established by this ordinance in such a manner as to (1) create electrical interference with radio communication between the Airport and aircraft, (2) make it difficult for flyers to distinguish between airport lights and others, (3) result in glare in the eyes of flyers using the Airport, (4) impair visibility in the vicinity of the Airport or otherwise endanger the landing, taking-off, or maneuvering of aircraft.

(5) Legal Non-Conforming Land Uses.

(a) Regulations Not Retroactive. The regulations prescribed by this ordinance shall not be construed to require the removal, lowering, changes and/or alteration of any structure (e.g. building) or object of natural growth (e.g. tree) not conforming to the regulations as of the effective date of this ordinance, or otherwise interfere with the continuance of any legal non-conforming use. Nothing herein contained shall require any change in the construction, alteration, or intended use of any structure or property, for which the construction or alteration of said structure or property was commenced prior to the effective date of this ordinance.

(b) Hazard Marking and Lighting. Notwithstanding the preceding provision of this section, the owner of any non-conforming structure or tree is hereby required to permit the installation, operation, and maintenance thereon of such markers and lights as shall be deemed necessary by the City Manager or his designee to indicate to the operators of aircraft in the vicinity of the Airport, the presence of such airport hazards. Markers and lighting necessary for existing non-conforming structures or trees shall be operated and maintained at the expense of the

property owner. Markers and lighting necessary for future non-conforming structures or trees, approved per the requirements of this ordinance, shall be installed, operated, and maintained at the expense of the property owner.

(K) Development Standards.(1) Architectural Standards.

- (a) All buildings within the Municipal Airport Zone shall be designed by a licensed, professional architect and all drawings submitted for approval and/or permits shall bear the architect's seal of the State of Texas.
- (b) All buildings intended for airport related use such as hangars, maintenance facilities, offices and facilities for airport management, terminal buildings and other similar types of uses with exterior walls visible from a public right-of-way shall consist of 90% masonry materials, excluding doors and windows as defined in Article 13, Definitions, of the Unified Development Code (UDC) [i.e. "Masonry"]. Building exterior walls not visible from the public rights-of-way may be earth-tone colored, pre-finished aluminum, steel or masonry. Materials that are unfinished are prohibited.

*[All other buildings not related to airport uses within the Airport Overlay (AP OV) District shall conform to building materials requirements as stipulated within the Unified Development Code (UDC).]*

In addition, all buildings intended for airport related uses shall adhere to the following standards:

- (1) A Material Sample Board indicating all exterior materials and colors must be submitted to the Planning and Zoning Commission, upon a recommendation by the Architecture Review Board (ARB), for approval prior to the commencement of construction. All sides of the exterior building shall be architecturally integrated and similar in nature with respect to the design and aesthetic.
- (2) All roofs shall be metal. If galvanized metal is being proposed, it shall be limited to a roofing material only.
- (3) Building glazing or reflectors shall not be incorporated into a building if it will cause a glare or reflection that could interfere with airport operations or ground circulation.
- (4) All windows or large glass elements shall be oriented and/or treated to avoid reflections that could cause a distraction to air traffic that is landing or taking off.
- (5) All new construction shall be of a high quality and utilize materials and finishes that will maintain their appearance with relatively low maintenance.
- (6) All steel used for roofing or siding shall be a minimum of 28-gauge steel, with a factory finish in a color that has been approved by the Planning and Zoning Commission, and which has been warranted by the

manufacturer for a minimum of 20 years with regards to the durability and color fastness.

- (7) All floors must be constructed of a minimum of four (4) inches thick concrete and reinforced with steel to a standard approved by the Engineering and Building Inspections Departments.
- (8) All hangars facing a taxiway (*i.e. a path connecting runways with ramps, hangars, terminals, etc.*) shall have a hangar door that has a minimum opening of 55-feet in width by 16-feet in height (*i.e. 55' [w] x 16' [h]*). Buildings facing a taxilane (*i.e. a path connecting the taxiways to aircraft parking positions*) shall have a hangar door that has a minimum opening of 41-feet, 6-inches in width by 12-feet in height (*i.e. 41'-6" [w] x 12' [h]*). Approved swing out, overhead or sliding doors may also be used. All pedestrian doors must be of a pre-finished metal construction positioned in metal doorjamb. No wood doorjamb will be permitted on exterior doors.
- (9) Mechanical equipment shall be screened so as not to be visible from the public and private rights-of-way. All screens, whether situated on the ground or on the building, shall be constructed to be aesthetically integrated into the design of the building. The rooftops of all buildings shall be free of any mechanical equipment unless completely screened from all points of view along all public rights-of-way by an architectural parapet. All screening materials shall be compatible with the material used on the building.

(2) Landscaping.

- (a) The requirements contained within Article 05, *District Development Standards*, and Article 08, *Landscape and Fence Standards*, of the Unified Development Code (UDC), whichever would be applicable to the subject property independent of the AP OV District, shall apply to a property located within the overlay (*i.e. the landscaping percentage of the underlying zoning district would apply*); however, landscaping plans in the AP OV District should be designed with the consideration of aircraft movement and should not be designed using trees and/or plants that have the propensity to attract hazardous wildlife. In cases where aircraft requirements would conflict with certain landscaping elements, the Planning and Zoning Commission may approve requirements that deviate from those stipulated by the Unified Development Code (UDC) if, in its opinion, such alternate requirements provide for a safer and more efficient use of the property. In addition, the Planning and Zoning Commission may request that a qualified Airport Wildlife Biologist review landscaping plans in sensitive areas and provide recommendations for planting placement and alternatives.
- (3) Variances. The City Council may, upon request from the applicant, grant a variance to the any of the provisions contained within Section K.6, *Architectural Standards*, and Section K.7, *Landscaping*, of this ordinance where unique or

extraordinary conditions exist or where strict adherence to the provisions of this ordinance would create a hardship. Approval of any variance to any provision of this section shall require City Council approval by a three-quarter (¾) majority vote of the City Council members present with a minimum of four (4) affirmative votes.

(L) Administrative Procedures and Permits.

- (1) Notice of Proposed Construction or Alteration (i.e. FAA Form 7460-1). Any tree or structure (*new or alteration of an existing structure*) proposed within the AP OV District or 20,000-feet of the runway shall require an applicant to file a *Notice of Proposed Construction or Alteration* form (*i.e. FAA Form 7460-1*) with the Federal Aviation Administration (FAA) to determine if the tree or structure creates a hazard to air navigation or will result in an inefficient use of airspace.
- (2) Future Use. Except as specifically provided herein, no change shall be made in the use of land and no structure or tree shall be erected, altered, planted or otherwise established in any zone hereby created unless a permit therefore shall have been applied for and granted. Each application for a permit shall indicate the purpose for which the permit is desired, with sufficient particularity to permit it to be determined whether the resulting use, structure or tree would conform to the regulations herein prescribed. If such determination is in the affirmative, the permit shall be granted.
  - (a) In the area lying within the limits of the *Horizontal Zone* and *Conical Zone*, no permit -- *except as required by Section (L)(1) above* -- shall be required for any tree or structure less than 75-feet of vertical height above the ground as measured at grade, except when because of terrain, land contour or topographic features such tree or structure would extend above the height limits prescribed for such zone.
  - (b) In the areas lying within the limits of the *Approach Zones* but at the horizontal distance of not less than 4,000-feet from each end of the runways, no permit -- *except as required by Section (L)(1) above* -- shall be required for any tree or structure less than 75-feet of vertical height above the ground as measured at grade, except when because of terrain, land contour or topographic features such tree or structure would extend above the height limit prescribed for the *Approach Zone*.
  - (c) In the areas lying within the limits of the *Transitional Zones* ending at the perimeter of the *Horizontal Zone*, no permit -- *except as required by Section (L)(1) above* -- shall be required for any tree or structure less than 75-feet of vertical height above the ground as measured at grade, except when such tree or structure because of terrain, land-contour or topographic features would extend above the height limit prescribed for such *Transitional Zones*.
- (3) Exceptions/Variances/Non-Conforming Uses. Nothing contained in any of the foregoing exceptions shall be construed as permitting or intending to permit any construction, alteration or growth of any structure or tree in excess of any of the height

limits established by this Ordinance except as set forth in Section H, *Height Limitations*.

- (a) *Existing Uses*. No permit shall be granted that would allow the establishment or creation of an airport hazard or permit a non-conforming use, structure, or tree to be made or become higher, or become a greater hazard to air navigation, than it was on the effective date of this Ordinance or any amendments thereto or than it is when the application for a permit is made. Except as indicated, all applications for such a permit shall be granted.
- (b) *Non-Conforming Uses Abandoned or Destroyed*. Whenever the Board of Adjustment (BOA) determines that a non-conforming structure or use has been abandoned for a period of six (6) months, or more than eighty (80%) percent of a non-conforming structure or tree has been torn down, physically deteriorated, or decayed, no permit shall be granted that would allow such structure or tree to exceed the applicable height limit or otherwise deviate from the zoning regulations.
- (c) *Variances*. Any person desiring to erect or increase the height of any structure, or permit the growth of any tree, or use of their property, not in accordance with the regulations prescribed in this ordinance, may apply to the Board of Adjustment (BOA) for a variance from such regulations. Such variances shall be allowed where it is duly found that a literal application or enforcement of the regulation would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest but will do substantial justice to be in accordance with the spirit and intent of this Ordinance.
- (d) *Hazard Marking and Lighting*. Any permit or variance granted may, if such action is deemed advisable to effectuate the purpose of this Ordinance and be reasonable in the circumstances, be so conditioned as to require the owner of the structure or tree in question to permit the owners at their own expense, to install, operate, and maintain thereon such markers and lights as may be necessary to indicate to flyers the presence of an airport hazard.

(M) *Enforcement*. It shall be the duty of the City Manager or his designee to administer and enforce the regulations prescribed herein. Application of permits shall be made to the City Manager or his designee upon a form published for that purpose. Applications required by this ordinance to be submitted to the City Manager or his designee shall be promptly considered and granted or denied. Applications for variances shall be made to the Board of Adjustment (BOA) by first filing said application for variance with the City Manager or his designee who shall forthwith transmit said application to the Board of Adjustment for determination.

~~(A)~~(N) *Appeals*. Requests for appeals to administrative decisions by the City Manager or his designee concerning the enforcement of this ordinance shall be directed to the Board of Adjustment (BOA) in compliance with Section 04, Board of Adjustments, of Article 02, Authority and Administrative Procedures, of the Unified Development Code (UDC).

**SUBSECTION 06.1516: LAKE RAY HUBBARD TAKELINE OVERLAY (TL OV) DISTRICT**

- (A) **Purpose.** The purpose of the *Lake Ray Hubbard Takeline Overlay (TL OV) District* is to permit the development of property along the shoreline of Lake Ray Hubbard under certain regulatory conditions governing permitted uses and development standards, setting forth the procedures for the development of said property, and establishing an appeal process for the development standards of the district. This zoning district has its basis in and is intended serve as an implementation tool for the Lake Ray Hubbard Master Plan (adopted by the City of Dallas), the Lake Ray Hubbard Interlocal Agreement as approved by those municipalities comprising the *Lake Cities Coalition* (i.e. *Garland, Rockwall, and Rowlett*) and the City of Dallas, and the OURHometown Vision 2040 Comprehensive Plan. The adoption of this zoning district is intended to provide a means for the protection of water quality.
- (B) **Boundaries.** The Lake Ray Hubbard Takeline (TL OV) District includes all property that is located between the City of Dallas Takeline as shown on the boundary map for Lake Ray Hubbard (i.e. File 612D-1 on file in the City of Dallas Records Vault and depicted below in Figure 26, *Lake Ray Hubbard Takeline [TL OV] District Map*) and the meandering of the contour line 435.5-foot sea level elevation. In addition, *Figure 27: Elevation Contours*, shows the elevation zones used to delineate where certain land uses are permitted.

FIGURE 2733: ELEVATION CONTOUR ZONES

- (C) **Applicability.**
  - (1) **Applicable Lots.** The standards set forth within Subsection 06.15, *Lake Ray Hubbard Takeline Overlay (TL OV) District*, shall apply only to those lots within the takeline that are zoned and used for detached, single-family residential land uses, and that either have a minimum lot width of 45-feet when measured at the front building line or a minimum width of 35-feet at the front building line when located on a curved street or cul-de-sac that are eligible to lease. The properties eligible to lease the takeline area are depicted in *Figure 26: Lake Ray Hubbard Takeline Overlay (TL OV) District Map* above.

- (2) Exceptions for Lots Not Meeting the Applicability Standards. The City Council shall have the authority to consider special exceptions to the eligibility standards set forth within this section that apply to those lots within the Lake Ray Hubbard Takeline Overlay (TL OV) District that are zoned and used for detached, attached, or zero-lot-line single-family residential land uses and meet the minimum lot width requirements as prescribed in [Subsection 06.15\(C\)\(1\)](#) above.
- (D) Definitions. The terms used in this section shall be as defined in this Unified Development Code (UDC), the Lake Ray Hubbard Interlocal Agreement, and the sublease agreements prepared by the City of Rockwall. For specific land use definitions refer to [Subsection \(J\), Specifications for Permitted Land Uses](#). In addition, the following terms shall be defined as follows:
- (1) Catwalk. The narrow walkway of a dock providing people access to moored watercraft.
  - (2) Centerline. An established line that is equidistant from the surface or sides of something (e.g. *parcel boundaries*).
  - (3) Cleat. A metal fitting with two (2) projecting pieces used to wrap a rope around to secure a watercraft in position.
  - (4) Dredging. The process of deepening a waterway for the safe and efficient movement of watercraft by the removal of dirt either by digging or by suction.
  - (5) Habitable Structure. A structure fit for human habitation usually containing amenities (e.g. *fireplace, furniture, plumbing, bathing facilities, and cooking facilities*). Structures allowed by this section shall not be habitable structures and may not contain such amenities.
  - (6) Lake. Refers to Lake Ray Hubbard.
  - (7) Lake Area. The City of Dallas property, known as Lake Ray Hubbard, that is normally submerged by the lake at a normal lake pool elevation (i.e. *property at or below an elevation of 435.5-foot mean sea level*).
  - (8) Leased Area. Means the take area that is within the corporate limits of the City of Rockwall, or where the takeline is directly adjacent to the corporate limits of the City of Rockwall.
  - (9) Lift. A temporary means of elevating a watercraft out of the water by use of a hoist.
  - (10) Locker Box. A secured chest fixed onto a dock used for storage of watercraft equipment.
  - (11) Moor. Securing a watercraft to a fixed object such as a fixed cleat on a seawall while the watercraft is still in the water.
  - (12) Mooring. A place where a watercraft can be tied up and secured while in the water (e.g. *a slip*) for not more than 156-consecutive hours.
  - (13) Power Source Station. Used as a power supply for lighting a dock just below watercraft level.
  - (14) Shoreline. Refers to the line along the shore of the lake, established by the normal lake pool elevations (i.e. *435.5-foot mean sea level*).
  - (15) Slip. A watercraft's berth between two (2) piers or between finger piers.
  - (16) Take or Takeline Area. Refers to the land owned by Dallas between the takeline and the normal lake pool elevations (i.e. *435.5-foot mean sea level*).
  - (17) Treated Wood. Wood treated by the impregnation or application of chemical solutions or chemical mixtures for the purpose of retarding or preventing deterioration or destruction cause by insects, fungi, bacteria, or other wood destroying organisms.
  - (18) View Clear Zone. The area within the view preservation angle where no new structures or plantings shall exceed six (6) feet above the existing grade to maintain neighboring views.
  - (19) View Corridor. A sight passage recognized as holding an intangible asset for a property owner and for a community due to the unique visual qualities of distant terrain, woodlands, wetlands, grasslands, skylines, and manmade lakes expressed through a view preservation angle from either a generally recognized center point or various center points along a road corridor or public view area ([see Figure 28: Visual Measurements for View Corridors of Subsection \(E\)](#)).
  - (20) View Preservation Angle. The angle determined as the line extending from the center point -- or 30-foot point depending on lot size -- along the quarter distance line of the leased area extending back toward the opposite corner where the takeline area crosses the lease area's side yard ([see Figure 28: Visual Measurements for View Corridors](#)).
  - (21) Watercraft (or Boat). A craft for water transport. Examples of watercrafts are as follows:
    - (a) Motorized Boat. A boat propelled by an internal combustion engine.
    - (b) Sail Boat. A boat with a mast and sail propelled by the wind.
- (E) Visual Measurements for View Corridors.
- (1) View Corridors. View clear zones are established to protect a property owner's views of the lake and to maintain the aesthetic value of the lake's shoreline. The view clear zones for the takeline areas are established by the shoreline frontage of the takeline lease area. This measurement is determined by projecting the lease areas side yards to the normal lake elevation (i.e. *435.5-foot mean sea level*), and connecting these two (2) points in a straight line ([see Figure 28: Visual Measurements for View Corridors](#)). Based on this linear measurement, the view clear zones are determined by the following:
    - (a) Lots That Have Less Than 100-Feet of Shoreline Frontage. The view corridor for lots that have less than 100-feet of shoreline frontage is defined by the view preservation angle determined as the quarter distance (i.e. 25%) center point from the shoreline frontage line along the centerline of the leasing property owner's side yard with the angle running from the quarter distance center point to the opposite corners where the takeline

area crosses the lease area's side yard. Those areas that fall inside of the view clear zones will be restricted from any type of new improvements or plantings exceeding six (6) feet in height with the exception of boat-related uses, which will be allowed by an administrative exception in accordance with [Subsection \(F\)\(2\)\(d\)](#).

- (b) Lots That Have More 100-Foot or More Shoreline Frontage. The view corridor for lots that have 100-foot or more shoreline frontage are defined by the view preservation angle determined as the quarter distance (i.e. 25%) line projected from the shoreline frontage line extending from the leasing property owner's side yard 30-foot along the quarter distance line and running from this point to the opposite corners where the takeline area crosses the lease area's side yard, and in a straight line from the 30-foot point on the quarter distance line to the shoreline frontage line. Those areas that fall inside of the view clear zones will be restricted from any type of new improvements or plantings exceeding six (6) feet in height with the exception of boat-related uses, which will be allowed by an administrative exception in accordance with [Subsection \(F\)\(2\)\(d\)](#).

(F) General Requirements. The following general requirements shall apply for all property in the takeline area.

(1) Number of Permitted Structures. The following is the maximum number of structures that shall be permitted in each elevation zone (NOTE: in this case a structure is defined as any of the permitted uses specified in [Subsection \(J\), Specifications for Permitted Land Uses](#) that exceeds six [6] feet in height):

- (a) 438.0 Elevation Zone: Two (2) structures shall be permitted in the 438.0 Elevation Zone.
- (b) 435.5 Elevation Zone: One (1) structure shall be permitted in the 435.5 Elevation Zone.

(2) General Location of Permitted Structures. The following requirements relate to where structures should be generally located in each elevation zone (NOTE: in this case a structure is defined as any of the permitted uses specified in [Subsection \(J\), Specifications for Permitted Land Uses](#) that exceeds six [6] feet in height):

- (a) 438.0 Elevation Zone: Structures in the 438.0 Elevation Zone should be located outside of the view clear zones unless specifically permitted to be in the view clear zone

**TO:** Planning and Zoning Commission  
**FROM:** Henry Lee, *Planner*  
**DATE:** March 15, 2022  
**SUBJECT:** MIS2022-004; *Variance for a Front Yard Fence for 54 Shadydale Lane*

---

The applicant, James Best, is requesting the approval of a variance for a front yard fence. The subject property is located on a 2.60-acre parcel of land (*i.e. Lot 1, Block A, Best Estate Addition*) addressed as 54 Shadydale Lane. The proposed elevations indicate that the front yard fence will be: [1] constructed using Concrete Masonry Units (CMU) finished with stucco; [2] will be 70-feet long, 42-inches tall, and 18-inches wide; and [3] will be opaque.

According to Article 13, *Definitions*, of the Unified Development Code (UDC), a fence is defined as “(a)ny wall or structure of any material for which the purpose is to provide protection from intrusion, both physical and visual, to prevent escape, mark a boundary, enclose, screen, restrict access to, or decorate any lot, building, or structure.” In addition, Subsection 08.03(D)(2) of Article 08, *Landscape and Fence Standards*, of the Unified Development Code (UDC) states, “(n)o fence shall be constructed in the front yard of a residential property without being granted an exception from the Planning and Zoning Commission...” This section goes on to lay out some guidelines for the Planning and Zoning Commission’s consideration when reviewing exceptions: [1] the fence is 50% transparent, [2] the fence does not exceed four (4) feet in height, and [3] opaque fences should be prohibited. In this case, the fence does not meet the requirements for a front yard fence. Specifically, the fence is opaque. Staff should note that the front yard fence requirements were written with the intent of restricting front yard fences that completely or partially enclose or impair visibility of the primary structure, and that the applicant’s fence does not appear to be intended to enclose or impair visibility of the primary structure. It does appear to be only decorative in nature; however, front yard fences are discretionary decisions for the Planning and Zoning Commission. Should the Planning and Zoning Commission have any questions concerning the applicant’s request, staff will be available at the meeting on March 15, 2022.

M.3 For reference, include the case number (MIS2022-004) in the lower right-hand corner of all pages on future submittals.

I.4 Subsection 08.03 (D)(2), Fences in the Front Yard, Article 08, Landscape and Fence Standards, of the Unified Development Code (UDC):

Fences in the Front Yard. No fence shall be constructed in the front yard of a residential property without being granted an exception from the Planning and Zoning Commission unless specifically permitted by Subsection 08.03(D)(3). For the purposes of this provision the front yard is defined as the area between the front façade of the primary structure and the front property line. The Planning and Zoning Commission may authorize the issuance of an exception for the construction of a front yard fence subject to the following provisions:

- (a) Wood Fences. Wood fences that are 50% transparent (e.g. as depicted in Figure 14) shall not exceed 42-inches in height.
- (b) Wrought Iron or Decorative Metal Fences. Wrought iron or decorative metal fences that are 50% transparent (e.g. as depicted in Figure 14) shall not exceed 48-inches in height.
- (c) Opaque Fences. Opaque fences are prohibited in the front yard of residential properties.

I.5 According to Article 13, Definitions, of the Unified Development Code (UDC), a fence is defined as "(a)ny wall or structure of any material for which the purpose is to provide protection from intrusion, both physical and visual, to prevent escape, mark a boundary, enclose, screen, restrict access to, or decorate any lot, building, or structure."

I.6 In this case the applicant is requesting a 42-inch opaque "decorative wall", which according to the definition above is a 42-inch opaque front yard fence.

I.7 Please note the scheduled meeting for this case:

- 1) Planning & Zoning Work Session meeting will be held on February 28, 2022 at 6pm in the council chambers at City Hall.
- 2) Planning & Zoning Public Hearing meeting will be held on March 15, 2022 at 6pm in the council chambers at City Hall.

**TO:** Planning and Zoning Commission  
**DATE:** March 15, 2022  
**APPLICANT:** Jeff Carroll; *Carroll Architects*  
**CASE NUMBER:** SP2022-004; *Site Plan for Lefere Office Building*

---

### SUMMARY

Discuss and consider a request by Jeff Carroll of Carroll Associates, on behalf of Kevin Lefere of Airport Road, LLC. for the approval of a Site Plan for a *Medical Office Building* on a 0.47-acre parcel of land identified as Lot 4, Block A, Landing Point Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District land use, addressed as 1501 Airport Road, and take any action necessary.

### BACKGROUND

The subject property was annexed by the City Council on April 28, 1986 by *Ordinance No. 86-30 [Case No. A1986-004]*. On July 2, 2012, The City Council approved rezoning the subject property from an Agriculture District (AG) to a Commercial District (C) through *Ordinance No. 12-14 [Case No. Z2012-007]*. On June 5, 2017, the City Council approved a final plat [*Case No. P2017-026*] establishing the subject property as a portion of Lot 1, Block A, Landing Point Addition. A replat [*Case No. P2020-012*] of the subject property was approved by the City Council on April 20, 2020 creating the present-day boundaries of the subject property. The subject property has been vacant since annexation.

### PURPOSE

On February 18, 2022, the applicant -- *Jeff Carroll of Carroll Architects* -- submitted an application requesting the approval of a site plan for the purpose of constructing a 7,766 SF office building on the subject property.

### ADJACENT LAND USES AND ACCESS

The subject property is located north of the intersection of Industrial Boulevard and Airport Road. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is a 1.36-acre parcel of land (*i.e. Lot 6, Block A, Landing Point Addition*) zoned Commercial (C) District and developed with a *Medical Office Building (i.e. T3 Chiropractic)*. Beyond this is a 2.57-acre parcel of land (*i.e. Lot 7, Block A, Landing Point Addition*) zoned Commercial (C) District that is developed with a 12,402 SF commercial building (*i.e. Jungle Trek*). North of this is a 31.393-acre parcel of land (*i.e. Tract 3, of the N. Butler Survey, Abstract No. 20*) zoned Agriculture (AG) District.

South: Directly south of the subject property is Airport Road, which is identified as a M4U (*i.e. major collector, four [4] lane, undivided roadway*) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this is a 28.24-acre public park (*i.e. Leon Tuttle Athletic Complex*) zoned Light Industrial (LI) District. South of this is the right-of-way for the *Union Pacific Dallas/Garland Northeast Railroad*.

East: Directly east of the subject property is a 0.47-acre parcel of land (*i.e. Lot 5, Block A, Landing Point Addition*) zoned Commercial (C) District and developed with an *Office Building (i.e. Lawson and Co. CPAs)*. Beyond this is a three (3) acre parcel of land (*i.e. Lot 4, Block A, Columbia Park Addition*) zoned Commercial (C) District, and developed with a *Medical Office Building (i.e. Lakes Regional Mental Health)*. Beyond that is a six (6) acre parcel of land developed with a *House of Worship (i.e. Cornerstone Church)* zoned Commercial (C) District. Beyond that is a

1.803-acre vacant tract of land (i.e. Tract 4-06 of the N. Butler Survey, Abstract No. 20) zoned Commercial (C) District. Beyond this is John King Boulevard, which is identified as a P6D (i.e. principal arterial, six [6] lane, divided roadway) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

West: Directly west of the subject property is a 1.945-acre parcel of land (i.e. Tract 4-4 of the N. Butler Survey, Abstract No. 20) zoned Agricultural (AG) District and that is currently vacant. Beyond this is S. Washington Street, which is designated as a M4U (i.e. major collector, four [4] lane, undivided roadway) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond that is a 7.497-acre vacant tract of land (i.e. Tract 68 of the R. Ballard Survey, Abstract No. 29) zoned Light Industrial (LI) District.

**DENSITY AND DIMENSIONAL REQUIREMENTS**

According to Section 01, *Land Use Schedule*, of Article 04, *Permissible Uses*, of the Unified Development Code (UDC), an *Office Building, 5000 SF or Greater* is permitted *by-right* in a Commercial (C) District. The submitted site plan, landscape plan, and building elevations generally conform to the technical requirements contained within the Unified Development Code (UDC) for a property located within a Commercial (C) District. A summary of the density and dimensional requirements for the subject property are as follows:

<i>Ordinance Provisions</i>	<i>Zoning District Standards</i>	<i>Conformance to the Standards</i>
<i>Minimum Lot Area</i>	10,000 SF	X=7,766 square feet; In Conformance
<i>Minimum Lot frontage</i>	60-Feet	X= 58-Feet; In Conformance
<i>Minimum Lot Depth</i>	100-Feet	X>100-Feet; In Conformance
<i>Minimum Front Yard Setback</i>	15-Feet	X>15-Feet; In Conformance
<i>Minimum Rear Yard Setback</i>	10-Feet	X>10-Feet; In Conformance
<i>Minimum Side Yard Setback</i>	10-Feet	X>10-Feet; In Conformance
<i>Maximum Building Height</i>	60-Feet	X=30-Feet; In Conformance
<i>Max Building/Lot Coverage</i>	60%	X=37.6%; In Conformance
<i>Minimum Number of Parking Spaces</i>	1 Parking Space/200 SF (38 Required)	X=20; Requires Waiver <sup>1</sup>
<i>Minimum Landscaping Percentage</i>	20%	X=33%; In Conformance
<i>Maximum Impervious Coverage</i>	90%	C<90%; In Conformance

Notes:

<sup>1</sup>: The applicant will provide a parking agreement at the time of final plat for the Landing Point Addition (T3 Chiropractic, Jungle Trek, and Lefere Office). Together, the complexes provide 114 parking spaces, which is a surplus of 14 spaces over the parking requirement for all combined land uses. According to Section 3.03C of Article 06, *Parking and Loading*, of the Unified Development Code (UDC) "... when the required off-street parking spaces are provided collectively or used jointly by two (2) or more establishments, a written agreement which ensures the retention of such spaces for this purpose, and for a period of not less than two (2) years, shall be drawn and executed by the parties concerned, approved as to form by the City Attorney, and filed with the application for a building permit or Certificate of Occupancy (CO) if a change in use is involved."

**CONFORMANCE WITH THE CITY'S CODES**

According to Subsection 02.02(D)(2), *Office Building*, of Article 13, *Definitions*, of the Unified Development Code (UDC), an office building is defined as "(a) facility that provides executive, management, administrative, or professional services not specifically listed in Section 01, *Land Use Schedule*, of Article 04, *Permissible Uses*, but not involving the sale of merchandise except as incidental to a permitted use." In this case the applicant is requesting an *Office Building 5,000 SF or Greater*, which conforms to the *Office Building 5,000 SF or Greater* land use listed in Section 01, *Land Use Schedule*, of Article 04, *Permissible Uses*, of the Unified Development Code (UDC).

The proposed site plan generally conforms to the *General Commercial District Standards* as stipulated by Article 05, *District Development Standards*, of the Unified Development Code (UDC), with the exception of the variances being requested as outlined in the *Variances and Exceptions Requested by the Applicant* section of this case memo.

**VARIANCES AND EXCEPTIONS BY THE APPLICANT**

As stated above, the applicant's request conforms to the majority of the City's codes; however, staff has identified the following exceptions:

(1) Building Articulation.

- (a) Primary Building Facades. According to Subsection 04.01(C)(1) of Article 05, *Development Standards*, of the Unified Development Code (UDC) primary facades require projections associated with entryways, architectural elements and wall lengths. Specifically, primary architectural/entryway elements are required to extend a minimum of 25% above the top of the wall and a minimum of 25% from the walls surface. In this case, the proposed building does incorporate vertical and horizontal projections on the southern, eastern, and western building façades, but these projections do not meet the standards established by the Unified Development Code (UDC).
- (b) Secondary Building Facades. According to Subsection 04.01(C)(2) of Article 05, *Development Standards*, of the Unified Development Code (UDC) secondary facades require projections associated with architectural elements and wall lengths. Specifically, secondary architectural elements are required to extend a minimum of 15% above the top of the wall and a minimum of 15% from the walls surface. In this case, the proposed building does incorporate vertical and horizontal projections on the northern building façade, but these projections do not meet the standards established by the Unified Development Code (UDC).

According to Subsection 09.01, *Exceptions to the General Standards*, of Article 11, *Development Applications and Review Procedures*, of the Unified Development Code (UDC), "...an applicant may request the Planning and Zoning Commission grant an exception to the provisions contained in the Unified Development Code (UDC), where unique or extraordinary conditions exist or where strict adherence to the technical requirements of the Unified Development Code would create an undue hardship." In addition, the code requires that applicants provide compensatory measures that directly offset the requested exception. In this case, as compensatory measures, the applicant has: [1] added an arcade above the secondary entryway adjacent to the right-of-way, [2] added four (4) accent trees, [3] added a berm, and [4] added additional shrubs. Requests for exceptions to the general standards are discretionary decisions for the Planning and Zoning Commission. Staff should note that a supermajority vote (e.g. six [6] out of the seven [7] commissioners) -- with a minimum of four (4) votes in the affirmative -- is required for the approval of an exception.

**CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN**

The Future Land Use Plan adopted with the OURHometown Vision 2040 Comprehensive Plan identifies the subject property as being situated in the Central District and is designated for Commercial/Retail land uses. According to the plan, the Central District "...is composed of a wide range of land uses that vary from single-family to industrial." In addition, the plan states that Commercial/Retail Center are "...intended to support existing and proposed residential developments, and should be compatible in scale with adjacent residential structures". Based on this, the applicant's request appears to conform with the goals and policies of the OURHometown Vision 2040 Comprehensive Plan.

**ARCHITECTURAL REVIEW BOARD (ARB) RECOMMENDATION**

The Architectural Review Board (ARB) reviewed the building elevations provided by the applicant on February 28, 2022, and made the following recommendations: [1] change the EFIS material to three-part stucco, [2] add an opaque storefront and an arcade over the entryway adjacent to Airport Road, and [3] bring a material sample board for the board to review on March 15, 2022.

**CONDITIONS OF APPROVAL**

If the Planning and Zoning Commission chooses to approve the applicant's Site Plan for the construction of an *Office Building* on the *subject property*, then staff would propose the following conditions of approval:

- (1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of engineering plans.
- (2) Applicant will provide a photometric plan and lighting cut sheets before the engineering process.
- (3) The subject property will be required to be replatted after the engineering process to establish the new easements.

- (4) Any construction resulting from the approval of this Site Plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

## PLANNING AND ZONING COMMISSION CASE MEMO

### PLANNING AND ZONING DEPARTMENT

385 S. GOLIAD STREET • ROCKWALL, TX 75087

PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

---

**TO:** Planning and Zoning Commission  
**DATE:** March 15, 2022  
**APPLICANT:** Jeremy Nelson; *Kirkman Engineering*  
**CASE NUMBER:** SP2022-005; *Site Plan for IDP*

---

### **SUMMARY**

Discuss and consider a request by Jeremy Nelson, PE of Kirkman Engineering on behalf of Phil Wagner of the Rockwall Economic Development Corporation for the approval of a Site Plan for an *Office/Warehouse/Manufacturing Facility* on a 3.81-acre parcel of land identified as Lot 4, Block B, Rockwall Technology Park Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-276 Overlay (SH-276 OV) District, located at the northwest corner of the intersection of Innovation Drive and SH-276, and take any action necessary.

### **BACKGROUND**

The subject property was annexed by the City Council on December 3, 1985 by *Ordinance No. 85-69 [Case No. A1985-002]*. According to the City's December 7, 1993 historic zoning map, at some point between the time of annexation and December 7, 1993, the subject property was rezoned from Agricultural (AG) District and Light Industrial (LI) District. On August 16, 1999, the City Council approved a final plat [*Case No. PZ1999-059-01*] that established the subject property as a portion of Block B, Rockwall Technology Park Addition. On August 21, 2000, the City Council approved a replat [*Case No. PZ2000-068-01*] platting the subject property as Lot 2, Block B, Rockwall Technology Park Addition. On April 24, 2012, the City Council approved a replat [*Case No. P2012-005*] that platted the subject property as Lot 4, Block B, Rockwall Technology Park Addition.

### **PURPOSE**

On February 18, 2022, the applicant -- *Jeremy Nelson of Kirkman Engineering* -- submitted an application requesting the approval of a site plan for the purpose of constructing an *Office/Warehouse/Manufacturing Facility* on the subject property.

### **ADJACENT LAND USES AND ACCESS**

The subject property is located at the northwest corner of the intersection of Innovation Drive and SH-276. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are two (2) parcels of land (*i.e. Lots 1 & 3, Block B, Rockwall Technology Park Addition*) each developed with industrial facilities and zoned Light Industrial (LI) District. Beyond this is Discovery Boulevard, which is identified as a M4U (*i.e. major collector, four [4] lane, undivided roadway*) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this is a vacant 5.268-acre parcel of land (*i.e. Lot 7, Block C, Rockwall Technology Park Addition*) zoned Light Industrial (LI) District.

South: Directly south of the subject property is SH-276, which is identified as TXDOT6D (*i.e. Texas Department of Transportation, six [6] lane, divided roadway*) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this is Phase 1 of the Lofland Farms Subdivision, which is developed with 84 single-family homes and is zoned Planned Development District 45 (PD-45) for Single-Family 8.4 (SF-8.4) District and Single-Family 10 (SF-10) District land uses.

East: Directly east of the subject property is a vacant 8.405-acre parcel of land (i.e. Lot 8, Block A, Rockwall Technology Park Addition) zoned Planned Development District 73 (PD-73) District for Commercial (C) District land uses. Beyond this is Corporate Crossing, which is identified as a TXDOT4D (i.e. Texas Department of Transportation, four [4] lane, divided roadway) on the Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan.

West: Directly west of the subject property is a 0.9537-acre parcel of land (i.e. Lot 1, Block A, Peak Pedi Medical Office Addition) developed with a 3,708 SF Medical Office building and zoned Light Industrial (LI) District. Beyond this is one (1) vacant tract of land (i.e. Tract 1-7 of the J. M. Allen Survey, Abstract No. 2) zoned Light Industrial (LI) District. West of this is a 5.527-acre tract of land (i.e. Tract 1 of the J. M. Alex Survey, Abstract No. 2) developed with a single-family home and zoned Light Industrial (LI) District. Beyond this is a vacant 7.154-acre tract of land (i.e. Tract 3 of the J. M. Allen Survey, Abstract No. 2), followed by 1.008-acre parcel of land (i.e. Lot 1, Block A, VRE Rockwall Addition) developed with a Retail Store with Gasoline Sales that has more than Two (2) Dispensers (i.e. 7 Eleven) zoned Planned Development District 10 (PD-10) for Commercial (C) District land uses.

**DENSITY AND DIMENSIONAL REQUIREMENTS**

According to Section 01, Land Use Schedule, of Article 04, Permissible Uses, of the Unified Development Code (UDC), an Office/Warehouse/Manufacturing Facility is permitted by-right in a Light Industrial (LI) District. The submitted site plan, landscape plan, treescape plan, photometric plan, and building elevations generally conform to the technical requirements stipulated by the Unified Development Code (UDC) for a property located within a Light Industrial (LI) District. A summary of the density and dimensional requirements for the subject property are as follows:

<i>Ordinance Provisions</i>	<i>Zoning District Standards</i>	<i>Conformance to the Standards</i>
Minimum Lot Area	12,500 SF	X=2.50-acres; In Conformance
Minimum Lot frontage	100-Feet	X= 486.82-feet; In Conformance
Minimum Lot Depth	125-Feet	X=332.06-feet; In Conformance
Minimum Front Yard Setback	25-Feet	X>25-feet; In Conformance
Minimum Rear Yard Setback	20-Feet	X>20-feet; In Conformance
Minimum Side Yard Setback	15-Feet	X>15-feet; In Conformance
Maximum Building Height	60-Feet	X<60-feet; In Conformance
Max Building/Lot Coverage	60%	X=12.59%; In Conformance
Minimum Number of Parking Spaces	31 Parking Spaces Required	X=50 Parking Spaces; In-Conformance
Minimum Landscaping Percentage	15%	55%; In Conformance
Maximum Impervious Coverage	90%-95%	X<95%; In Conformance

**TREESCAPE PLAN**

The treescape plan provided by the applicant indicates that the total mitigation balance for the development is 166 caliper inches of tree. The proposed landscape plan shows that 344 caliper inches of Red Oak, Live Oak, and Cedar Elm trees will be planted on the subject property. Based on this the mitigation balance is considered to be satisfied.

**CONFORMANCE WITH THE CITY'S CODES**

Based on Subsection 02.02, Land Use Standards, of Article 13, Definitions, of the Unified Development Code (UDC), the applicant is requesting the approval of an Office/Warehouse/Manufacturing Facility, which conforms to the land uses listed in Section 01, Land Use Schedule, of Article 04, Permissible Uses, of the Unified Development Code (UDC) for a property situated in a Light Industrial (LI) District. The proposed site plan generally conforms to the General Overlay District Standards and the General Industrial District Standards as stipulated by Article 05, District Development Standards, of the Unified Development Code (UDC), with the exception of the variances and exceptions being requested in the Variances and Exceptions Requested by the Applicant section of this case memo.

## **VARIANCES AND EXCEPTIONS BY THE APPLICANT**

As stated above, the applicant's request conforms to the majority of the City's codes; however, staff has identified the following variance and exceptions:

(1) Building Materials.

- (a) Tilt-Up Wall. According to Section 05.01(A)(1)(a)(2), *General Industrial District Standards*, of Article 05, *District Development Standards*, of the Unified Development Code (UDC), the use of concrete tilt-up walls may be permitted on a *case-by-case* basis by the Planning and Zoning Commission. The applicant is proposing the use of 100% tilt-up wall construction for the building, but is cladding the exterior in stone and stucco. *Staff should note that this exception request is not atypical for larger industrial buildings, and that many of the buildings in the Rockwall Technology Park are constructed out of tilt-up walls.*

(2) Articulation.

- (a) Primary Building Façades. According to Subsection 05.01(C)(1) of Article 05, *District Development Standards*, of the Unified Development Code (UDC), primary façades require projections associated with entryways, architectural elements and wall lengths. Specifically, primary architectural/entryway elements are required to extend a minimum of 25% above the top of the wall and a minimum of 25% from the walls surface. In this case, the proposed building does incorporate vertical and horizontal projections on the southern, eastern and western building façades, but these projections do not meet the standards established by the Unified Development Code (UDC).
- (b) Secondary Building Façades. According to Subsection 05.01(C)(2) of Article 05, *District Development Standards*, of the Unified Development Code (UDC), secondary façades require projections associated with architectural elements and wall lengths. Specifically, secondary architectural elements are required to extend a minimum of 15% above the top of the wall and a minimum of 15% from the walls surface. In this case, the proposed building does not incorporate vertical and horizontal projections on the northern building elevation.

According to Subsection 09.02, *Variances to the General Overlay District Standards*, of Article 11, *Development Applications and Review Procedures*, of the Unified Development Code (UDC), "...an applicant may request the Planning and Zoning Commission grant a variance to the provisions contained in Section 06.02, *General Overlay District Standards*, of Article 05, *District Development Standards*, where unique or extraordinary conditions exist or where strict adherence to the technical requirements of the Unified Development Code would create an undue hardship." In addition, the code requires that applicants provide compensatory measures that directly offset the requested variances. In this case, as a compensatory measure the applicant is proposing to provide greater than 90% masonry material and provide stone in excess of the 20% required. Staff should note that since tilt-up wall requires an exception it cannot be counted as a masonry material, and based on this the only compensatory measure being offered is stone in excess of the 20% requirement. With this being said, staff should point out that additional compensatory measures do not appear to benefit the site. This is mainly because of the amount of tree mitigation required on this property and the amount of trees the applicant is proposing to plant. Based on this the site will already have an increased number of trees and other plantings that will give the same effect as the typically approved compensatory measures. With this being said, requests for variances to the *General Overlay District Standards* are discretionary decisions for the Planning and Zoning Commission. Staff should note that a supermajority vote (*e.g. six [6] out of the seven [7] commissioners*) -- with a minimum of four (4) votes in the affirmative -- is required for the approval of a variance.

## **CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN**

The Future Land Use Plan adopted with the OURHometown Vision 2040 Comprehensive Plan identifies the subject property as being situated in the Technology District. The Technology District is "...primarily characterized as an employment heavy district containing all phases of the Rockwall Economic Development Corporation's (REDC's) Technology Park, which supports a wide range of clean industrial businesses that help to diversify the City's tax base." Within the district the subject property is indicated as *Technology/Employment Center*, which should be "...preserved for larger clean industrial businesses." Based on this, the applicant's request conforms with the Technology District strategies of the OURHometown Vision 2040 Comprehensive Plan.

## **ARCHITECTURAL REVIEW BOARD (ARB) RECOMMENDATION**

The Architectural Review Board (ARB) reviewed the building elevations provided by the applicant on February 28, 2022. At this meeting, the Board made the following recommendations: [1] bring the stone down to create a wainscot along the bottom of the building, [2] screen the RTUs with louvers, and [3] rework the proportionality of the narrow stone elements. Based on the re-submitted building elevations, the applicant appears to have addressed all of the ARB's concerns; however, the ARB will re-review the elevations at the meeting on March 15, 2022.

## **CONDITIONS OF APPROVAL**

If the Planning and Zoning Commission chooses to approve the applicant's Site Plan for the *Office/Warehouse/Manufacturing Facility* on the *subject property*, then staff would propose the following conditions of approval:

- (1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of engineering plans.
- (2) The subject property will be required to be replatted prior to the issuance of a building permit.
- (3) Any construction resulting from the approval of this Site Plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

  - c. When plant replacements are made, plants, soil mix, fertilizer and mulch are to be utilized as originally specified and reinspected for full compliance with Contract requirements. All replacements are to be included under "Work" of this section.

- The Owner agrees that for the guarantee to be effective, he will water plants at least twice a week during dry periods and cultivate beds once a month after final acceptance.
  - The above guarantee shall not apply where plants die after acceptance because of injury from storms, hail, freeze, insects, diseases, injury by humans, machines or theft.
  - Acceptance for all landscape work shall be given after final inspection by the Owner provided the job is in a completed, undamaged condition, and there is a stand of grass in all lawn areas. At this time, the Owner will assume maintenance on the accepted work.
- C. Repairs: Any necessary repairs under the Guarantee must be made within ten (10) days after receiving notice, weather permitting, and in the event the Landscape Contractor does not make repairs accordingly, the Owner, without further notice to Contractor, may provide materials and men to make such repairs at the expense of the Landscape Contractor.

**1.7 QUALITY ASSURANCE**

- A. General: Comply with applicable Federal, State, County and Local regulations governing landscape materials and work
- B. Personnel: Employ only experienced personnel who are familiar with the required work. Provide full time supervision by a qualified foreman acceptable to Landscape Architect
- C. Selection of Plant Material:

- Make contact with suppliers immediately upon obtaining notice of contract acceptance to select and book materials. Develop a program of maintenance (pruning and fertilization) which will insure the purchased materials will meet and/or exceed project specifications.
- Landscape Architect will provide a key identifying each tree location on site. Written verification will be required to document material selection, source and delivery schedules to site.
- Owner and/or Architect shall inspect all plant materials when reasonable at place of growth for compliance with requirements for genus, species, cultivar/variety, size and quality.
- Owner and/or Architect retains the right to further inspect all plant material upon arrival at the site and during installation for size and condition of root balls, limbs, branching habit, insects, injuries, and latent defects.
- Owner and/or Architect may reject unsatisfactory or defective material at any time during the process of work. Remove rejected materials from the site immediately. Plants damaged in transit or at job site shall be rejected.

**1.8 PRODUCT DELIVERY, STORAGE AND HANDLING**

- A. Preparation:
  - Balled and Burlapped (B&B) Plants: Dig and prepare shipment in a manner that will not damage roots, branches, shape, and future development.
  - Container Grow Plants: Deliver plants in rigid container to hold ball shape and protect root mass.

**A. Delivery:**

- Deliver packaged materials in sealed containers showing weight, analysis and name of manufacturer. Protect materials from deterioration during delivery and while stored at site.
- Deliver only plant materials that can be planted in one day unless adequate storage and watering facilities are available on job site.
- Protect root balls by heeling in with sawdust or other approved moisture retaining material if not planted within 24 hours of delivery.
- Protect plants during delivery to prevent damage to root balls or desiccation of leaves. Keep plants moist at all times. Cover all materials during transport.
- Notify Architect of delivery schedule 72 hours in advance so plant material may be observed upon arrival at job site.
- Remove rejected plant material immediately from site.
- To avoid damage or stress, do not lift, move, adjust to plumb, or otherwise manipulate plants by trunk or stems.

**PART 2 - PRODUCTS**

**2.1 PLANTS**

- A. General: Well-formed No. 1 grade or better nursery grown stock. Listed plant heights are from tops of root balls to nominal tops of plants. Plant spread refers to nominal outer width of the plant, not to the outer leaf tips. Plants will be individually approved by the Architect and his decision as to their acceptability shall be final.
- B. Quantities: The drawings and specifications are complimentary. Anything called for on one and not the other is as binding as if shown and called for on both. The plant schedule is an aid to bidders only. Confirm all quantities on plan.
- C. Quality and size: Plant materials shall conform to the size given on the plan, and shall be healthy, symmetrical, well-shaped, full branched, and well rooted. The plants shall be free from injurious insects, diseases, injuries to the bark or roots, broken branches, objectionable discolorations, insect eggs and larvae and are to be of specimen quality.
- D. Approval: All plant materials shall be subject to the approval of the Owner. All plants which are found unsuitable in growth, or in any unhealthy, badly shaped, or undersized condition, will be rejected by the Landscape Architect, either before or after planting, and shall be removed at the expense of the Landscape Contractor and replaced with acceptable plants as specified.
- E. Trees shall be healthy, full-branched, well-shaped and shall meet the trunk diameter and height requirements of the plant schedule. Balls shall be firm, neat, slightly tapered, and well wrapped in burlap. Any tree loose in the ball or with broken ball at time of planting will be rejected. Balls shall be ten (10) inches in diameter for each one (1") inch of trunk diameter. Measured six (6) inches above ball. Nomenclature conforms to the customary nursery usage. For clarification, the term "multi-trunk" defines a plant having three (3) or more trunks of nearly equal diameter.
- F. Pruning: All pruning of trees and shrubs, as directed by the Landscape Architect, shall be executed by the Landscape Contractor at no additional cost to the Owner.

**2.2 SOIL PREPARATION MATERIALS**

- A. Sandy Loam:
  - Friable, fertile, dark, loamy soil, free of clay lumps, subsoil, stones and other extraneous material and reasonably free of weeds and foreign grasses. Loam containing Dallasgrass or Nidgrass shall be rejected.
  - Physical properties as follows:
    - Clay – between 7-27 percent
    - Silt – between 15-25 percent
    - Sand – less than 52 percent
  - Organic matter shall be 3%-10% of total dry weight.
  - If requested, provide a certified soil analysis conducted by an approved soil testing laboratory verifying that sandy loam meets the above requirements.

- B. Organic Material: Compost with a mixture of 80% vegetative matter and 20% animal waste. Ingredients should be a mix of coarse and fine textured material.
- C. Premixed Bedding Soil as supplied by Vital Earth Resources, Gladewater, Texas; Professional Bedding Soil as supplied by Living Earth Technology, Dallas, Texas or Acid Gro Municipal Mix as supplied by Soil Building Systems, Dallas, Texas or approved equal.
- D. Sharp Sand: Sharp sand must be free of seeds, soil particles and weeds.
- E. Mulch: Double Shredded Hardwood Mulch, partially decomposed, dark brown. Living Earth Technologies or approved equal.
- F. Organic Fertilizer: Fertalid, Sustane, or Green Sense or equal as recommended for required applications. Fertilizer shall be delivered to the site in original unopened containers, each bearing the manufacturer's guaranteed statement of analysis.

**2.3 MISCELLANEOUS MATERIALS**

- A. Steel Edging: Shall be Ryerson "Estate Curbing", 1/8" x 4" with stakes 4' on center.
- B. Staking Material for Shade Trees:
  - Post: Sludded T-Post, #1 Armo-co with anchor plate, 6'-0" length; paint green.
  - Wire: 12 gauge, single strand, galvanized wire
  - Rubber hose: 2 ply, fiber reinforced hose, minimum 1/2 inch inside diameter. Color: Black.
- C. Gravel: Washed native pea gravel, graded 1 in. to 1-1/2 in.
- D. Filter Fabric: Miraf 140N by Celanese Fibers Marketing Company, available at Loftland Co., (214) 631-5250 or approved equal.

**PART 3 - EXECUTION**

**3.1 BED PREPARATION & FERTILIZATION**

- A. Landscape Contractor to inspect all existing conditions and report any deficiencies to the Owner.
- B. All planting areas shall be conditioned as follows:
  - Prepare new planting beds by scraping away existing grass and weeds as necessary. Till existing soil to a depth of six (6") inches prior to placing compost and fertilizer. Apply fertilizer as per manufacturer's recommendations. Add six (6") inches of compost and till into a depth of six (6") inches of the topsoil. Apply organic fertilizer such as Sustane or Green Sense at the rate of twenty (20) pounds per one thousand (1,000) square feet.
  - All planting areas shall receive a two (2") inch layer of specified mulch.
  - Backfill for tree pits shall be as follows: Use existing top soil on site (use imported topsoil as needed) free from large clumps, rocks, debris, caliche, subsoils, etc., placed in nine (9") inch layers and watered in thoroughly.
- C. Grass Areas:
  - Areas to be Solid Sod Bermudagrass: Blocks of sod should be laid joint to joint, (staggered joints) after fertilizing the ground first. Roll grass areas to achieve a smooth, even surface. The joints between the blocks of sod should be filled with topsoil where they are evidently gaped open, then watered thoroughly.
  - Areas to be Hydromulch Common Bermudagrass: Hydromulch with bermudagrass seed at a rate of two (2) pounds per one thousand (1,000) square feet. Use a 4' x 8' batter board against the bed areas.

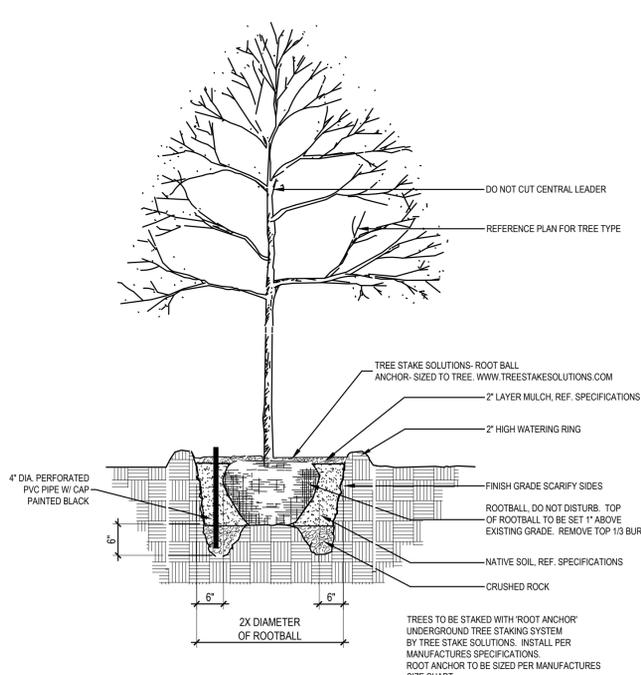

**3.2 INSTALLATION**

- A. Maintenance of plant materials shall begin immediately after each plant is delivered to the site and shall continue until all construction has been satisfactorily accomplished.
- B. Plant materials shall be delivered to the site only after the beds are prepared and area ready for planting. All shipments of nursery materials shall be thoroughly protected from the drying winds during transit. All plants which cannot be planted at once, after delivery to the site, shall be well protected against the possibility of drying by wind and sun. Balls of earth of B & B plants shall be kept covered with soil or other acceptable material. All plants remain the property of the Contractor until final acceptance.
- C. Position the trees and shrubs in their intended location as per plan.
- D. Notify the Landscape Architect for inspection and approval of all positioning of plant materials.
- E. Excavate pits with vertical sides and horizontal bottom. Tree pits shall be large enough to permit handling and planting without injury to balls of earth or roots and shall be of such depth that, when planted and settled, the crown of the plant shall bear the same relationship to the finish grade as it did to soil surface in original place of growth.

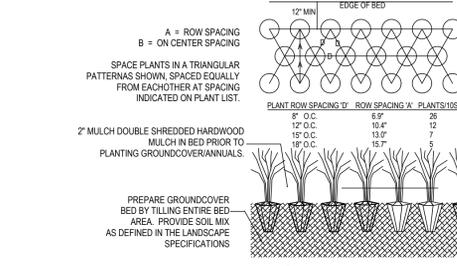

**3.3 CLEANUP AND ACCEPTANCE**

- A. Cleanup: During the work, the premises shall be kept neat and orderly at all times. Storage areas for all materials shall be so organized that they, too, are neat and orderly. All trash and debris shall be removed from the site as work progresses. Keep paved areas clean by sweeping or hosing at end of each days work.

**EXISTING TREE NOTES**

1. Existing trees to remain shall be protected during construction from tree structure damage and compaction of soil under and around drip line (canopy) of tree.
2. If any root structure is damaged during adjacent excavation/construction, notify the Architect immediately. It is recommended that a licensed Arborist be secured for the treatment of any possible tree wounds.
3. No disturbance of the soil greater than 4" shall be located closer to the tree trunk than 1/2 the distance of the drip line to the tree trunk. A minimum of 75% of the drip line and root zone shall be preserved at natural grade.
4. Any fine grading done within the critical root zones of the protected trees must be done with light machinery such as a bobcat or light tractor. No earth moving equipment with tracks is allowed within the critical root zone of the trees.
5. Material Storage: No materials intended for use in construction or waste materials accumulated due to excavation or demolition shall be placed within the limits of the drip line of any tree.
6. Equipment Cleaning/Liquid Disposal: No equipment may be cleaned, toxic solutions, or other liquid chemicals shall be disposed within the limits of the drip line of a tree. This would include but not be limited to paint, oil, solvents, asphalt, concrete, mortar, primers, etc.

10. Trenching: Any irrigation trenching which must be done within the critical root zone of a tree shall be dug by hand and enter the area in a radial manner.
11. Tree Flagging: All trees to be removed from the site shall be flagged by the Contractor with bright red vinyl tape (3" width) wrapped around the main trunk at a height of four (4) feet above grade. Flagging shall be approved by Landscape Architect prior to any tree removal. Contractor shall contact Landscape Architect with 72 hour notice to schedule on-site meeting.
12. Protective Fencing: All trees to remain, as noted on drawings, shall have protective fencing located at the tree's drip line. The protective fencing may be comprised of snow fencing, orange vinyl construction fencing, chain link fence or other similar fencing with a four (4) foot approximate height. The protective fencing will be located as indicated on the Tree Protection Detail(s).
13. Bark Protection: In situations where a tree remains in the immediate area of intended construction, the tree shall be protected by enclosing the entire circumference of the tree's trunk with lumber encircled with wire or other means that does not damage the tree. Refer to Tree Protection Detail(s).
14. Construction Pruning: In a case where a low hanging limb is broken during the course of construction, the Contractor shall notify the Landscape Architect immediately. **TO:** Planning and Zoning Commission  
**DATE:** March 15, 2022  
**APPLICANT:** Luis Chico; *Creativo Designs*  
**CASE NUMBER:** SP2022-006; *Amended Site Plan for Pollo Regio*

---

### SUMMARY

Discuss and consider a request by Luis Chico of Creativo Designs on behalf of Hector Rodriguez for the approval of a Site Plan for a *Restaurant with 2,000 SF or More with Drive-Through or Drive-In (i.e. Pollo Regio)* on a 1.03-acre parcel of land identified as Lot 1, block A, Grandy's Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 726 E. IH-30, and take any action necessary.

### BACKGROUND

The subject property was annexed in 1960 [Case No. A1960-004; Ordinance No. 60-04], is zoned Commercial (C) District, and is situated within the IH-30 Overlay (IH-30 OV) District. On June 17, 1996, the City Council approved a site plan [Case No. PZ1996-035] for a restaurant (i.e. Grandy's) on the subject property. On December 2, 1996, the City Council approved a variance to allow a sign that exceeds the maximum allowable height for a sign in a Commercial (C) District. On July 15, 1996, the City Council approved a replat [Case No. PZ1996-047] establishing the necessary firelane and public access easements for the site. According to the Rockwall Central Appraisal District (RCAD), the existing restaurant was constructed in 1996. On January 13, 1997, a Certificate of Occupancy (CO) for a restaurant was issued [CO1997-0363] by the Building Inspections Department. The restaurant was closed between July 2018 and March 2019.

### PURPOSE

The applicant is requesting the approval of an amended site plan for the renovation of the existing 3,764 SF *Restaurant with Drive-Through* situated on the subject property for the purpose of establishing a *Restaurant with Drive-Through (i.e. Pollo Regio)*.

### ADJACENT LAND USES AND ACCESS

The subject property is located at 726 E. IH-30. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property, there is a municipal water utility facility (i.e. *Southside Water Tower*), a daycare facility (i.e. *Whitehills Child Development Center*), a house of worship (i.e. *First Presbyterian Church of Rockwall*) and an office building (i.e. *White Hills Offices*). Following this is a White Hills Drive, which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this, there are several office buildings (i.e. *Citibank Building, Apple Orthodontics, etc.*). These properties are all zoned Commercial (C) District.

South: Directly south of the subject property is IH-30, which is identified as a TXDOT6D (i.e. *Texas Department of Transportation, six [6] line, divided roadway*) on the City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Following this, there is a shopping center (i.e. *Rockwall Market Center*) that contains several commercial/retail businesses (i.e. *Mattress Firm, Office Max, etc.*).

East: Directly east of the subject property, there are several commercial businesses (i.e. *RE/MAX Properties, Firestone Complete Auto Care, etc.*). Following this, is White Hills Drive, which is identified as a *Minor Collector* on the

City's Master Thoroughfare Plan contained in the OURHometown Vision 2040 Comprehensive Plan. Beyond this, there are several commercial/retail businesses (i.e. Car Toys, Wal-Mart, etc.). All of these properties are zoned Commercial (C) District.

West: Directly west of the subject property are several commercial businesses (i.e. Enterprise Rent-A-Car, Chase Bank, etc.) followed by Vigor Way, which is a private roadway. Beyond this there are several commercial/retail businesses (i.e. Denny's Valvoline Oil Change, etc.). All of these properties are zoned Commercial (C) District.

**DENSITY AND DIMENSIONAL REQUIREMENTS**

The applicant is proposing to renovate the existing 3,764 SF Restaurant with Drive-Through. The proposed renovations include expanding the proposed building footprint to 3,956 SF, recladding the exterior of the building with a combination of stone and stucco, and adding vertical articulation elements. Outside of the changes to the building elevations the overall site plan will generally remain the same. A summary of the density and dimensional requirements for the subject property, and the proposed projects conformance to these standards is as follows:

<i>Ordinance Provisions</i>	<i>Zoning District Standards</i>	<i>Conformance to the Standards</i>
<i>Minimum Lot Area</i>	10,000 SF	44,997.48 SF; <i>In Conformance</i>
<i>Minimum Lot Frontage</i>	60-Feet	246.83-Feet; <i>In Conformance</i>
<i>Minimum Lot Depth</i>	100-Feet	211.01-Feet; <i>In Conformance</i>
<i>Minimum Front Yard Setback</i>	15-Feet	X>15-Feet; <i>In Conformance</i>
<i>Minimum Rear Yard Setback</i>	10-Feet	X>10-Feet; <i>In Conformance</i>
<i>Minimum Side Yard Setback</i>	10-Feet	X>10-Feet; <i>In Conformance</i>
<i>Maximum Building Height</i>	60-Feet	22-Feet; <i>In Conformance</i>
<i>Max Building/Lot Coverage</i>	60%	9.0%; <i>In Conformance</i>
<i>Minimum Number of Parking Spaces</i>	40 Parking Spaces	54 Parking Spaces; <i>In Conformance</i>
<i>Minimum Landscaping Percentage</i>	20%	X<20%; <i>Legally Non-Conforming</i>
<i>Maximum Impervious Coverage</i>	85-90%	X<90%; <i>In Conformance</i>

**TREESCAPE PLAN**

The landscape plan submitted by the applicant indicates that no trees will be removed from the site and that no mitigation will be required.

**CONFORMANCE WITH THE CITY'S CODES**

According to the Rockwall County Appraisal District (RCAD) the existing building was constructed in 1996, which was prior to the adoption of the Unified Development Code (UDC). Based on this, the existing building is considered to be a legally non-conforming structure. Currently, the existing building meets the roof design standards, but not the horizontal building articulation requirements. The applicant is proposing to reface the building and change the pitched roof design to a parapet roof design to give the appearance of a flat roof, which brings the building further out of conformance with the *General Overlay District Standards*. With this being said, the proposed redesign does meet the minimum vertical articulation requirements and does not change the existing building's conformance to the horizontal building articulation requirements.

**VARIANCES BY THE APPLICANT**

As stated above, the applicant's request generally conforms to the majority of the City's codes; however, staff has identified the following variances brought about by increases to the non-conformity of the existing structure that will result from the proposed development:

- (1) Building Materials. According to Subsection 06.02(C), *Architectural Standards*, of Article 05, *District Development Standards*, of the Unified Development Code (UDC), "...cementitious materials (e.g. stucco, cementitious lap siding, or similar materials approved by the Director of Planning and Zoning or his/her designee) shall be limited to 50% of the building's exterior façade." In this case the applicant is proposing the use of more than 50% stucco on the northern and western building elevations.

- (2) Roof Design Standards. According to Subsection 06.02(C)(2), Roof Design Standards, of Article 05, District Development Standards, of the Unified Development Code (UDC) states that "(a)ll structures that have a building footprint of less than 6,000 SF shall be constructed with a pitched roof." In this case the applicant is requesting a parapet roof system.

According to Subsection 09.02, Variances to the General Overlay District Standards, of Article 11, Development Applications and Review Procedures, of the Unified Development Code (UDC), "...an applicant may request the Planning and Zoning Commission grant a variance to the provisions contained in Section 06.02, General Overlay District Standards, of Article 05, District Development Standards, where unique or extraordinary conditions exist or where strict adherence to the technical requirements of the Unified Development Code would create an undue hardship." With this being said, the proposed building elevations do incorporate greater than 20% natural stone on the north, east, and west building façades. Subsection 09.02, Variances to the General Overlay District Standards, of Article 11, Development Applications and Review Procedures, of the Unified Development Code (UDC), "(i)n cases where a variance or variances is/are being requested, the applicant shall provide two (2) compensatory measures that directly offset the requested variance." Based on the two (2) proposed variances to the roof design standards and overlay district masonry material requirements, the applicant is required to provide four (4) compensatory measures; however, the applicant is only proposing to make changes to the building where they have proposed the use of more than 20% stone on three (3) sides of the building. Staff has suggested to the applicant that additional landscaping should be provided as a compensatory measure to help bring the site closer into compliance with the current requirements of the Unified Development Code (UDC); however, the applicant's landscape plan shows no changes from the current landscaping on the site. Staff has added a Condition of Approval that would require additional landscaping, for the Planning and Zoning Commission's consideration. With this being said, requests for variances to the General Overlay District Standards and the proposed compensatory measures intended to off-set the variances being requested are discretionary decisions for the Planning and Zoning Commission. Staff should note that a supermajority vote (*e.g. six [6] out of the seven [7] commissioners*) -- *with a minimum of four (4) votes in the affirmative* -- is required for the approval of a variance.

### **CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN**

The OURHometown Vision 2040 Comprehensive Plan indicates the subject property is located within the IH-30 Corridor District. This district is composed primarily of a Special Commercial Corridor (SC). The IH-30 Corridor District will continue to serve as the City's primary retail corridor in the future. The subject property is zoned Commercial (C) District, and the applicant's request appears to be in conformance with Future Land Use Plan and the District Strategies outlined for the IH-30 Corridor District as stipulated in the OURHometown Vision 2040 Comprehensive Plan.

### **ARCHITECTURAL REVIEW BOARD (ARB):**

The Architectural Review Board (ARB) reviewed the building elevations provided by the applicant on February 28, 2022, and made the following recommendations: [1] add depth the vertical wing walls so they are not flat, [2] replace the cultured stone with a natural/quarried stone, [3] add a tower element to the drive-thru side, [4] provide a projection on the "south" side (*i.e. the side facing IH-30*) so that elevation is not flat, and [5] increase the height of the stone to the canopies on the projecting elements. The applicant has provided updated building elevations that meet the ARB's requests. These will be reviewed by the ARB at the meeting on March 15, 2022.

### **CONDITIONS OF APPROVAL**

If the Planning and Zoning Commission chooses to approve the applicant's request for an amended site plan for an existing restaurant with drive-through, then staff would propose the following conditions of approval:

- (1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.
- (2) As compensatory measures, staff would recommend that additional canopy and accent trees be added to the subject property in order to bring the overall site closer into compliance with the City's current requirements. If approved by the Planning and Zoning Commission, the applicant will need to work with staff to submit an updated landscape plan prior to the acceptance of civil engineering plans and/or a building permit.

- (3) Any construction resulting from the approval of this Amended Site Plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.
